So 15m, 12m, 10m and then 6m over a total period of 4 x 300 days. So I can plan the 6m permit for the best time of the year for propagation".

K7K ---> Most QSOs made by the recent K7K IOTA DXpedition to Kiska Island (NA-070) have been uploaded to Club Log, and the OQRS has been enabled for Direct and bureau cards (https://clublog.org/logsearch/K7K/2022). Apparently a few hundred QSOs are still missing, though. No logs were lost, but "some laptops are in transit from Alaska and will not show up for 3-4 weeks", N3QQ says. Please refrain from sending log check requests until the complete log is uploaded around 15 September. Those who do not use Club Log's OQRS should send their cards direct only to N7RO.
