PW0S ---> The final QSO count for the recent PW0S DXpedition to St. Peter and St. Paul Rocks was around 7,800. "The team (PY7XC, PY7ZY, PT7BZ, PY0FF) arrived at the Rocks on the morning of February 9, finding the sea much too rough to even consider landing", PW0S Coordinator Bill Smith, W9VA reports. "The seas subsided enough on the morning of February 12 to attempt a landing, and they were able to get some equipment ashore and operating by 2100Z. The bad weather continued with high winds, lightning and rain, frequently interrupting operations. Because of the three day delay in landing, by February 16 the group was already way overdue getting home to their families and jobs. Supplies were running out. The weather was such that they could safely get themselves and equipment off the Rocks, and the sensible decision was made to leave." The QSO count "is well below expectations", but they were "7,800 contacts that would have not been made at all without incredible courage and devotion to our hobby. An effort was made to spend at least a little time on all bands and modes, including RTTY". QSL via KU9C. The web pages for PW0S are at <http://www.soutomaior.eti.br/mario/paginas/dx.htm> (logs should be available soon).

QSL D68C ---> Please note that the QSL manager is G3SWH (Phil Whitchurch, 21 Dickensons Grove, Congresbury, Bristol BS49 5HQ, England), not G3SXW.

QSL ZF2LM ---> Jay, AF2C is the QSL manager for ZF2LM. Bureau cards are welcome, direct requests should include an SASE or \$1.00, no IRCs please. [TNX AF2C]

QSL VIA IN3ZNR ---> Fabrizio reports he will start processing QSL requests for XW3ZNR and XW3QBR (27 December 2000- 11 January 2001) after 15 March, when he expects to receive the cards from the printer. The address for IN3ZNR

is Fabrizio Vedovelli, Via Gramsci 27, 38100 Trento - TN, Italy.

ST0P ---> DXCC Manager Bill Moore, NC1L reports that ST0P (a "lack of documentation" case) has been approved and cards can be submitted for DXCC credit.

TM1Z ---> Luc, F60YU reports this is the first special TM call legally issued by the licencing authority in France since "more than one year". QSL via F60YU (Luc Hedoin, 1020 route de Frans, 69400 Villeranche, France).
