425 DX NEWS MAGAZINE ---> The June 2015 issue is now available for download at www.425dxn.org/monthly/index.html. [TNX IZ3EBA]

CLUB LOG'S MOST WANTED LIST ---> The latest Most Wanted List, generated on 20 July, is available at https://secure.clublog.org/mostwanted.php. The "Filter by continent" has been fine-tuned with the addition of AS Far East, AS Middle East, EU East, EU West, NA East Coast, NA West Coast and OC VK and ZL. The information is derived from QSOs uploaded to Club Log (as of 15 July there were 301.3 million log entries available for analysis) and, to improve quality, only QSOs that have QSLs confirmed are considered to be worked.

VK9WA ---> The team for the 14-23 November DXpedition to the Willis Islands (OC-007) is now complete and includes eight operators (K7EDX, N7QT, N7SMI, SM3SGP, SM5AQD, VE7NY, VE7SZ and W8HC). The pilot stations will be K4PI (North America), F5UKW (Europe) and V51B (Africa). Planning and fund-raising continue, see http://vk9wa.com/ for details.

VOACAP NEWS ---> VOACAP Propagation Planner v2.0b is a comprehensive and

free-of-charge planning tool for HF contesters and DXers. The new online version does all heavy-lifting and number-crunching on the VOACAP server, and visualizes the results graphically in two ways: by CQ or ITU Zones (short-path or long-path) and by band-specific zone charts (SP and LP): see http://voacap.blogspot.fi/2015/07/voacap-propagation-planner-revisited.html. VOACAP DX Charts is a "spin-off service" that calculates short-path and long-path HF propagation predictions from the user's QTH to some of the upcoming DXpeditions: see http://voacap.blogspot.fi/2015/07/introducing-voacap-dx-charts.html.
