Their destination is the island of Juan de Nova (AF-012) in March 2016. "The exact conditions and dates still need to be tweaked, but the main lines are already defined and validated", they say. "It is not yet determined whether a radio operation will be authorized", the team says, but "we are pursuing this possibility". Back in January [425DXN 1236] the team had expressed hopes for a 3-4 days activity.

PALMYRA 2016 • Back in November 2014 [425DXN 1229] it was reported that The Nature Conservancy and the US Fish and Wildlife Service had developed a plan to accommodate amateur radio DXpeditions to Palmyra Atoll (OC-085), with 11-26 January 2016 as the first of two available spots next year. Last week K9CT and N2TU announced that "the Palmyra Island DXpedition Group has been awarded permission to activate Cooper Island in the Palmyra Atoll during January 2016". A team of twelve highly experienced operators and veterans of many DXpeditions (K0IR, K4UEE, K6MM, K9CT, K9NW, N2TU, N9TK, ND2T, W0GJ, W3OA, W8HC and WB9Z) plan to operate five stations over a 14 day period, 160 to 6 metres on all modes, using a callsign to be announced at a later date. The DXpedition's website (<http://palmyra2016.org/>) will provide updates as they become available; the donation page is already active (click on "Sponsors").

A Price Finder on-line tool is provided by Royal Mail (www.royalmail.com)

QSL E30FB • "During the DXpedition the team experienced computer and network issues that could not be resolved on site", M0URX reported on 11 April. "A few days ago the laptops arrived back in Japan and the team have managed to get the raw logs to me for inspection. Around 1,000 QSOs that were missing have been recovered so far. These QSOs have been added to the log. QSL requests for both direct and bureau have been matched to the new QSOs found". Tim is working to recover more QSOs. Check Club Log to see if your QSOs are there. The OQRS for direct and bureau cards is open: http://www.m0urx.com/eritrea_oqrs/.

QSL ZL7AAA • VE7NY is no longer dealing with QSLs for ZL7AAA (Chatham Islands, March 2014). Simon, ZL4PLM (zl4plm[[@](mailto:zl4plm@gmail.com)]gmail.com) now has "full access to Clublog and OQRS", so let him know "if you have a logging time issue or did not receive a paper card". The log has been uploaded to LoTW. [TNX DX World]

QSL VIA EA5GL • Pedro, EA5GL offers financial support and services as QSL manager for DXpeditions, especially IOTA oriented operations. If interested, please contact ea5gl[[@](mailto:ea5gl@gmail.com)]gmail.com.

QSL VIA LY5W • Sam is the QSL manager for 6Y2M and 6Y5/VE8DX. Cards should be sent direct only to Saulius Zalnerauskas, P.O. Box 1081, LT-49006 Kaunas, Lithuania. See www.grz.com/db/LY5W for a list of other callsigns he manages. [TNX LY5W]

RESPONSIBLE QSLING • "The latest incoming box from the RSGB Bureau arrived 3 weeks ago", Tim, M0URX says, and "out of 3,600 bureau cards received 75% of them should NOT have been sent. Yes, 2,700 cards that you have sent me should NOT have been sent. It is quite clear that many people are confused by OQRS, Bureau and Direct QSLing, which leads to a huge problem of Bureau Usage Abuse. Let me see if I can make it clear for you so that we can reduce this abuse and reduce costs within the bureau system, and also reduce the wasted time that is spent on sorting bureau cards and processing them". Read Tim's complete post on his website: <http://www.m0urx.com/3-M0URX/596-bureau-abuse-responsible-qsl-ing.html>.

VK0EK • The Northern California DX Foundation has announced a grant of \$50,000 to VK0EK, the Heard Island DXpedition [425DXN 1237] planned for November 2015 (<http://vk0ek.org/>): "the grant is contingent on completing the contract with the vessel, but this is considered a relatively straightforward process, probably complete by mid-April", the organizers say. "With that, the expedition has obtained its major components (team, transportation, finances), so preparations of facilities, equipment, and logistics will move forward".

VP8SGI & VP8STI VP8STI and VP8SGI are the callsigns issued for the Intrepid-DX Group to use during their DXpedition to South Thule Island (South Sandwich) and South Georgia Island [425DXN 1241]. In addition, the team will use VP8IDX (Intrepid DX Group) from Stanley, Falkland Islands and during their voyage to South Sandwich and South Georgia. The DXpedition will take place in January-February 2016. The team will be on each island for ten days, with eight full days of radio. "Our plans are moving forward in all aspects including our team's first \$54,000 installment to the RV Braveheart being paid on April 1, 2015", they say. "To date, we have raised \$90,000 towards our goal of raising \$215,000. This puts us 40% of our target. We would welcome additional support from the many

DX Clubs around the globe, particularly those in Europe and Asia who have not yet supported our efforts". The team has also announced their "Early Donor program for donations prior to departure to the islands. For all donations of \$25 or more, we will perform an early LoTW upload and we will include all \$25 donors in the first batch of QSL processing". See <http://www.intrepid-dx.com/vp8> for complete details. [TNX N6PSE]
