VP8_sg - "At the moment I can only confirm that I am due at Bird Island on the 17th November where the intention is to carry out the base relief", Mike VP8CMH [425DXN 1121] reported on 15 November. "As soon as that is complete we will steam to King Edward Point. I should be able to post details of arrival the night before we get to KEP. I will not be taking sked requests and will only be operating SSB". Mike's callsign from King Edward Point, South Georgia is VP8SGK. QSL for via GM0HCQ (direct only), LoTW and eQSL. Please visit www.gm0hcq.com for updates.

VU - Special callsign AU2JCB will be used by VU2DSI between 24 November and 10 December to celebrate the birthdate of Indian physicist and radio pioneer Jagadish Chandra Bose. Look for activity on 40, 20, 15, 12 and 10 metres SSB, plus 6m FM on 51500 kHz. QSL direct to VU2DSI. [TNX VU2DSI]

XT - Silvano, I2YSB and the Italian DXpedition Team (www.i2ysb.com/idx) will be active from Burkina Faso on all bands and modes for two weeks in February-March 2013. Further information is expected in due course. [TNX IK7JWY]

YN - Mike, AJ9C will be active as YN2CC from Nicaragua on 20-28 November. He will operate CW, SSB and RTTY on 160-6 metres, and will take part in the CQ WW DX CW Contest. QSL via home call and LoTW. [TNX NG3K]

ZD8 - Oliver, W6NV will be active as ZD8W from Ascension Island (AF-003) on 19-30 November, including and entry in the CQ WW DX CW Contest. QSL via home call. [TNX The Daily DX]

ZL9 - Announced frequencies for the ZL9HR expedition to Campbell Island (28 November-9 December) are:

CW 1825 3528 7030 10125 14035
18080 21035 24905 28035 50107
SSB 1840 3793 7185 14200 18145
21295 24965 28495 50145
RTTY 3630 7035 10145 14090 18105

21090 24925 28090

The team (9M6XRO, HA5AO, K3EL, K5GS, KE4KY, VE7DS, VK2IR, VK3YP, W2LK and ZL3CW) is scheduled to leave on their 40-hour voyage around 12 (local time) on 26 November. They must comply with the conditions of the landing permit issued by the New Zealand Department of Conservation. No antennas are allowed in or near the water, and the team will have to shuttle back and forth from the island as no overnight stays are allowed (unless the weather prevents return to the boat). Information about antenna placement and propagation can be found at www.campbell2012.com (click on the "Plans" tab). During the DXpedition daily traffic with the team will be handled by the designated Pilot stations (listed on the "Team" page). Plans are to upload logs by satellite phone from the island to Club Log. You will be able to request your QSLs one of four ways: OQRS Direct, OQRS Bureau, via EB7DX direct or bureau Logs will be uploaded to LoTW "shortly after the DXpedition".

Do not forget to give a look at the Announced Operations listing maintained by Bill, NG3K at www.ng3k.com/Misc/cqc2012.html - good contest to you all!

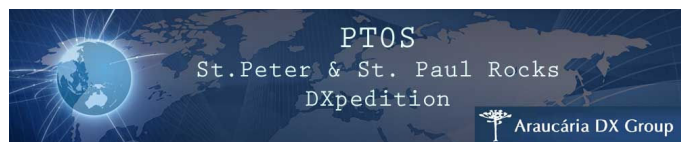

GOOD TO KNOW

425 DX NEWS MAGAZINE ● The October 2012 issue is now available for download at www.425dxn.org/monthly/index.html. [TNX IZ3EBA]

DXCC NEWS ● The following operations have been approved for DXCC credit: 5X1EME (Uganda), TT8TT (Chad), VU7M (Lakshadweep Islands) and ZD9UW (Tristan Da Cunha & Gough). [TNX NC1L]

LOGS A log search for P29NI (OC-099), P29VCX (OC-103) and P29VPB (OC-069) is now available at <http://p29ni.yolasite.com/logs-online.php>

NEW IOTA CHECKPOINT ● Effective 1 November, Alejandro Valdez (XE1EE) is the new IOTA Checkpoint for Mexico, Central America and the Caribbean Islands (with the exception of territories with US or French zip codes). He can be reached at iota.mexico@gmail.com. [TNX rsgbiota.org]

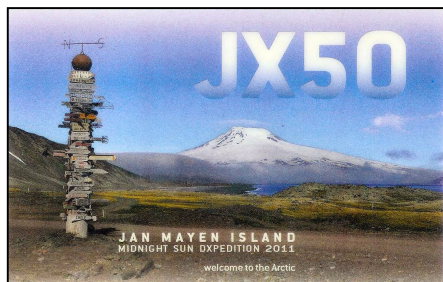

● The DXpedition to St. Peter & St. Paul Rocks runs three stations during the day and two during the night. The main challenges for the team are limited Internet access, a difficult physical environment and extremely limited space. Not only do they have limited bandwidth, but also the satellite openings are very short and erratic. This causes

severe delays in updates: "please bear with us", they say, "and do not 'over-dupe' us". They intend to make log corrections once they are back on land, but until then the logs are as published.

● The team was aiming to remain QRV for the CQWW contest, but they were not permitted to stay during the weekend and PTOS went QRT at 10.30 UTC on 23 November. "Most of our plans went out the window the day we landed", the team reported on the 20th. "We had to improvise because things have changed since our July survey trip. We ended up with a totally different basing, antenna and operating plan". Read about the trials and tribulations the team had to endure at <http://pt0s.com/>. Log updates were very difficult to send. The latest, but not final update on Club Log (22 November at 08.45

UTC) includes 40922 QSOs (23649 CW, 15676 SSB, 1597 RTTY) with 13116 unique calls. Logs are sent to LoTW at the same time as they go to the online logsearch, but there is several days of delay at ARRL processing the files. The OQRS for both direct and bureau cards is now up and running on the DXpedition's website.

QSL 4L1AN ● As of 21 November, Buzz NI5DX, is the QSL manager for Joni 4L1AN. They will work on designing a card and getting it printed. This may take up to 6 weeks. NI5DX will not be able to answer any card requests prior to 21 November 2012. [TNX The Golist]

QSL JX50 ● Stan, SQ8X is no longer able to continue his QSL duties due to personal issues, and has handed the QSL management over to Tim, M0URX. Please read carefully what Tim says on his website (www.m0urx.com) and do not send duplicates for direct or bureau cards already requested.

QSL ZL2HAM ● Effective immediately, Buzz NI5DX, is the QSL manager for Rick ZL2HAM (including his contest callsigns ZL1G and ZM1G). Rick has forwarded his past logs, so Buzz will be able to answer any request for a card. The QSL cards should be available to send out in about a month. [TNX The Golist]

QSL VIA DK2BJ ● Bernd, VK6AA reports that the new QSL manager for all of his VK calls (VK2IA, VK6AA, VK8VJ, VK9AA, VK9AA/9) is DK2BJ, who replaces DL8YR (SK since May). Bern will upload his VK logs to LoTW by the end of the year. [TNX K1XN and The Golist]

QSL VIA YB9BU ● Kadek, the QSL manager for YB8XM/p (OC-271) and many other IOTA operations (see qrz.com), accepts return postage for direct cards to be sent via PayPal to yb3mm[.]mdxc.org. Your QSL card and SAE are not needed; when in PayPal, just add your QSO data and the mailing address you wish Kadek to send the QSL to.

QSL GALLERY ● The large collection of QSL cards on Les Nouvelles DX's web site has been updated. Fourteen different galleries include more than 10,300 cards for the ten Most Wanted DXCC Entities (2004-11), the 61 deleted DXCC Entities, obsolete prefixes, stations from Magrebh from 1947 to 1962, Allied Forces stations in Germany (1946-62), Antarctic bases & TAAF (Terres Australes and Antarctiques Francaises), the various French DXCC island Entities in the Pacific Ocean, the Indian Ocean and the Americas (from 1945 to 1970), pre-1945 countries, French Departments and CONUS, plus a gallery for cards not accepted by DXCC. Your participation is encouraged - please visit www.LesNouvellesdx.fr and send your comments to lesnouvellesdx[.]free.fr [TNX F6AJA]

SABLE ISLAND ● Weather conditions deteriorated, and Ron AA4VK and Murray WA4DAN were forced to leave Sable Island around 1915 UTC on 27 October, four days earlier than expected. "Naturally we were very disappointed", they say, but "we had little choice as we could have been stranded on the island for weeks". During the 4.5 days of the DXpedition, approximately 13,000 QSOs were logged. QSL for either WA4DAN/CY0 and AA4VK/CY0 direct to WA4DAN; OQRS on www.cy0dxpedition.com

TOP LISTS ● The latest Topband, Topmode and Toplist listings are now available at <http://www.425dxn.org/awards/toplist/index.html>. QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send your scores, as well as any request for further information, to Luciano Lucini, IK2QPO (ik2qpo[.]425dxn.org).

V26B ● Team Antigua is saddened to announce that the V26B contest station was totally destroyed by fire on 18 November. Luckily, no one was seriously hurt. The station Owner, Roy V21N, received minor injuries due to smoke inhalation but is OK now. As of now, the future of the station is uncertain. It may be possible to rebuild it, as the antennas and towers were not damaged. However the interior and all equipment, tools and spare parts were totally destroyed. Pictures of the fire can be found at <http://n3oc.dyndns.org/v26b/>. Also, Mike KA2AEV (QSL manager for V26B) reports that he has not "yet begun to answer any QSL requests that I have received". He does not anticipate being able to do so for "maybe another two weeks" because of his current work commitments ("Hurricane Sandy hit my area hard", he says, and "I work for the local Power Company").

VP8SGK ● Mike, GM0HCQ (VP8CMH/mm) was able to operate as VP8SGK from King Edward Point, South Georgia on 20 November, from about 17.30 UTC until about 19 UTC. He was QRV on 10, 17 and 20 metres SSB. QSL direct to GM0HCQ (Mike Gloistein, 27 Stormont Way, Scone, Perthshire PH2 6SP, United Kingdom).

YI1IRQ ● The genuine YI1IRQ, the callsign of the Iraq Amateur Radio Society, has been back on the air since 14 November. "The last legitimate QSO made by YI1IRQ prior to that was in August 2008", Alan 5B4AHJ reminds. "In the intervening period, this call was pirated".

+ **SILENT KEYS** + Rod Newkirk, W9BRD/VA3ZBB passed away on 19 November. The editor of QST Magazine's "How's DX?" column from 1947 to 1978, he was inducted into both the CQ DX Hall of Fame (1984) and the CQ Hall of Fame (2002). He was credited with coining the term "Elmer" (meaning someone who provides personal guidance and assistance to would-be hams) back in 1971. Other recently reported Silent Keys include Georges Zanotto (F5DFN), Danilo Vegetti (I2V DX), Antonio Pezzini (I25KBK), Frank H Scotland (ZF1GC) and Petrus Jacobas Botha (ZS4PB).
