**** DX INFORMATION ****

==========

Edited by I1JQJ & IK1ADH

Direttore Responsabile I2VGW

3DA - Gert, ZS6AYU (3DA0GF on CW) and Hannes, ZS6BZP (3DA0HC on SSB) will be active on 40-10 metres from Swaziland on 5-8 November. QSL via home calls, direct only. [TNX NG3K]

5W - Rudi, ZL2KBR will be active as 5W0BR from Apia, Samoa (OC-097) on 5-13 November. He will operate SSB and PSK31 on all bands with 100 watts, dipoles and/or a vertical antenna. QSL via home call. [TNX OPDX Bulletin]

6W - Matthias DL5MFL, Juergen DL4MAQ and Sven DF9MV will be active as 6V7Z from Senegal on 8-18 November. They plan to operate CW, SSB and possibly PSK31 with two stations. QSL via DE0MST. [TNX DX World]

CE - Cezar, VE3LYC and Johan, PA3EXX will attempt a very challenging expedition to the Wollaston Islands (SA-031, IOTA Most Wanted #6) and Diego Ramirez Islands (SA-097, IOTA new one) between approximately 7 and 22 January. The plan is to operate for four days from each group. However, weather and sea conditions can influence significantly this schedule. The team has retained for this trip the services of Thomas, an experienced skipper, with his 40 ft yacht. They are aware that landing on SA-097 is extremely difficult and may not be possible within such a limited timeframe. The logistical support received from the Radio Club de Chile and Radio Club de Punta Arenas has been invaluable in obtaining the licenses, permits, and authorizations required for this project. This is not only a difficult but also a very expensive operation. At this time the team seeks enthusiastic group and individual donors who wish to be part of this effort. Financial support can be sent by mail to Cezar, VE3LYC or PayPal to tiberius.trifu[@]gmail.com. All contributions to this project will be acknowledged. Callsigns and QSL instructions will be announced in due course. [TNX VE3LYC]

CY0 - "It has been a very busy time", N0TG says, "but we have been able to put all of the details together. The aircraft has been repaired and the Sable Island DXpedition is back on the calendar". The new dates are 6-13 December. Further information is expected to be published on www.CY0dxpedition.com.

EA - ARMIC, the Association of Disabled Blind Radioamateurs of Catalonia, will operate three special event stations (EG0EJA, EG3VP and EG3VSP) on 7 November during the visit of the King of Spain for the consecration of Barcelona's famous church, La Sagrada Familia, presided by Pope Benedict XVI. QSL via EA3RKR. [TNX EA3RKR]

EA6 - Peter, G3TKK will be active holiday style as EA6/G3TKK from from central Majorca, Balearic Islands (EU-004) on 5-14 November. He will operate CW, BPSK and RTTY. QSL via home call. He will upload

his log to LoTW as soon as possibile on return. [TNX G3TKK]

GU - Look for MU/F4EGD, MU/F4ERS, MU/F5CWU and MU/F5NHJ to be active from Guernsey (EU-114) on 9-19 November. They will operate on 160-10 metres all modes with three stations. QSL via home calls, direct or bureau. [TNX The Daily DX]

HZ - Abdul, HZ1DG expects to be active from the Farasan Islands (AS-193) on 6-7 November. He will operate mainly on 20 metres SSB. [TNX The Daily DX]

I - Tony, IK1QBT and Emilio, IZ1GAR will be active as IH9/IK1QBT and IH9/IZIGAR from Pantelleria (AF-019) on 23-30 November. They will participate in the CQ WW DX CW Contest as IH9X (on 80 metres) and IH9R (on 40 metres) respectively. QSL via home calls. [TNX IK1QBT]

ON_ant - Karel, ON5TN will be staying at the Belgian Antarctic base "Princess Elisabeth", Antarctica between 10 November and 24 February 2011. He plans to operate again as OR4TN in his spare time, starting in December. Updates will be posted on qrz.com under OR4TN. QSL via ON5TN. [TNX ON5NT]

PJ4 - Look for Hennie, PJ4/PE1MAE to be active from Bonaire (SA-006) for about four months starting on 8 November. QSL via bureau or direct to PA2NJC. [TNX DX Newsletter]

TJ - Henri, F6EAY is now stationed in Cameroon "for professional reasons" and is expected to remain there for quite some time. He is active as TJ3AY and will operate RTTY and SSB on 40-6 metres. QSL via F5LGE. [TNX F5NBU]

V5 - "Personal circumstances" forced Klaus, DJ4SO to postpone to February 2011 his activity from Namibia, which was due to start on 3 November [425DXN 1017]. [TNX The Daily DX]

XE - Manuel, XE2HUQ and Tony, XE2HVF plan to be active as XF1HUQ and XF1HVF from Magdalena Island (NA-078) on 18-22 November. Expect activity on 80-10 CW and SSB. QSL via home call. [TNX XE2HUQ and XE2HQI]

**** GOOD TO KNOW ... ****
==========
Edited by I1JQJ & IK1ADH
Direttore Responsabile I2VGW

DX0DX ---> The DX0DX expedition to the Spratly Islands [425DXN 1013] has been extended to 1 February, in order to accommodate the CQ World Wide 160m CW Contest. A very large team of operators from 15 nations will be active from four operating sites with eleven transceivers (four each for CW and SSB, plus two on digital modes and one for 6m, 2m, 70cm & 23cm) and a wide range of antennas (yagis, verticals and 4-squares). Updates and further information, including details on how contribute to this expensive operation, can be found at www.dx0dx.net [TNX VK3PC]

G3SWH OQRS SERVICE ---> "I am pleased to announce the launch of my On-line QSL Request System (OQRS). In addition to the long established ability to request bureau cards via e-mail, you can now request QSL cards for any of the 100+ callsigns that I manage to be mailed to you direct and to pay for the postage etc. via PayPal. Why bother with mailing direct? The OQRS is

easy and reasonable. Any queries or unforeseen issues will be handled via e-mail. Please visit my web site www.g3swh.org.uk for further information and instructions". [TNX G3SWH]

T32C ---> "An anonymous sponsor has kindly offered to pay for the return flights between Honolulu and Kiritimati, plus hotel and food costs while on the island, of a young amateur to join the T32 DXpedition. The young operator will be required to pay for his/her flights between home and Honolulu. We are looking for a competent operator in the 18 to 25 age group and we have reserved a slot during the second half of the DXpedition from 9th to 27th October 2011. If you are interested, or know of somebody who might be, please email Neville, G3NUG (g3nug[@]btinternet.com) as soon as possible". [TNX www.t32c.com]

TOP LISTS ---> The latest Topband, Topmode and Toplist listings are now available at www.425dxn.org/awards/toplist/index.html. QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send send your scores, as well as any request for further information, to Erminio Pandocchi, I2EOW (i2eow[@]fastwebnet.it)

QSL GALLERY ---> The large collection of QSL cards on Les Nouvelles DX's web site has been updated. Thirteen different galleries include cards for the ten Most Wanted DXCC Entities (331 QSLs), the 58 deleted DXCC entities (1141 QSLs), obsolete prefixes (3123 QSLs), stations from Magrebh from 1947 to 1962 (361 QSLs), D5 and DL5 stations from 1945 to 1962 (61 QSLs), Antarctic bases (817 QSLs) & TAAF (Terres Australes and Antarctiques Francaises, 261 QSLs), the various French DXCC island Entities in the Pacific Ocean (325 QSLs) & the Indian Ocean (96 QSLs), pre-1945 countries (1037 QSLs), French Departments (633 QSLs) and CONUS (112 QSLs), plus a gallery for cards not accepted by DXCC (119 QSLs). Several cards are still needed (expecially for F7 stations from France 1948-62) and your participation is encouraged - please visit www.LesNouvellesdx.fr and send your comments to lesnouvellesdx[@]free.fr [TNX F6AJA]

VOACAP ONLINE ---> The point-to-point HF propagation prediction service VOACAP Online (http://online.voacap.com) now uses Google Maps for coordinate entry. The transmitter and receiver coordinates are defined by dragging two location markers on the map. The mouse wheel or keyboard keys can be used for zooming in and out so placing the markers at the exact points on the map is as accurate as it can get. Jari Perkiomaki (OH6BG) has also updated the sunspot predictions until the year 2012.

ZL8X ---> The latest update on the forthcoming DXpedition to the Kermadec Islands [425DXN 1009] is available at www.kermadec.de. In particular, the "Operating" page now features the announced frequencies table and some tips about working ZL8X on the low bands, RTTY, 6 metres and during the CQ WW DX CW contest.
