ARCTIC'S LEGENDS ---> A major IOTA DXpedition [425DXN 1310] is being planned to take in February-March 2017 to commemorate the 120th anniversary of Fridtjof Nansen's legendary expedition to the Arctic Ocean. Five operators expect to be active as RT9K/9 from the Firnley Islands (AS-054), Tyrtoov Island (AS-121), Nansen Island (AS-104) and the Scott-Hansen Islands (AS-068). Plans are to spend 4-5 days on each island, and to operate CW, SSB and digital modes with three stations on 40-10 metres. QSL via RX9KM; four separate Club Log entries (RT9K/9/AS-054, RT9K/9/AS-121, RT9K/9/AS-104 and RT9K/9/AS-068) have been created and the OQRS will be enabled in due course. Bookmark www.qrz.com/db/RT9K/9 for updates; a presentation of the expedition can be found on <https://yadi.sk/i/9ZxlEaf8x4SYz>.

CQ9GXC ---> The 19-25 October activity by CT1GXC from the Selvagens Islands (AF-047) [425DXN #1328] has been postponed owing to reasons beyond the

operator's control. [TNX DX World]

FT4JA ---> The FT4JA Juan de Nova Island DXpedition video is now available on <http://www.juandenovadx.com/ft4ja-la-video-disponible/>.

IARU AC ---> The Administrative Council (AC) of the International Amateur Radio Union (IARU) is responsible for the policy and management of the IARU and consists of the three IARU international officers and two representatives from each of the three IARU regional organizations. The AC held its annual in-person meeting on 7 and 8 October in Vina del Mar (Chile), immediately prior to the IARU Region 2 Conference. See <http://www.iaru.org/news--events> for the details.

IARU SECRETARY ---> "Rod Stafford, W6ROD, has retired as IARU Secretary after seven years of service in that position", IARU reported on 20 October. "The IARU Constitution provides that the member-society serving as the International Secretariat, i.e. the ARRL, shall designate the Secretary. The ARRL Board of Directors has designated David Sumner, K1ZZ, to replace Mr. Stafford as Secretary effective 15 October 2016.

Mr. Sumner has served in this capacity twice previously, from 1982 to 1989 and from 1999 to 2009, while employed by the ARRL to manage its headquarters. Now retired from employment, he joins the other IARU officers and Administrative Council members in serving as a volunteer.

IARU resident Tim Ellam, VE6SH, has appointed Mr. Stafford as Emergency Communications Special Advisor. In this capacity he will represent the interests of the IARU and the global amateur radio community in the Development Sector of the ITU and will offer advice and counsel on matters relating to emergency and disaster response communications".

QSL CY9C ---> The QSL cards for the recent DXpedition to St. Paul Island are expected to arrive from the printer in 3-4 weeks. The logs have been uploaded to LoTW, but "unfortunately, and mysteriously, some data did not upload. We will investigate that and see what can be done after we get finished with the distribution of QSL cards direct and bureau".

T31T ---> The team (3Z9DX, SP3DOI and SP7VC) left Kanton Island on 16 October around 6 UTC, much earlier than anticipated, "due to a typhoon approaching on the horizon". Reportedly they have made nearly 31,000 QSOs; the logs will be uploaded to Club Log and the OQRS will be activated when they get back to Samoa. "The local police officer and new Ham Radio op they're leaving the radio/antenna setup for (T31KNT) has been brought up to speed and will be stopping by the 20 Meter ANZA DX Net in the future. He has no plans to operate pileups for now". [TNX DX World]

VK IOTA POLL ---> Craig, VK5CE is "looking at planning future IOTA DXpeditions. The % claimed and activation history on the IOTA website and % claimed in the past 8 years as per the 2016 IOTA directory give a good indication. However I'm also keen to see what you as a dedicated IOTA hunter need. So please visit <http://vkiota.blogspot.com.au/> and fill in the poll. This is a chance to make your voice heard and also send in a donation if you are able to".

Radio Team Championship community. The award is issued on a yearly basis (2015, 2016 and 2017) for working stations from the 29 WRTC Qualification Regions.
