NORTHERN LIGHTHOUSE WEEKEND
and
LIGHTHOUSE/LIGHTSHIP ACTIVITY WEEKEND

During the weekend 23-24 August 1997 there will be taking place two events associated with lighthouses and lightships. The first event is The Northern Lighthouse Weekend when ten Scottish amateur radio stations will be established at lighthouses around Scotland. Running concurrent with this event is the Lighthouse/Lightship Activity Weekend when amateur radio station will be established at lighthouses/lightships around the world.

Both events will be from 9 UTC on Saturday 23 August until 17 UTC on Sunday 24 August 1997. Some of the lighthouses are located in very isolated places far from any facilities and cannot be expected to be QRV all night, however, all stations will be QRV between 9 and 17 UTC on both Saturday and Sunday.

Participating stations will add "LIGHT", "LGT", "LIGHTHOUSE" or "LIGHTSHIP" after the call. The Scottish stations may not use the 'ident' because they already have a special callsign with a suffix to match the name of their QTH.

Operations will take place on the following frequencies: between 3.510 and 3.540, 7.005-7.035 and 14.010-14.040 MHz CW; between 3.650 and 3.750, 7.040-7.100 and 14.125-14.275 MHz SSB.
