PIRATE ---> Francois Botha, ZS4X has notified the SARL Office that his old call sign, ZS6BUU, is being pirated using the FT8 mode. ICASA (the South African Regulator) has confirmed that ZS6BUU has not been reissued. [TNX ZS4BS]

VP6D ---> CW enthusiast Ken Karr, NG2H has joined the VP6D DXpedition to Ducie Island (20 October-3 November) [425DXN 1397]. He participated in the VK0EK expedition to Heard Island (2016). "Providing an All Time New One (ATNO) is a key objective of VP6D", the organizers say. "We will keep stations on 20m SSB and CW as propagation permits. Additionally, FT8 may also provide DXers an ATNO opportunity during periods of poor conditions". The fundraising campaign continues. See <https://www.vp6d.com/> for the latest information from the team and details on how to contribute.

Z60A LOTW AND QSL RELEASE ---> "It is now 10-days from the last QSO made at Z60A, the Republic of Kosovo's first activation", OH2BH reported on 23 March. "Because this is an overall new DXCC entity, it has resulted in many requests for checking missing QSOs due to pirates, a variety of logging errors and busted calls. We have extended this period for another week as we try to enter the cleanest possible QSO data to LoTW. The magic day for the complete LoTW upload will be 1 April 2018. We will continue processing log errors for another 7-days prior to the upload. Queries can be made at [z60a@\[s\]ral.fi](mailto:z60a@[s]ral.fi)". The paper QSL cards are being printed, and "we expect to have them here around 1 April as well. We will proceed with mailing as fast as we can". The Mission Goodwill Kosovo has been invited to present the story of "The Republic of Kosovo and Z60A" at the Visalia International DX Convention; Z61VB, OH2BH and K9JF will be the Saturday evening Banquet speakers.
