425 DX NEWS MAGAZINE • The June 2014 issue is now available for download at www.425dxn.org/monthly/index.html. [TNX IZ3EBA]

AEGEAN VHF CONTEST • The 13th Aegean VHF Contest (6m, 2m and 70cm) takes place on 5-6 July (48 hours). Entrants are expected from all Greek mainland areas (SV1, 2, 3, 4, 6, 7), as well as from the Dodecanese (SV5), Crete (SV9) and other Greek islands (SV8). Complete information can be found at www.aegeanDXgroup.gr. [TNX SV8CYV]

AVES ISLAND 2014 • The YW0A DXpedition to Aves Island appears to have been postponed indefinitely. Read the 4M5 DX Group's announcement, dated 27 June, on www.avesisland.info.

K6VVA 2014 IOTA PROGRAMME SURVEY • This "multi-purpose personal Research Survey" for both IOTA Programme Participants (those who submit QSLs for IOTA credit) and Non-Participants from the DX Community was conducted between 23 May and 7 June [425DXN 1204]. Detailed results were released on 15 July and are at <http://dx-world.net/2014/k6vva-iota-survey-results/> [TNX K6VVA]

LORD HOWE 2014 • Felix, DL5XL had to cancel his participation in the 13-29 October VK9DLX/VK9LM expedition to Lord Howe Island [425DXN 1196], and has been replaced by Joerg, DF7TH. Over 3 tons of equipment have been packed in nearly 60 different boxes

to be shipped from Germany to Australia, and then to their final destination. Read the latest complete press release (7 July) on www.lordhowe2014.org. [TNX DL1MGB]

NC1L • ARRL DXCC and Awards Manager Bill Moore, NC1L, was seriously injured in a single-car accident on 3 July. Moore suffered a broken neck and other injuries and is paralyzed from the chest down. He is stable and recuperating in a Newington rehabilitation facility. There is no timetable for his return to work at ARRL Headquarters. DXCC and awards questions that would normally be handled by Bill should be sent to one of the e-mail addresses listed on the DXCC Contacts web page (<http://www.arrl.org/dxcc-contacts>). Cards and get-well wishes are appreciated, and should be sent to Bill Moore, 92 Reservoir Rd, Newington, CT 06111, USA. [TNX ARRL]

NCDXF • At the Northern California DX Foundation's quarterly board meeting, on 29 June, Craig Thompson, K9CT, was elected to the board of directors. In addition to normal director duties, Craig will help NCDXF develop and execute a program for significant contributions through estate giving and tax planning. [TNX WOGJ]

WRTC 2014

- There will be a live scoreboard for tracking the team standings in near real-time during the World Radiosport Team Championship (12-13 July). The scoreboard can be accessed directly on the web (<http://sb.wrtc2014.org>) or from a link on the WRTC 2014 web site (www.wrtc2014.org). The web site will show the scores of all teams ordered by score. Clicking on a team will reveal the team's band breakdown, hourly rate sheet, and position for each hour of the contest. A leader board page will list the top 5 teams by CW contacts, SSB contacts, multipliers, and points per QSO. It will also be possible to select multiple teams and compare their scores on a graph vs time. Teams will be shown by the calls of the team members rather than their over-the-air callsign (this is done to maintain fairness by keeping the team identity behind each callsign a secret). The scoreboard site is live before the contest for testing purposes. All scores will be reset to zero before the contest begins at 12.00 UTC on 12 July.
- The complete official results of the World Radiosport Team Championship 2014 are now available at <http://www.wrtc2014.org/results/>. Medal winners are N6MJ & KL9A (K1A, gold), OM3BH & OM3GI (W1L, silver) and DJ5MW & DL1IAO (W1P, bronze). Award winners are IK1HJS & I4UFH (K1M, Highest SSB), LX2A & YO3JR (N1S, Highest CW), N6MJ & KL9A (K1A, Highest Multiplier) and DJ5MW & DL1IAO (W1P, Best Accuracy). Bob, N6TV has posted some 950 pictures of the WRTC event on <http://bit.ly/n6tvphotos> (shortcut to Picasa).
- The results for the WRTC Chase Awards, including online certificates, are now available at <http://www.wrtc2014.org/chase-awards/>. There were 388 stations that appeared in the logs of all 59 teams.

+ SILENT KEYS + Gaetano Giudice, **IT9GAI** and Piero Marino, **IT9ZGY** passed away on 16 and 18 July respectively. A serious DXer for many decades, Gaetano had a total of 366 Entities confirmed in the DXCC standings and was one of the doyens of IOTA chasing in Italy (he gained his initial certificate #15 on 30 November 1968). Licenced since 1952, over the years Piero held prominent positions within ARI, on both regional and national levels. He was an enthusiastic contester and DXer, with 390/340 (Mixed), 377/338 (Phone) and 352/339 (CW) Entities confirmed, and a lifelong passion for the Top Band.

IOTA PROGRAMME: NEW ISLAND GROUPS

by RSGB IOTA Manager Roger Balister, G3KMA

11 July 2014

ELEVEN NEW IOTA GROUPS were announced at IOTA's 50th Anniversary Convention, held in Windsor, England over the weekend 4 to 6 July 2014. Some result directly from the rule changes announced in the latest IOTA Directory, published in May 2014 (a note of the main changes can be seen at IOTA Rule Changes 2014 on <http://www.g3kma.dsl.pipex.com>).

All new groups have provisional numbers. This means that they will need to be confirmed by an operation taking place after 5 July 2014 that meets the 1000 QSO and other normal validation requirements. Only after confirmation of the number will credit for past operations be considered. Most of the new groups have not seen a previous amateur radio operation. Where however there has been an operation with contacts credited to an IOTA group, IOTA Management will at some point arrange transfers of credits to the new group if it has clear-cut information covering all operations in the old group. In two cases this may not be possible.

The addition of these new groups necessitates in some cases the renaming of the titles of existing groups and amendment of the "co-ordination boxes" as currently appearing in the new Directory. 'A' and 'W' refer to the regional awards as shown in the Directory.

**AF-118P CN MEDITERRANEAN SEA COAST GROUP (= Jaegerschmidt, Los Farallones) 34.59-35.56N
002.13-006.15W**

Comment: New 'coastal islands' group. These islands were not previously shown on a 1:1,000,000 scale map but now qualify from being shown and named on Google Earth. No known previous amateur radio activity.

**AF-119P S7 COETIVY ISLAND (= Coetivy) 06.58-07.18S
056.08-056.25E**

Comment: New 'remote island' group. This island (previously AF-024) lies a distance of some 170 km from Platte Island, the nearest island in the rest of the Seychelles. Permission to land and operate is required from the owners. No Known previous amateur radio activity.

Note: Coetivy will be deleted from AF-024 and the 'co-ordinates box' amended.

**AS-200P JA5 SHIKOKU'S COASTAL ISLANDS (= [Islands to be listed]) 32.40-34.35N
132.00-134.52E**

Comment: Shikoku, one of the four main Japanese islands, has hitherto not had its own coastal islands IOTA group and these all previously counted for AS-076. This is being changed. The main valid islands will be listed on the scroll down list on the application page on the RSGB website shortly. There has been regular previous amateur radio activity. Contacts do not count until a new valid operation has taken place. It may not be possible to transfer past credits that now qualify for AS-200P.

Note: The island entry against AS-076 will be amended.

**AS-201P TA SEA OF MARMARA ISLANDS (= Avsa [aka Turkeli], Imrali, Marmara, Pasalimani, Prince Isls [namely Burgazada, Buyukada, Heybeliada, Kasik, Kinaliada, Sedef, Sivriada, Tavsan, Yassiada]) 40.18-41.04N
026.10-029.31E**

Comment: The case for the Sea of Marmara islands counting as a separate group for IOTA has been reviewed and, given the special treatment afforded the Black Sea islands, is considered on balance worthy of acceptance. The main valid islands are on the Asiatic side of the Sea of Marmara. There has been occasional previous amateur radio activity but contacts do not count until a new valid operation has taken place.

**AS-202P A9 HAWAR ISLANDS (= Hawar Isls [namely Hawar, Rabad al Gharbiyar, Rabad ash Sharqiyah, Suwad al Janubiyah, Suwad ash Shamliyah]) 25.32-25.47N
050.41-050.51E**

Comment: This is a self-contained group of islands (previously AS-002), which nestle close to Qatar and are physically separated off from Bahrain. No known previous amateur radio activity.

Note: The island entry against AS-002 and the 'co-ordinates box' will be amended.

**AS-203P R0X SHELIKHOVA BAY GROUP (= Dobrzhanskogo, Konus, Rovnyy, Skala, Tretiy, Zubchatyy) 59.00-62.41N
159.40-165.05E**

Comment: The currently named Shelikhova Bay group (AS-091) is being split to allow islands north of Ptichiy Island to count separately. Dobrzhanskogo Island is situated some 600 km from Ptichiy and the others mentioned above some 500 km. This distance spread in a group is quite exceptional. All previous activity has been from Ptichiy Island (AS-091) - by UA0X/EK250RA (August 1991), RZ0ZWA/0 and UE0XYZ (both July 2001) - and this will remain AS-091.

Note: The title of AS-091 will be renamed 'Sea of Okhotsk Coast group' and the 'co-ordinates box' amended.

**A EU-190P RI1F VIKTORIYA ISLAND, FRANZ JOSEF LAND (= Viktoriya) 80.05-80.12N
036.30-037.10E**

Comment: New 'remote island' group. This island (previously EU-019) lies a distance of 158 km from Zemlya Aleksandry, Franz Josef Land. Previous amateur radio activity was by Nikolay Povalyaev (1985-1991 as UA10/UA0BCA, then 1991 to 1994 as 4K2BCA and, lastly 1994 when the station was closed as R1FJV) but contacts do not count until a new valid operation has taken place.

Note: Viktoriya will be deleted from EU-019 and the 'co-ordinates box' amended.

EU-191P YO/UR FERICIRII ISLAND (= Fericirii)

**45.09-45.13N
029.45-029.47E**

Comment: New 'split sovereignty island' group. This is a newly established split sovereignty island in the Black Sea just outside the Danube Delta. It is 2km from the mainland and approximate 4.78Km long. A recent International Court of Justice decision split sovereignty over the island between Romania and Ukraine. It cannot be joined with Saculinu Mare because the latter is not split sovereignty. No known previous amateur radio activity.

W NA-247P PJ7 SINT MAARTEN'S COASTAL ISLANDS (= Guana Key of Pelikan, Molly Beday [aka Mal Aborder])

**18.00-18.04N
062.57-063.10W**

Comment: New 'coastal islands' group of a split sovereignty island. These islands were not previously shown on a 1:1,000,000 scale map but now qualify from being shown and named on Google Earth in the same way that the coastal islands of St Martin FS count (NA-199). No known previous amateur radio activity.

A NA-248P VE8, VY0 NWT (MELVILLE ISLAND) GROUP (=Borden, Brock, Eglinton, Emerald, Mackenzie King, Melville, Prince Patrick)

**74.20-78.50N
105.00-123.30W**

This leaves NA-009 as follows:

A NA-009 VY0 Nunavut (Devon Island) group (=Baillie-Hamilton, Bathurst, Byam Martin, Cameron, Coburg, Cornwall, Cornwallis, Devon, Graham, Grosvenor, Loughheed)

**74.24-77.51N
079.00-106.10W**

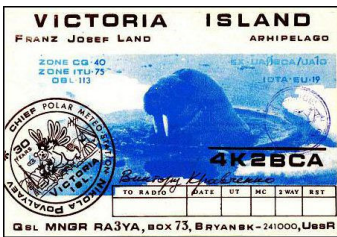

Comment: The very large territorial/sea area covered by NA-009, Nunavut (Parry Islands) is divided administratively between NWT and Nunavut by straight line co-ordinates (in some cases across an island). Following practice elsewhere, these islands are now split into two IOTA groups. Devon and Melville Islands, the largest islands in each, are among the next largest "large islands" in size after others that have been given separate numbers because of size. There has been regular previous amateur radio activity from NA-248P. Contacts do not count for this group until a new valid operation has taken place. It may not be possible to transfer past credits from NA-009 that now qualify for NA-248P.

OC-296P T8 TOBI AND HELEN ISLANDS (= Helen, Tobi)

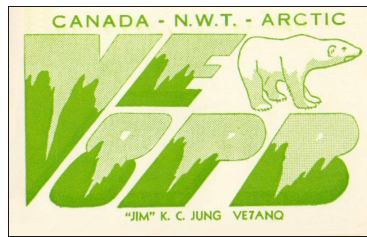

**02.40-03.10N
131.00-132.00E**

Comment: New 'remote island' group. These two islands (previously OC-248) lie a distance of about 152 km from Merir Island, the nearest of the remaining South Palau group. No known previous amateur radio activity.

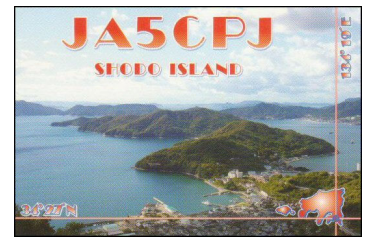

Note: The title of OC-248 will be renamed 'Sonsorol Islands group' and the 'co-ordinates box' amended.
