# GOOD TO KNOW

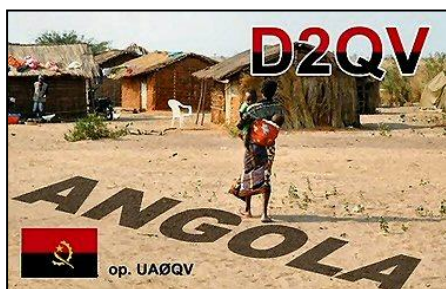

**DX0DX** ● The DX0DX expedition to the Spratly Islands [425DXN 1013] has been extended to 1 February, in order to accommodate the CQ World Wide 160m CW Contest. A very large team of operators from 15 nations will be active from four operating sites with eleven transceivers (four each for CW and SSB, plus two on digital modes and one for 6m, 2m, 70cm & 23cm) and a wide range of antennas (yagis, verticals and 4-squares). Updates and further information, including details on how contribute to this expensive operation, can be found at [www.dx0dx.net](http://www.dx0dx.net) [TNX VK3PC]

**T32C** ● "An anonymous sponsor has kindly offered to pay for the return flights between Honolulu and Kiritimati, plus hotel and food costs while on the island, of a young amateur to join the T32 DXpedition. The young operator will be required to pay for his/her flights between home and Honolulu. We are looking for a competent operator in the 18 to 25 age group and we have reserved a slot during the second half of the DXpedition from 9th to 27th October 2011. If you are interested, or know of somebody who might be, please email Neville, G3NUG ([g3nug@btinternet.com](mailto:g3nug@btinternet.com)) as soon as possible". [TNX [www.t32c.com](http://www.t32c.com)]

**TOP LISTS** ● The latest Topband, Topmode and Toplist listings are now available at [www.425dxn.org/awards/toplist/index.html](http://www.425dxn.org/awards/toplist/index.html). QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send send your scores, as well as any request for further information, to Erminio Pandocchi, I2EOW ([i2eow@fastwebnet.it](mailto:i2eow@fastwebnet.it))

**VOACAP ONLINE** ● The point-to-point HF propagation prediction service VOACAP Online (<http://online.voacap.com>) now uses Google Maps for coordinate entry. The transmitter and receiver coordinates are defined by dragging two location markers on the map. The mouse wheel or keyboard keys can be used for zooming in and out so placing the markers at the exact points on the map is as accurate as it can get. Jari Perkiomaki (OH6BG) has also updated the sunspot predictions until the year 2012.

## DXCC NEWS

The following operations have been approved for DXCC credit:

**J5NAR** Guinea-Bissau, 2010 operation

**5X0CW** Uganda, 2010 operation)

**D2QV** Angola, 2010 operation

If you have had this operation rejected in a recent submission, please send a note to [dxcc@arrl.org](mailto:dxcc@arrl.org).

## QSL

**3B9FR** ● Robert, 3B9FR "has health problems that have been keeping him from operating and answering QSL cards", The Daily DX reports. "The health problem has been going on for some years and requires special care", so "hold your cards until further notice".

**9V1UV** ● K. C. "Selva" Selvadurai (9V1UV) passed away on 30 June, but Jerry, N5UCF says he will continue to serve as his QSL manager. He has logs for all of Selva's QSOs and will answer either direct and bureau requests.

**KH6MB** ● Martin, KH6MB would like to remind everyone that AI4U has not been is QSL manager since 1 January 2010. QSL direct to Joseph M. Barr, 41-863A Laumilo St., Waimanalo HI 96795, USA, or LoTW.

**VU2PAI** Pai, VU2PAI has uploaded to LoTW about 100,000 QSOs dating back to 1995. He still has many paper logs, which sooner or later will be entered into his computer. Pai still has traditional cards for his operations as VU2PAI/C, AT0PAI, AT2PAI and VU2PAI/50, as well as for his IOTA activities from St. Mary's Island (AS-096) and Sacrifice Rock (AS-161). "Do not send 'green stamps'", he says: IRCs are all right, but he prefers you to affix "2-3 beautiful stamps" on your envelope to him, for his collection (and do not forget to include a self-addressed envelope or address sticker). Queries can be sent to [vu2pai@gmail.com](mailto:vu2pai@gmail.com) [TNX VU2PAI]

**G3SWH OQRS SERVICE** ● "I am pleased to announce the launch of my On-lin QSL Request System (OQRS). In addition to the long established ability to request bureau cards via e-mail, you can now request QSL cards for any of the 100+ callsigns that I manage to be mailed to you direct and to pay for the postage etc. via PayPal. Why bother with mailing direct? The OQRS is easy and reasonable. Any queries or unforeseen issues will be handled via e-mail. Please visit my web site [www.g3swh.org.uk](http://www.g3swh.org.uk) for further information and instructions". [TNX G3SWH]

**QSL RM4Y** ● This is the new callsign for Sergey Bushkov, ex RZ1OM, 4K2OIL, 4K4OM, UA1OIL. He left Arkhangelsk in September and has moved permanently to Cheboksary. His new mailing address is Sergey G. Bushkov, pr. 9 Pyatiletki d.15 kv.69, Cheboksary, Chuvashiya 428027, Russia.

**QSL VIA N3SL** ● Steve, N3SL is the QSL manager for two special contest callsigns issued to individual GM operators: GM2V (GM3WOJ) and GM5X (GM4YXI). Additionally, GM7V, a long-standing club callsign, is moving to Steve as the manager. GM2V and GM5X QSLs are in the process of being printed, but possibly not "in hand" before the end of the year. GM7V cards are being shipped to Steve from Scotland, arrival date unknown. If anyone should need one of these calls confirmed for a 2010 DXCC submission, please send your request with a note, and Steve will confirm with a different GM card. If you've already sent him a request and need a card now, email him at [n3sl@arri.net](mailto:n3sl@arri.net). [TNX N3SL]

# DX0DX Spratly Islands 2011

## The Spratlys DXpedition Gets Wings

With just over 40 days to go before the month-long DX0DX DXpedition, comes news that the operators will now fly to Thitu (Pag-Asa) island rather than taking a 30 hour plus trip by sea.

Team Leader, Chris Dimitrijevic VK3FY & DU8/VK3FY said while flying had been an option in early planning, when the boat that would have ferried the operators was damaged in heavy sea and needing substantial repairs, aviation transport to and from the island became available.

The charter of a twin-engined aircraft adds to the expense of the DXpedition and the personal costs for all taking part in it. Smaller sea transport will still be used to get

equipment and supplies to the island.

The 37 operators from 15 countries are ready to arrive and take part in three teams to put DX0DX on air from 6 January to 1 February 2011, including the CQ World Wide 160m CW Contest. The special DX entity The Spratlys Islands (IOTA AS-051) will have a big presence on all bands.

Chris VK3FY & DU8/VK3FY said, 'There is a real excitement within the amateur radio community about this particular DXpedition, and most of the operators just can't wait to be part of action.

'It is much more than activating a rare DX spot. There is no doctor or health service on the island. As part of a humanitarian contribution, two DXpedition members who are doctors, Josette Docherty VK2FXGR and Edward Soriano 4F1OZ, will provide medical checks to the island's residents.'

It was announced today that Amateur Radio Victoria VK3WI had voted to make a substantial donation directly to purchase medical supplies for use as part of the humanitarian effort.

In other news, Chris Dimitrijevic VK3FY & DU8/VK3FY announced that for the 160m band DX0DX will have two 65 foot Top Hat phased verticals and a back-up Titanex V1602E antenna.

"The DXpedition will be doing its utmost to satisfy the demand for contacts on the Top Band, as demonstrated by it having the highest sought after rating in the DX0DX website online survey," he said.

All equipment for the DXpedition will have arrived in The Philippines. Earlier it was reported how eight HF Yagi antennas had been pre-assembled and tuned, ready for construction and erection on the island.

The Philippine Amateur Radio Association (PARA) has appointed DX0DX team member, Dindo Garcia DV1UD, as the PARA liaison person to handle all Bureau of Customs requirements.

Thank you to the generous corporate sponsorship that makes the DXpedition possible by providing equipment and other needs, plus funding support from DX groups, clubs, and individual radio amateurs.

For more information about the DXpedition please check out the [www.dx0dx.net](http://www.dx0dx.net) website which has just been extensively updated.
