7O - The International Amateur Radio Volunteer (IARV) organisation dispatched nine members (including the leader JA1UT) to the Republic of Yemen on 5 August [see "Look out!" in 425DXN 431] until the 19th for voluntary work to establish a hospital communication network in remote areas. The group has donated an amateur radio station to the Ministry of Public Health for use as a club training station. A demonstration has been given. At present the Yemeni engineers are familiarising themselves with the equipment, and listening to amateur radio activity. Due to pressure on the humanitarian project, and the shortage of time for the coaching of the Yemeni engineers on amateur radio operating, it is unlikely that a DX type operation will take place on this visit. [TNX HS0/G3NOM]
