>>> 3Y0Z: BOUVET ISLAND <<<

"We are happy to report that we are on schedule for a January 13 departure to Bouvet Island, the World's most isolated island and the number two most wanted DX entity", the 3Y0Z Team announced on 29 December. "All team members will meet in Punta Arenas, Chile no later than January 10. We will attend a one and one-half day marine safety course, purchase last minute supplies and then fly across the Drake Passage to King George Island in the South Shetlands. There, we will board the newly refurbished Chilean vessel M/V Betanzos, and begin our 9 to 11-day voyage to Bouvet".

Their plans remain unchanged: "we will have two stations on every open band whenever humanly possible, gain and directional antennas where possible, high power stations and a propagation-driven operation. The primary modes will be CW, SSB and RTTY. FT8 will be utilized if it is the only productive mode. Anyone preparing to utilize FT8 must read the 3Y0Z FT8 protocol on the Band Plan page of the DXpedition website (www.bouvetdx.org)".

QSL via Club Log's OQRS (<https://secure.clublog.org/logsearch/3Y0Z>) for either direct or bureau requests; traditional cards go via N200, direct (Bob Schenck, P.O. Box 345, Tuckerton NJ 08087-0345, USA) or bureau. You may include a donation with your OQRS QSL request on Club Log (via PayPal), or you may include additional funds with your direct mailed QSL card. As for LoTW, "we will be uploading to LoTW for everyone who requests a direct QSL card. These will be done in batches during our QSL card processing, as time allows. A full LoTW upload will be made about 6 months after the end of the DXpedition".
