***** GOOD TO KNOW ... *****

10 METRES ---> Paddy O'Reilly, S79MAD is active on around 28.500 MHz at 13 UTC during the week and at 10 UTC during the weekends. In a recent message Paddy states that "with the poor conditions it seems very few stations are active up on 10 metres. The band always seems dead: so why bother to QSY? On the first week-end in August, the 10 metres band was alive. But not with amateur activity. CB operation is spreading illegally beyond the limit of the 27 MHz band. It is important that hams world wide keep this band alive during this low part of the solar cycle. The legal CB channels are overcrowded, and those operators see all these empty spare 'channels' right next door. So, get onto ten, otherwise when the conditions pick up again there will be anarchy on the airwaves. Use it or lose it."

CISA ACTIVITY ---> In July John, NL7TB/VY1ISL and Bill, VY1AU activated the first fresh water Yukon islands for the Canadian Islands Awards Program (C.Is.A.): Kishwot (YT-002, on 11 July, as VY1AU), Matthew (YT-003, on 11 July, as VY1ISL), Mark (YT-004, on 11 July, as VY1ISL), Luke (YT-005, on 11 July, as VY1ISL) and North Campbell (YT-006, on 14 July, as VY1ISL). QSLs for VY1AU are via homecall, QSLs for VY1ISL are via NL7TB.

Checks can be sent with your QSL requests to N4AA (Carl E Smith, POB 6843, Asheville, NC 28816, USA), or to K2ENT (Arthur M Albert, 2476 Fortesque Ave, Oceanside, NY 11572, USA), as well as W4BRE (Daniel C Whitsett Jr, 2410 Covemont Dr, Huntsville, AL 35801, USA).

There is a vacancy and those who are interested in joining the expedition are therefore invited to contact the organisers. The current team members are

The changeover is supposed to happen within a few weeks. The Smiths already produce The GOLIST, QSL Manager List and The DX Reporter".  SCORES: The A.R.I. radioclub Loano stations will call "CQ Loano Elettra" and give the RS(T) report to each correspondent, the same stations can be called several times during the same day but on a different band or in a different mode and each contact will count 1 point. The special call IY1EY will be activated during the same period and each contact with it will count 3 points (same rules as above).
 To apply for the "Loano Elettra Award" it is necessary to collect at least 10 points.

At the end of the manifestation a table of results will be drawn up (among all participants who have sent their summary sheets), and plaques will be sent as prizes for:
