## <<< FAREWELL TO A FRIEND >>>

The RSGB DX News Sheet, one of the many creatures of the late Geoff Watts, has been a most valuable source of DX information since 1962. The RSGB has now decided that with effect from 30 June 1999, the Society will no longer be producing the DX News Sheet due to a diminishing number of subscribers. At the same time Chris Page, G4BUE, current Editor of the DXNS, says he is not in a position to be able to take the DXNS on completely. We are sad to see the ending of this prestigious bulletin, with which we have had the pleasure to co-operate for years, on the basis of a most fruitful mutual exchange of information - THANK YOU, CHRIS from the very bottom of our hearts.

BY1DX [425DXN 412] ---> The following is an abstract of a message received from Ban ZhiGang, BA1MK (Chairman, Beijing DX Club): "BY1DX is licensed to 'Beijing Chaoyang Youngsters' Center of Science and Technology'. It is located in the 7 story building of the Center at the East edge of Beijing city. As identical the same as other existing 80 club stations of Youngsters' centers, schools and universities in China, the main goal of BY1DX is to promote the young students' interests in radio technique, and also may accept foreign operators for guest operation, whenever arrangement is practical, and if the visitor hold operating certificate from CRSA. We do appreciated the kind sponsorship from Nokia (China) for our friends and kids here. However, it would be not true if we say 'it is first-ever foreign corporate sponsored amateur radio club in China', because since 1981 several dozens amateur radio club stations in China have been established under the kind sponsorship from foreign amateur radio organizations, clubs, companies, publishers, and individuals in the same way."
