XF4DL ---> The DXpedition to Isla Socorro, Revillagigedo [425DXN 801] will emphasize PSK63 during digital mode operations. "We know that PSK63 is for sure not one of the very popular modes and very uncommon for a major DXpedition like ours", Juergen, DL8LE says. However, "its excellent properties" should allow "many more digital mode QSOs than possible in old standard RTTY". Please visit the Digital Modes page at http://www.xf4dl.xedx.org for full information.

ZL9BSJ/P ---> Bert, ZL2BSJ did operate from Campbell Island (OC-037) on 10 September.He "works for New Zealand's weather service", The Daily DX reports, "and sails in the Campbell Island area once or twice a year. If he is lucky and has some spare time he operates from the wharf for a few hours before heading back out to sea". A similar activity took place back in 2002 (12 September). Last week's operation was cut short by the weather and Bert was able to log 133 QSOs. QSL via ZL2BSJ.
