***** GOOD TO KNOW ... *****

LOG 5A2A ---> The German team left around 12 UTC on 4 December after some 25,000 QSOs. The log server (<http://www.afthd.tu-darmstadt.de/5a1a/>) has been update for all contacts made through 10:52 UTC on 3 December. QSOs made after that will be uploaded on 6 December. QSL via DL3KDV (Dieter Voss, Friedrichsthal 21, D-51688 Wipperfuerth, Germany).

QSL TF3IRA ---> Tim Totten, N4GN is not the QSL manager for the recent TF3IRA operation [425DXN 342]. QSL for TF3IRA go either direct to the callbook address or through the bureau. Tim just handles his own cards for his TF/OH4GN operation (QSL direct to Tim Totten, 8309 Dawson Hill Road, Louisville, KY 40299-5317, USA or via the bureau).

QSL V5/ZS6YG ---> Charlie Summers, W0YG says he is getting cards (also duplicate and triplicate requests) for his V5/ZS6YG operation from both the ZS and the US bureaus. "Some of the cards sent to the ZS Buro will never reach me", Charlie says, so do not use this route (if, after a couple of years, a person does not receive his/her card, then QSL direct to W0YG). Charlie's policy is "not to answer duplicate requests through any bureau" and to QSL direct requests without return postage through the bureau: "my last mailing was in April of this year. My next mailing will probably be next year sometime. If you are in a hurry for a card, please send it direct" to Charlie Summers, 6746 North Yucca Trail, Parker, CO 80138-6110, USA.

QSL VK9WM & VK9WY ---> On 29 November Bill Horner, VK4FW reported that "to date all received QSL cards from 1A thru to HZ have been completed and are ready to go in the mail. As well I have done the whole rtty log. Bulk mailings have already been sent to GDXF, DDXG and NPDYG as was part of the sponsored agreement. As I am one person I envisage it will take me another couple of weeks before I am finished".

TF ---> Not only LA0CX is not the QSL manager for TF0CW [425DXN 343], but, as reported by Seli Oskarsson, TF3A0T, "TF0CW doesn't exist so this is pirate". Seli also reports that TF3CW "is not active and has not been for the last 3 years or so".

VK9LX ---> Nick (VK2ICV) and Dan (K8RF) made a total of about 13,300 QSOs on all bands during their VK9LX operation from Lord Howe. "We made 500 QSOs on 160", Dan reports: "the local WX didn't cooperate much as it seemed to be raining every night starting around 1000 GMT which made the QRN VERY VERY VERY bad, with worse condx as the week progressed. Even 80 meters was very noisy the last three days of the operation, which was unfortunate as Nick and I hoped to concentrate on 80 more during the contest period since we 'wasted' so much valuable greyline time on 160 early in the week." Nick and Dan are already making plans to go back again next year probably as a Multi-Multi operation for the CQ WW CW. QSL via VK2ICV: Nick Hacko, P.O. Box 730, Parramatta, 2124 NSW, Australia.
