>>> 425 DX NEWS - THE MONTHLY EDITION <<<

The monthly edition (17 full colour pages, with pictures, graphs, maps etc) is now available at <http://www.425dxn.org/monthly/> and can be downloaded in either .pdf (1,2 Mb) or .doc (2,9 Mb) format.

- 3W - The first DXpedition to Cham Island (AS-???) [425DXN 547] is now scheduled to take place on 13-18 March, with two stations active on 160 through 6 metres SSB and CW. The team include Yuki/JI6KVR (team leader), Shu/JA6IEF, Hau/3W2LI and his son 3W2KA; they will operate as XV3C, 3W3C, 3W2LI/3 and 3W2KA/3 respectively. QSL XV3C via EA5KB (Jose F. Ardid Arlandis, P.O. Box 5013, 46080 Valencia, Spain) QSL 3W3C via EA5RM (Antonio Gonzalez, P.O. Box 930, 03280 Elche, Spain) QSL both 3W2LI/3 and 3W2KA/3 to Trinh Hau, No 4 Dong Xoai, F13, Tanbinh, Ho Chi Minh City, Vietnam. The web site for the DXpedition is at <http://www3.ocn.ne.jp/~iota/newpage25.htm> Questions before the activity starts can be sent to Yuki, JI6KVR (ji6kvr@orange.ocn.ne.jp); the pilot stations for the operation will be Toni, EA5RM for Europe (ea5rm@medtelecom.net), Ernesto, LU4DPO for South America (lu4dpo@yahoo.com.ar) and Cezar, VE3LYC for North America (ve3lyc@hotmail.com). Contributions can be sent to JI6KVR, as well as EA5KB and EA5RM. [TNX JI6KVR]
- 3W - 3W3M is the call issued to Jack, F6BUM for his forthcoming activity from Vietnam [425DXN 557]. He confirms his itinerary as follows: 14-16 March from Tam Island (AS-157), 21-23 March from Cham Island (AS-???) and 3-5 April from Cat Ba Island (AS-132). QSL via home call. [TNX F6BUM]
- 7Q - Harry, G0JMU/7Q7HB is now up and running with a new antenna and amplifier. He will be leaving Malawi on 28 April. QSL direct only via G0IAS (Allan Hickman, The Conifers, High Street, Elkesley, Retford, DN22 8AJ Notts, UK - do not send bureau cards for any of the 7Q stations managed by him). [TNX G0IAS]
- HK0_sa - Gerd, DL7VOG will be active as HK0GU from San Andres Island (NA-033) for a month starting on 14 March. He might also operate from

Providencia (NA-049). QSL via home call (bureau cards can be requested at dl7vog@dark.de). [TNX The Daily DX]

I - The 9-10 March operation from Isola Grande di Porto Cesareo (EU-091, IIA LE-002) [425DXN 565] has been cancelled due to Frank's (IZ7AUH) unexpected business commitments. [TNX IZ7AUH]

JA - Look for Shin, JI3ACL/4 and Shige, JI3CEY/4 to be active (with two stations on 160-6 metres CW and SSB) from the Oki Islands (AS-041) on 16-18 March. QSL via home calls. [TNX JI3ACL]

P5 - There is conflicting information about YT1AD's operation from North Korea. "Wolf Harranth, OE1WHC reports receiving a phone call about 1730Z from Hrane, YT1AD", The Daily DX reports. "Hrane was supposedly at the airport in Rome, presumably heading back to Belgrade." At the same time Mome, Z32ZM says he talked with Hrane in Pyongyang. According to Mome, "they have in hand all needed documentation & permission's EXCEPT the permission for transmit by Amateur Radio", which they hopefully will receive on Monday (11 March). What is sure is that they have not been active so far and that P5/YT1AD was a pirate.

T8 - Bad weather forced Bill, T88BA to change his plans for his his voyage to the South Palau group (OC-248/Pr) [425DXN 565]. He also has had to revise the times on the various islands due to work commitments. The new timetable is as follows:

Depart From	ETD	Destination	ETA

Koror	0900 Mon 11/03	Sonsorol	0600 Tue 12/03
Sonsorol	0001 Wed 13/03	Pulo Anna	0600 Wed 13/03
Pulo Anna	1000 Wed 13/03	Merir	1300 Wed 13/03
Merir	1800 Wed 13/03	Tobi	0600 Thu 14/03
Tobi	1000 Thu 14/03	Helen Reef	1500 Thu 14/03
Helen Reef	1000 Fri 15/03	Tobi	1500 Fri 15/03
Tobi	1800 Fri 15/03	Merir	0600 Sat 16/03
Merir	1100 Sat 16/03	Pulo Anna	1600 Sat 16/03
Pulo Anna	0001 Sun 17/03	Sonsorol	0600 Sun 17/03
Sonsorol	1000 Sun 17/03	Koror	0700 Mon 18/03

All times are local, which is 9 hours ahead of UTC. Bill thinks that most operation will be done from Tobi (Hatohebi) island; look for him on +/- 21045 kHz). Please note that there will be another trip next month and in May, so there will be more opportunities for amateur radio activity this year. QSL via G4OHX. [TNX IZ1CRR]

VP9 - Look for David, VP9/M0CNP to operate (on 40-10 metres, SSB and CW) from the Bermuda Islands (NA-005) on 9-16 March. QSL via home call. [TNX M0CNP]

W - Howie, K1VSJ will be active from Martha's Vineyard (NA-046) on 8-10 March. [TNX The Daily DX]

W - Will, WC6DX plans to reactivate Point Blunt Lighthouse (LH-0004) on Angel Island (not IOTA, USI CA-006S) between 20 and 23 UTC on 9 March. Look for him on +/- 28460 kHz (with 7260 Khz for California), he will QSY to 15, 17 or 20 metres upon request. [TNX W9DC]

YA - Robert, S53R/YA5T reports that "YA5T has not been much on the air during the past week due to work commitments. Mark, ON4WW, left Kabul on 7 March and will do some ground work for WFP in the next weeks in northern part of the country. Peter, ON6TT, was here for 2 days, but just too busy to do any radio. I stay for another 3 weeks

and promise to be on bands as much as possible." [TNX KU9C]

ZD8 - Jim, N6TJ will be active as ZD8Z from Ascension Island (AF-003) on 11-21 March. He will operate on all bands CW/SSB, with a special emphasis on 160 metres and the WARC bands. QSL direct only via VE3HO. [TNX The Daily DX]

```

ELECTRONIC QSL POLICY ---> The following is an abstract from an ARRL News Release dated 7 March: " Recent discussion regarding the QSL service offered by eQSL.cc (TM) suggests that there is some confusion about ARRL QSL policy. Simply put, there has been no change in League policy regarding eQSLs. ARRL does not accept QSLs that have been transmitted to the recipient via electronic means for its awards. Anyone, acting as an authorized QSL manager, however, may receive logs via email (or any other direct means) and send QSL cards, via post mail, to recipients. This is the traditional QSL manager process. As has always been the case, certain norms are expected when handling cards in this manner. First, we expect that a QSL manager will seek permission from operators for whom QSLs are handled. Second, we expect that a QSL manager will do the checking required to assure that only real contacts are verified. Also, we expect to be able to identify cards as authentic (cards should be personalized or otherwise made unique through the use of a stamp or other personal mark - signature or initials - across a label boundary). Finally, we consider it an ethics violation if cards can only be claimed through payment of a fee, and thus we will not accept cards for DXCC credit for which a fixed charge is made." For further information please contact Wayne Mills, N7NG (n7ng@arrl.org) or visit <http://www.arrl.org/news/stories/2002/03/07/100/?nc=1>

PW0T ---> The team had already started to tear down the stations and antennas preparing for departure on 2 March when they were informed that they would stay on the island until Monday (4 March) at noon. They were able to participate in the ARRL SSB Contest on all bands as a Multi-Single entry, while another station operated CW on 20, 15 and 10 metres during the weekend. [TNX N4AA]

QSL 9J2B0 ---> W6ORD is no longer the QSL manager for Brian, 9J2B0. Cards should now be sent to Mike Mills, G3TEV either direct or through the RSGB bureau.

QSL CQ1CV ---> Paulo, CT1ETE says that the QSL cards for CQ1CV are not yet ready, please be patient.

QSL K3J ---> Ron Phillips, AH6HN, QSL manager for the September 2001 K3J operaton from Johnston Atoll, says the cards are still at the printer's in Germany. [TNX WU8Q]

QSL RW1AI/ANT ---> Mike, RW1AI will be active from "Vostok" base (AN-016, WABA UA-010), Antarctica for the next 11 months. Cards should be sent via home call either direct (Mikhail Fokin, P.O. Box 2, St.Petersburg, 195009 Russia) or through the bureau, but he will not be able to process any request until he goes back home in February 2003. Logs for RW1AI/ANT and Mike's previous activities as R1AND (May-December 1999) and R1ANP (January-March 2000) are available at <http://www.qsl.net/ua1ake/logs> [TNX UA1AKE]

QSL XE2P ---> Ron, AC7DX is no longer the USA manager for XE2P, as he has "tried repeatedly and been unable to secure the logs".

QSL MANAGER OFFERED ---> Peter Occhipinti, KT4XP has recently become disabled and offers his services as QSL manager for a DX station. Please contact him at murray360@aol.com.

QSL VIA VE7DP ---> Frank, VE7DP reports that almost all QSL cards for his February 2001 IOTA operations (VE7DP/DU1, 4I1P and 4H2B) have been sent out. The backlog of direct requests was completed 6 months ago, while cards for all others are going out via bureau, as a QSL is being sent to every station in the log.

QSL VIA ZK1CG ---> Victor, ZK1CG reports that two boxes of QSL cards for ZK1CG (North Cooks) and ZK1USA (North and South Cooks) were mailed on 4 March. If you do not receive your card(s) feel free to e-mail Victor (sales@computers.co.ck). Please note that the cards (handled by VE7XF) for the group that went to Manihiki Atoll for the CQWW SSB Contest have not been received from the printers so far.

TAIWAN PREFIXES ---> It seems that the CTARL QSL bureau is getting cards for Chinese stations. Tony Kuo, BX2AC (ex BV2TA) reminds DXers that BM, BN, BO, BP, BQ, BU, BV, BW and BX belong to Taiwan, while BA-BL, BR-BT, BY and BZ belong to China.

TI9M ---> The Cocos Island TI9M DXpedition went QRT on 2 March at 12.00 UTC and left the island four hours later. The finally tally was approximately 80,000 QSOs (including 2000+ contacts made in 12 hours during the ARRL SSB DX Contest) after ten days of non stop operation. One site was at sea level, and a second station was installed 500 feet higher (a great location, which however required over 100 trips to haul equipment up and back).
