BONNY ISLAND ---> With reference to 5N4ALE's activity from Bonny Island (AF-076) [425DXN 279], the IOTA Committee reports that "doubts have been raised as to whether the 5N4ALE operation (1734) was land-based. The IOTA Committee will wish to resolve this matter satisfactorily before confirming the provisional number issued. Also there appear to be problems with the QSL cards. Some amateurs have sent cards to the old manager DJ2VZ. Information from Germany indicates that DJ2VZ is QSLing but does not have any logs. Such cards would not be accepted for IOTA. A decision on cards received direct or from DJ0KN will be made later".
