LOGS ---> A log search for P29NI (OC-099), P29VCX (OC-103) and P29VPB (OC-069) is now available at http://p29ni.yolasite.com/logs-online.php

PJ5J ---> The website for the upcoming PJ5J DXpedition (30 November-12 December) [425DXN 1123] can be found at http://www.ndxa.net/pj5j/.

PT0S ---> The DXpedition to St. Peter & St. Paul Rocks now runs three stations during the day and two during the night. The main challenges for the team are limited Internet access, a difficult physical environment and extremely limited space. For the time being the online logsearch now 12517 QSOs made until 0928 UTC on 15 November: not only do they have limited bandwidth, but also the satellite openings are very short and erratic. This causes severe delays in updates: "please bear with us", they say, "and do not 'over-dupe' us". They intend to make log corrections once they are back on land, but until then the logs are as published. Keep monitoring http://pt0s.com/ for regular updates

QSL VIA DK2BJ ---> Bernd, VK6AA reports that the new QSL manager for all of his VK calls (VK2IA, VK6AA, VK8VJ, VK9AA, VK9AA/9) is DK2BJ, who replaces DL8YR (SK since May). Bern will upload his VK logs to LoTW by the end of the year. [TNX K1XN and The Golist]

YI1IRQ ---> The genuine YI1IRQ, the callsign of the Iraq Amateur Radio Society, has been back on the air since 14 November. "The last legitimate QSO made by YI1IRQ prior to that was in August 2008", Alan 5B4AHJ reminds. "In the intervening period, this call was pirated".

+ SILENT KEYS + Recently reported Silent Keys include Georges Zanotto (F5DFN), Danilo Vegetti (I2VDX), Antonio Pezzini (IZ5KBK), Frank H Scotland (ZF1GC) and Petrus Jacobas Botha (ZS4PB).
