ZS - Do not expect Rudi, ZS6VER to be active from Seal Island (AF-077) very soon [425DXN 412]. "Because of weather conditions over the next few months, it is winter over here, it would not be a good idea to go south so we will be spending some time on the east coast to get to know the yacht", he says. "We hope to move in the direction of Knysna/Mosselbay in September when the worst storms are over. I believe choosing the right weather window for the visit would be crutial but that would make predicting the actual dates of the operation very difficult". In the meanwhile he is working to get the necessary landing permission. Rudi, ZS6VER/V51VE and Katti, ZS6KVR/V51KV will be voyaging all around the world for at least 8-10 years...
