Access to the main functions of www.425dxn.org is provided by the 425DXN App for Android. It is available on Google Play - free of charge, no ads. Enjoy!

VP6D ---> A couple of months ago Facebook updated an API used by third-party applications that allowed for cross-posting. The change breaks this functionality and Twitter users are no longer be able to create a Tweet and share it easily to their Facebook page. "We have arranged for tweets to be transferred to VP6D's Facebook page", the VP6D team says. "However, due to time zone differences there may be a delay between Twitter and Facebook updates. If you follow us on Twitter (@VP6D_2018) you'll receive our tweets without delay". The "Braveheart" is ready to sail, and the VP6D team is ready to soon begin their journey. Follow the ship's progress on https://share.garmin.com/vp6d. The function will be activated on 16 October and will remain active until the team returns to Mangareva on 6 November.
