metres SSB, CW and digital modes with up to three stations. QSL via LoTW (preferred), via Club Log's OQRS or direct to VU2CPL. The operation is self funded, and "we welcome any donations which will go towards offsetting our costs of transportation and other large expenses", the team says. Donations can be sent to <https://www.paypal.me/vu7t>, or through the OQRS' donate option. [TNX VU2CPL]

**W** - The Johnson Space Center Amateur Radio Club (JSCARC) will operate at the W5RRR shack on 13-15 October, in commemoration of 50 years of club operations at the NASA Johnson Space Center. Operations will be primarily on 10, 15, 20 and 40 metres SSB. QSL via LoTW, eQSL or direct to NASA Johnson Space Center, Attn: AW7/JSC Amateur Radio Club, 2101 NASA Parkway, Houston TX 77058, USA.

**XE** - Scout station 4B3AM will be active on 20-22 October for the annual Jamboree On The Air (JOTA). It will be located in Ciudad del Carmen on Carmen Island (NA-135). QSL via XE3AA.

**XE** - Manuel XE2IC, Jose-Felix XE2I and Antonio XE2HVF will be active as XF1IM from Isla Magdalena (NA-078) from 25 November to 3 December. QSL direct to XE2IC. [TNX DX World]

**XW** - Bruce, 3W3B will be active again as XW4XR from Laos on 12-24 October. He will operate CW and FT8 on 60-6 metres. QSL via LoTW and E21EIC. [TNX The Daily DX]

**XW** - Champ, E21EIC will be active again as XW1IC from Laos on 14-18 October. QSL via Club Log's OQRS and LoTW, or via home call. [TNX DX World]

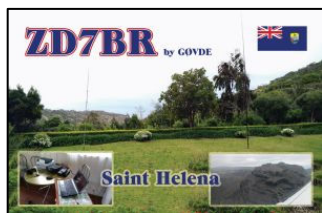

**YB** - Special callsign YE16BATU will be active on the HF bands and 2m on 8-12 November for the 16th anniversary of the city of Batu (Java Island, OC-021). QSL via Club Log's OQRS ("free or very low cost"), or direct only to YB3MM.

**YJ** - Chris, VK2YUS (YJ0CA) and Mike, VK2BXE (YJ0MB) will be active from Efate (OC-035), Vanuatu on 1-7 November. They will operate SSB on 40 and 20 metres. QSL direct to home calls. [TNX The Daily DX]

**YJ** - Tom, JA1VND will be active holiday style as YJ0JA from Efate (OC-035), Vanuatu on 15-20 November. He will operate CW, SSB and RTTY on 160-10 metres. QSL via JA1VND, direct or bureau, and LoTW. [TNX DX World]

**Z3** - Z370M is the special callsign for Radio Club "Nikola Tesla" (Z37M) from Stip, Macedonia to celebrate their 70th anniversary from 1 October to 31 December. QSL via LoTW, eQSL, or Z33Z.

**ZD7** - ZD7BR (not the previously announced ZD7VDE) is the callsign allocated to Bill, G0VDE for his 14-21 October operation from St. Helena (AF-022) [425DXN 1377]. Depending "on demand for ZD7 and band conditions", he will be active on 80-10 metres SSB, with some RTTY, PSK31 and possibly FT8 and "just maybe a little CW". See <http://sthelenadx.com/> for updates. QSL via

G3SWH (OQRS for direct and bureau cards on <http://www.g3swh.org.uk/decision.html>) and LoTW, logsearch on Club Log.

**ZF** - Rick, NE8Z will be active holiday style as ZF2ZE from the Cayman Islands (NA-016) on 23-29 October, including some limited activity during the CQ WW DX SSB Contest. He will operate CW, SSB and maybe FT8 on 40-10 metres. QSL via LoTW or via NE8Z.

**3YØZ: BOUVET 2018** • "After over 10 years of dreaming and 2 years of rigorous planning, we have turned a page", the team reported in their Press Release #9 (17 October). "Our team is intact and ready. We have 17,000 pounds of equipment. It has been tested, sorted, inventoried and packed into our 40-foot sea container. We have discussed all conceivable contingencies, including rough seas, clouds and fog, high winds and emergencies at sea and on shore. We have studied propagation, maximized our location on the island, selected the best radio equipment, and have thought first and foremost of safety. All of this culminated when we sealed our sea container

on October 9th, entered it into customs bond, placed it on a truck and watched it begin its journey to Punta Arenas, Chile. Our die has been cast. Now, a new chapter begins: one of reflection, waiting anxiously and hoping (praying) that all will go well from this point on.

We have been blessed by the worldwide support of individual amateur radio operators, clubs and foundations. They have backed us, overwhelmingly. We are inspired by the support we have received, both financially and in spirit. We want to live up to all that is expected of us on this 'generational' DXpedition, which is likely the largest and most challenging DXpedition - ever. Indeed, there may never be another like it. We now have time to appreciate the responsibility that this project thrusts upon us. We feel it, and we will do our utmost to meet the DX world's expectations from Bouvet - the number 2 'most wanted' entity.

You will start seeing band plans, more detailed propagation information, QSL information and more on our website (<http://www.bouvetdx.org/>). Our Facebook and Twitter social media outlets will keep their conversational tone, but shift their focus to how you can best work us, plus current events and news of interest. Our updated propagation forecasts continue to validate our predictions, as visualized on our website propagation page.

Our team now has a singular focal point, King George Island, where the next chapter begins. We will meet our ship there on January 13th, and sail 2,200 miles to Bouvet. By departing from King George Island rather than Punta Arenas, we save about 400 miles of sea travel. This essentially gives us one or two more days on the air from Bouvet. We will savor those days, because they will give us QSOs that otherwise would not have been made. We have asked more from our team members than for any previous DXpedition. This includes their time, effort and money. We thank all of you who are helping to defray some of their costs. We continue to welcome new and additional support to help with these expenses.

We are counting the days..."

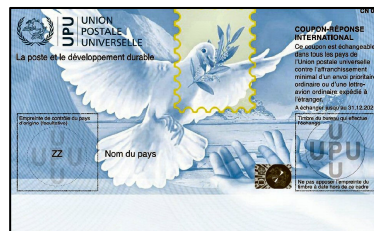

**CLUB LOG'S MOST WANTED LIST** • The latest Most Wanted List is available at <https://secure.clublog.org/mostwanted.php>. The information is derived from QSOs uploaded to Club Log (on 1 October there were 447.8 million log entries available for analysis) and, to improve quality, only QSOs that have QSLs confirmed are considered to be worked. The most wanted charts are rebuilt once per month, on average.

**FT5XT** • Gildas, F4HQZ (ex TU5KG) usually operates /mm when in the Crozet (FT5WQ) and Kerguelen (FT5XT) waters during his fishing campaigns in the Southern Indian Ocean. On 11 October, however, he was able to land and be QRV from the Kerguelen Islands (AF-084) for a couple of hours on 20 and 15 metres SSB. QSL direct to F4DXW; logsearch will be available on Club Log.

**NEW IRC** • The Universal Postal Union's newest model of the International Reply Coupon (IRC) is the 'Istanbul model', which features a pair of hands and a dove against an Arctic backdrop. It is valid for exchange until the end of 2021. The current 'Doha model' remains valid until 31 December 2017. Old out of date IRCs can be donated to M00XO or M0URX, who will use expired coupons to fund their outgoing Bureau service ("just 300 old out of date International Reply Coupons is enough to post 20,000 Bureau cards to world IARU Bureaux", Tim says).

**OQRS ENABLED** • Club Log's OQRS has been enabled for VK5CE/8 (North Island, OC-198) and RI1F (Victoriya Island, EU-190). See [https://secure.clublog.org/logsearch/VK5CE/8\\_OC198](https://secure.clublog.org/logsearch/VK5CE/8_OC198) (2,966 QSOs logged on 12- 15 October), and <https://secure.clublog.org/logsearch/RI1F/EU-190> (about 11,000 QSOs logged on 4-8 October: digital modes, VHF, UHF and SAT will be uploaded later).

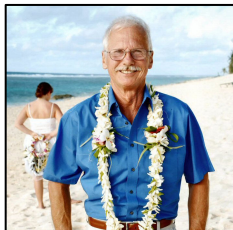

*The RI1F DXpedition to Victoriya Island went QRT earlier than expected, around 10 UTC on 8 October, as polar bears roaming around the camp and even peeping into the tents were becoming a major problem. A photo gallery can be found at <https://yadi.sk/d/Xv3aZrk23GoQ2Y>*

**QRP MARATHON** • The 2nd QRP Marathon ("not a contest, but rather a statistical game") started on 19 October and will run until 23.59 UTC on 30 November (42 days, as the marathon course is 42 kilometres). Complete Information can be found at <http://www.aegeandxgroup.gr/page.html>. [TNX SV8CYV]

**QSL E51AND** • Andy, E51AND (ZK1AND) will QRT on 28 October, as he and his wife Kathy, E51CK will leave Rarotonga, South Cook Islands and move permanently to New Brunswick (VE9). "Logs from October 2013 on have been uploaded to Club Log and LoTW", Andy says, "but requests for direct QSLs need to be received by the end of November 2017. With up to 30 days transit time for mail, requests should be sent by 1 November 2017 - after December we will no longer be able to receive mail and it will not be forwarded. So if you are looking for a card from us, please request it ASAP (Andrew N. Duncan, P.O. Box 518, Avarua, Rarotonga, Cook Islands). We will post a new mailing address on qrz.com as soon as we have one - that will not happen until at least February 2018". Other than Rarotonga (OC-013), E51AND operated from Palmerston (OC-124, North Cooks, 21 August-19 September 2012), Mangaia (OC-159, South Cooks, 16-19 July 2013), Mauke (OC-083, South Cooks, 11-13 June 2014) and Mitiaro (OC-083, South Cooks, 15-18 July 2014). In 2015 (1 January-31 December) Andy he was also active as E50A from his home QTH on Rarotonga.

**QSL V51Q & V55A** • After waiting over a year for cards and logs, Dan N4GNR has removed V55A and V51Q from the list of stations he is the QSL manager for, as he is "unable to answer any request for these two DX stations".

**S21ZAS** • After many trials and tribulations, activity from St. Martin's Island (AS-127) started on 23 October around 08.30 UTC as S21ZAS. The team expects to remain QRV until around 18 UTC on 27 October. QSL via SM6CVX.

**ST BRANDON (3B7) 2018** • Logistics planning for the April 2018 DXpedition to the Saint Brandon Islands (AF-015) [425DXN 1361] is being finalized. Eight experienced operators will be active for two weeks with seven stations on 160-6 metres CW, SSB and RTTY. "We already made important expenses and time has come to request assistance from the DX community", they said in their latest Press Release issued on 20 October. "As usual, we are extremely careful with each expenditure, but such project remains expensive. The team will provide more than 50% of the budget, but we need your assistance to balance it". See <http://www.saintbrandondx.com> for more information.

**VEFF** • Dave, VA3RJ reports that "the Canada Flora & Fauna (VEFF) program is well under way". VEFF awards are available for activators and chasers in various categories, and activities are also good for the World Wide Flora & Fauna (WWFF) awards. See <http://www.qsl.net/va3rj/veff.html> for complete information.

**WRTC 2018**

WRTC 2018 e.V., organizer and host of the World Radiosport Team Championship 2018 (<http://wrtc2018.de>), has announced the 63 teams that will be invited to compete in Germany next July. WRTC is a competition among two-operator teams. Team Leaders have been selected for each qualifying region based on two years of qualifying contest scores. The Team Leaders were given the option to select any operator as a Team Mate to complete their team.
