HEARD ISLAND 1996 --> Ralph Fedor, K0IR, is uncertain whether his schedule will allow him to participate to Heard Island expedition in 1996. He has therefore decided to turn over the major responsibility for the expedition to Peter ON6TT and Bob KK6EK. Here are some prominant points:
1. Safety will be a central and determining factor in all plans.
2. The team will be expanded, perhaps to 20, although not all will be radio amateurs. Team members will contribute equal financial shares. Most of the previous operators will join the 1996 expedition and also Carlos Nascimento, NP4IW, will be available for the group.
3. The budget will have to be increased. They will need lots of help. Contributions will be tax-deductible.
4. The principal radio goal will be to get everyone in the log.They will make extensive use of recent technical innovations to assist that. They also expect to set a new world record for the number of contacts from a DXpedition.
5. The management and progress of the project will be much more public, and your input and participation will be most welcome.

They have decided to take a few weeks to develop the new plans to be announced on Dec. 15. Between now and then, you could help them in several ways: If you can make a pledge of $100, $1000, or $10000, please do so (via K0IR or the NCDXF). If you are potentially interested in participating, contact KK6EK, ON6TT, or K0IR. They need a person to act as a semi-professional PR person, to interface with media and seek support through media contacts. They need an Internet communications person to search and communicate through the Web and through e-mail. They would like to find a professional film or video person to do a documentary for international markets (that person must find support).

IY3GMM ---> The 17, 18 and 19 November the special station IY3GMM was activated. QSL Manager is IN3NMP, via bureau.

4U/KC0PA ---> Rudi (VE9RHS) reports to have finally received the logs from Tim, 4U/KC0PA, Western Sahara. Be patient for some weeks as there are 2000 QSL waiting to be sent out; every card will be answered.

JY8XY ---> Bob, WB9YXY reports to have logged about 32.000 QSO, 2.500 in CW and 1.100 on 80 and 40 meters. Due to lack of room for antenna he was not active on 160 meters. Bob, thanks to WB9B, gave the RTTY equipment to JY4MB, who is now active in that mode. Bob left the 80 meters antenna to JY5SK. QSL for JY8XY will be sent very quickly.

INDIA, VU ---> Zal (VU2DK) suggests to use the following precautions sending direct QSLs to his country: "Use strong and well closed envelopes, nothing of the content should be seen. Don't write any callsign to bring any attention. The local post situation is very bad, looking to rob "green stamps" so try to hide the content.

OD5ZZ, OD5RAK, OD50RAK ---> Dwaine, WA8MEM is no more in contact with Walid (OD5ZZ) then he will no more be the QSL manager for OD5ZZ , OD5RAK and OD50RAK. Those who sent a direct card will receive it back as soon as possible. Dwaine is very sorry for all this trouble.

YC9COD ---> Tom, DL7AV, reports that the YC9COD station, active during the past CQWW SSB Contest, isn't in the Callbooks, but QSLs can be sent to the QSL manager YC9BMU, direct or bureau.

HS7ECI ---> Juha, OH4JK, is receiving QSL requests for HS7ECI operations but he is NOT the QSL manager.

ZS8 ---> ZR1DCE/ZS8 is a new beacon located on Marion Island and active on 50.200 MHz.

RUSSIA ---> If you fear that "green stamps" in your QSL directed to Russia can be robbed try to write UEHHOCTEW HET on the envelope, that in Russian, means "no value". Try first worry later.

QSL ---> Victor Pechorkin (UH8EA, RH0E, EZ5AA) is now in United States and has the logs for his operations. QSL via W5BWA, 5812 Hiawatha Dr, Alexandria, LA 71301, USA.
