CQWW DX CONTEST: A NEW CATEGORY ---> The new "Xtreme" category has been added to the CQ WW DX Contest "to encourage the development of new technologies in amateur radio communications in general and contesting in

particular". The new category "has been established to allow amateurs to participate in the CQ WW Contest while experimenting creatively with Internet-linked stations and other new technologies that currently are not permitted in any of the contest categories". Complete details can be found at http://www.cq-amateur-radio.com/XtremeCQ_WW_Experimenter_June.pdf

G3SWH ---> Over the past few days Phil, G3SWH has had some problems with the "QSL Request" and "Contact Me" functions of his web site (<http://www.g3swh.org.uk>), as a result of his ISP changing servers. These problems have all been resolved and the web site is now fully functional. [TNX G3SWH]

This activity period ("a friendly competition for DXers and not a contest as such") will be held from 00.00 UTC on 1 September through 23.59 UTC on the 30th, on 15, 12, 10, 6 and 4 metres only (where permitted) and on any mode permitted by your license. The scoring will be one single point per DXCC Entity contacted, regardless of band or mode. Further information can be found at http://www.g4ifb.com/html/hf_dx_challenge.html [TNX ZL2IFB]
