<<< FAREWELL TO A FRIEND >>>

The RSGB DX News Sheet, one of the many creatures of the late Geoff Watts, has been a most valuable source of DX information since 1962. The RSGB has now decided that with effect from 30 June 1999, the Society will no longer be producing the DX News Sheet due to a diminishing number of subscribers. At the same time Chris Page, G4BUE, current Editor of the DXNS, says he is not in a position to be able to take the DXNS on completely. We are sad to see the ending of this prestigious bulletin, with which we have had the pleasure to co-operate for years, on the basis of a most fruitful mutual exchange of information - THANK YOU, CHRIS from the very bottom of our hearts.

- 3B9 - The 3B9R team on Rodriguez (AF-017) have been active since 22.00 UTC on 31 March and fully operational since 4 April. Tropical cyclone Frederick appeared to be heading towards the islands but it did not hit hard. So far around 35,000 QSOs have been made (1,000 on RTTY) and it is hoped to end up with 40,000 in the log. The operation will close down at 22 UTC on 10 April. QSL via N7LVD.
- 3D2 - Craig, 3D2TC is now QRV on 6 metres with 100 watts and a dipole. He checks 28.885 and monitors 50.110; with an opening, look for him on SSB at 50.115. Craig is usually on after 05.30 UTC weekdays and when available on weekends. QSL direct to Craig Thompson, 50 Beach Road, Suva Point, Suva, Fiji Islands. [TNX W7TSQ]

- 4U1ITU - Eric, W3DQ will be in Geneva between 16 and 25 April and plans to operate from 4U1ITU in his free time after 19 UTC. He hopes to be active on RTTY and 12, 17 and 30 metres. QSL via the bureau. [TNX The Daily DX]
- 5N - 5N99 is the special prefix used in April by amateurs in Nigeria to celebrate the Under 21 Football (soccer) World Championship. 5N9CEN

- is therefore active as 5N99CEN (QSL via IV3VBM), while Stan, 5N0/OK1JR is now active as 5N99MSV (afterwrds he will operate as 5N0MSV, QSL via OK1JR). [TNX IV3VBM and The Daily DX]
- 9N - K4VUD's Nepal call [425DXN 413] has been changed. As foreign visitors are now designated with a 7, Charlie's call is 9N7UD (not 9N1UD any longer). [TNX N4GI]
- 9V - SARTS in conjunction with the Singapore Armed Forces will operate special event station 9V1GYL at the Singapore site of the original British Royal Navy station GYL (this was the call used in the Commonwealth Area Scheme which has now been closed). Operations will take place on 10 and 11 April; plans are to concentrate on CW (14050 and 21050 kHz +/- 10 kHz), but SSB will also be used as conditions permit. Special QSL via the bureau. [TNX 9V1RH]
- A3 - Paul, A35RK is now QRV on 6 metres with 100 watts and a beam. He checks 28.885 and monitors 50.110; with an opening, look for him on CW at 50.120. Paul is on whenever he is available weekdays and weekends. QSL via W7TSQ. [TNX W7TSQ]
- BY - BA1AA, BA1AB, BA1DU, BA1OK, BA1RB and others will participate in the Japan International DX CW Contest this weekend from BY1PK, the official station of Chinese Radio Sports Association. QSL via P.O.Box 6106, Beijing 100061, China. [TNX BA1DU]
- DU - Bernhard Stefan, DL2GAC is now in the Philippines and plans to operate as DU2/DL2GAC from Batan Island (OC-093). Nothing is certain yet and his success will depend on getting the licence, suitable transportation from and to Manila, power supply situation on the island, etc. However his target is to arrive between 12 and 15 April and operate for about 7 days. QSL via DL2GAC preferably through the bureau. [TNX 9V1RH]

BY1DX [425DXN 412] ---> The following is an abstract of a message received from Ban ZhiGang, BA1MK (Chairman, Beijing DX Club): "BY1DX is licensed to 'Beijing Chaoyang Youngsters' Center of Science and Technology'. It is located in the 7 story building of the Center at the East edge of Beijing city. As identical the same as other existing 80 club stations of Youngsters' centers, schools and universities in China, the main goal of BY1DX is to promote the young students' interests in radio technique, and also may accept foreign operators for guest operation, whenever arrangement is practical, and if the visitor hold operating certificate from CRSA. We do appreciated the kind sponsorship from Nokia (China) for our friends and kids here. However, it would be not true if we say 'it is first-ever foreign corporate sponsored amateur radio club in China', because since 1981 several dozens amateur radio club stations in China have been established under the kind sponsorship from foreign amateur radio organizations, clubs, companies, publishers, and individuals in the same way."
