425 DX NEWS MAGAZINE ---> The November 2012 issue is now available for download at [www.425dxn.org/monthly/index.html](http://www.425dxn.org/monthly/index.html). [TNX IZ3EBA]

IOTA CHARGES ---> IOTA charges, most of which have remained unchanged since 2007, will rise on 1 January 2013. The full list can be seen at <http://www.rsgbiota.org/info/directory/charges-en.pdf>. The new fees will be applied automatically through the charging module to all applications received on or after 1 January. The RSGB regrets the need to increase charges but the current financial climate makes this unavoidable. Applications/updates received before that date will attract the previous charge.

IRON HAM CONTEST ---> Drawing inspiration from the Ironman Thriathlon races, the Araucaria DX Group introduces the WW Iron Ham Contest, a competition that combines the main operating modes (Phone, CW and RTTY) into one single contest to be held on 29-30 December (from 12 UTC on Saturday through 11:59 UTC on Sunday). The 24-hour contest is organized to have 8 hours of operation on each mode in periods no shorter than one hour. Complete details can be found at [www.araucariadx.com/ih/](http://www.araucariadx.com/ih/) [TNX PY5EG]

ZL9HR ---> The team arrived at Campbell Island around 18 UTC on 30 November, and came on the air at about 04.30 UTC on 1 December using minimum equipment. The following day the full range of masts and antennas were installed. ZL9HR is expected to QRT on 9 December at 08.00 local time (19 UTC on 8 December). The decision is based on the weather forecast, as they need to get favourable conditions for the voyage back to New Zealand. On 7 December at 02:43 UTC the logsearch on Club Log included 35,607 QSOs with 13,456 unique callsigns.
