He says that the operation has been delayed "for 30 to 60 days", and that "October 2014 looks possible". See www.wake-diego2014.org for possible updates. QSL via N7XR, direct only.

W - Bill, K2HVN will be active from Martha's Vineyard (NA-046) on 20 September, and from Nantucket Island (NA-046) on the 21st. He will operate CW (14040, 10115 and 7035 kHz) and SSB (14260, 18128 and 7055 kHz). QSL via home call. [TNX OPDX Bulletin]

W - Larry, K4KGG will be active holiday style from Jekyll Island (NA-058) on 3-6 October. He will operate SSB, CW and RTTY. QSL via home call, direct or bureau. [TNX rsgbiota.org]

W - A group of operators from Red Stick DX Association will be active as W5GIX from Grand Isle (NA-168) on 10-12 October. They will operate CW and SSB, and possibly some digital. QSL direct to W5GIX. [TNX AA50]

XT - Ivaylo, LZ1CLM expects to be active as XT2CML from Bobo-Dioulasso, Burkina Faso until 30 September. According to the entry on qrz.com, he will operate CW and SSB running 100 watts into a

20-metre long OCF dipole. QSL via home call, direct or bureau.

YB - Budi, YF1AR (www.yf1ar.com) will operate mainly SSB as YF1AR/p from a seaside location on Java Island (OC-021) on "every weekend for several weeks" starting on 5-7 September. He will concentrate on 80 metres during his nights, with some spare time activity on 40 metres during the daylight hours. QSL via N200, or via YF1AR by using the OQRS on Club Log. [TNX YF1AR]

YB - Look for YB8RW/p and YB8OUN/p to be active from Badutaka Island (OC-213) between 27 September and 2 October. QSL direct to home calls (YB8RW is likely to enable an OQRS on Club Log, see qrz.com for details). [TNX EU7A]

YO - Shu, JN6RZM reports that the second YP0F operation from Fericirii Island (EU-191) [425DXN 1216] is expected to take place on 5-7 September. According to the entry on qrz.com, the first activity logged 1246 QSOs between 22 and 25 August. QSL via YO9FNP.

YV - A team of YL operators will be active as YV5RYL from Los Roques (SA-035) on 18-21 September.

They will be QRV on 80-10 metres SSB, PSK, RTTY and CW. QSL via YV5AJ, direct or bureau; logsearch on Club Log.

ZD9 - David, ZS1BCE (who was ZS8Z from Marion Island in 2013-14) is currently heading to Tristan da Cunha with Gough Island (AF-030) as his final destination. He will take up the position of radio technician, replacing ZS1HF (ZD9M). David will apply for a ZD9 callsign (possibly ZD9A). QSL via ZS1LS. [TNX The Daily DX]

ZD9 - Paul, ZS1S as ZD9ZS on SSB [425DXN 1216] and Nigel, G3TXF as ZD9XF on CW will be active from Tristan da Cunha (AF-029) from about 10 September through 3

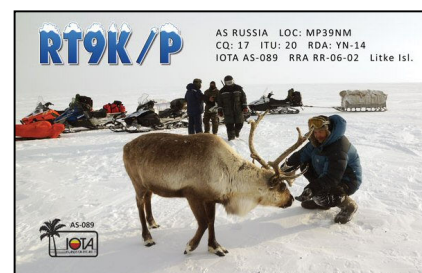

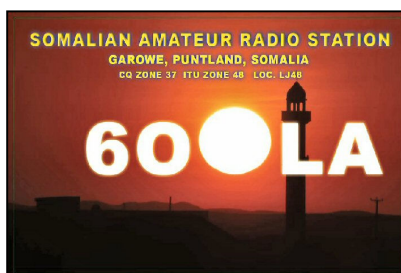

October. QSL ZD9ZS via ZS1S; QSL ZD9XF via G3TXF (please use Club Log's OQRS to request either direct or bureau cards). ZD9XF's log will also be uploaded to LoTW during the operation "as far as local Internet access allows".

MASCARENE ISLANDS TRIP • Diego, F4HAU will be active holiday style as FR/F4HAU from from Reunion Island (AF-016) on 9-12 and 18-24 October, while on 13-17 October he will be QRV as 3B9/F4HAU from Rodrigues Island (AF-017). He will operate SSB on 40-10 metres. QSLs via home call. [TNX DX World]

GOOD TO KNOW

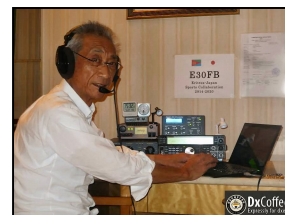

CHESTERFIELD ISLANDS 2015 • The Perseverance DX Group has announced their intention to conduct a DXpedition to the Chesterfield Islands (OC-176) later in 2015. The expedition yacht "Evohe" will provide transportation from Noumea, New Caledonia. Subject to licensing and landing formalities, it is expected a team of up to 12 operators will be on the island for up to 12 days. Team members committed or considering their participation include: Pista HA5AO, Les W2LK, Heye DJ9RR, Norbert DJ7JC, Mike WA6O and Gene K5GS. Additional team members will be added throughout the planning phase. A website is under construction. Please direct questions to Gene K5GS or Pista HA5AO at their e-mail address listed on qrz.com. [TNX K5GS]

DX MAGAZINE MOST WANTED SURVEY • The DX Magazine's annual Most Wanted Survey is being conducted (for the 25th year in a row) now through 15 October. The survey form can be found at <http://www.dxpub.com/survey/survey2014.html> (if you still need a DXCC Entity that is not listed, simply use the "Additions or Comments" space at the end of the form). [TNX N4AA]

E30FB • Zorro, JH1AJT had more than 30 meetings with various Eritrean authorities during his eight-day stay in Asmara [425DXN 1217], and his activity on the amateur radio bands was limited to his spare time. He did not expect "a large number of QSOs this time, however, FGC Radio team will conduct a team DX-Pedition to Eritrea in near future". Zorro started activity as E30FB at 12 UTC on 17 September and went QRT around 18 UTC on the 22nd, after 4200+ QSOs and a few problems (at he first he had to go barefoot, then his amplifier failed, and he also had "PC interface and keying trouble"). The OQRS on Club Log was enabled on 25 September, and the log is being uploaded to LoTW. [TNX JA1TRC]

FT4TA • The latest and last press release ("One more thing...") before the team leaves for Tromelin can be read on the expedition website www.tromelin2014.com. "Initially, we will seek to maximize the number of contacts to give everyone a chance whatever their geographical position", which means that FT4TA will be active

"quite often on the most prolific bands". Their second priority will be "activity on the low bands, with all the difficulties that it generates". The logs will be uploaded to Club Log on a daily basis; the leaderboard will not be activated and "neither the pilots, nor the QSL Manager will have access to the log during the operation". A special postage stamp, celebrating the 60th anniversary of the first amateur radio activity from Tromelin, will be used for all direct, OQRS and donor cards. The envelopes will be then postmarked and mailed by the TAAF; the process might take some time, but at the end of the day you will have your FT4TA QSL card and a Tromelin philatelic cover.

HAM RADIO 2014 LECTURES • The lectures held at Ham Radio 2014 (Friedrichshafen) are now available on DokuFunk (the Documentary Archive for the History of Radio Communication and Electronic Media):

DK7ZB: Yagi and Quad Antennas for HF/Shortwave

W1TP: The Enigma and Others Famous Cipher Machines

K0IR: FT5ZM Amsterdam Island DXpedition

The Powerpoint slides with synchronized audio are at www.dokufunk.org/talk [TNX OE1WHC]

IARU REGION 1 EC • The new IARU Region 1 Executive Committee, elected during the Final Plenary of the 23rd General Conference, includes Don Beattie G3BJ (President), Faisal Al-Ajmi 9K2RR (Vice President), Eva Thieman HB9FPM/OK3QE (Treasurer), Dennis Green ZS4BS (Secretary), Thilo Kootz DL9KCE, David Court EI3IO, Oliver Tabakovski Z32TO, Ivan Stauning OZ7IS and Ranko Boca 4O3A (Members). The 24th IARU Region 1 General Conference will be held in Wildbad Kreuth, Germany in 2017.

INDEXA • The International DX Association's (www.indexa.org) newly elected/ confirmed Officers & Directors are: Gary Dixon K4MQG (President), John Scott K8YC (Vice President) and Dick Williams W3OA (Secretary-Treasurer); Bob Allphin K4UEE, Ralph Fedor K0IR, Mary Hobart K1MMH, Bill Jennings W4UNP, Franz Langner DJ9ZB, Gregg Marco W6IZT, Jerry Rosalius WB9Z and Bob Schenck N2OO (Directors). Directors have selected K4UEE to serve as Chairman for Fiscal Year 2015. [TNX W3OA]

IOTA BASH • The 11th annual IOTA Bash will be held on 27-28 February 2015 in Boerne, Texas. Information can be found on the IREF website (www.islandradio.org). [TNX AB5EB]

- **CO6CG:** direct cards should be sent to G3OCA (Ken Frankcom, 1 Chesterton Road, Spondon, Derby, DE21 7EN, United Kingdom). Do not send cards via the bureau, Ken says, but request them by email (g3oca1[[@](mailto:g3oca1@ntlworld.com)]ntlworld.com). Ken offers his services to other operators wanting a QSL manager.
- **CO6LC:** IZ1GDB is the new QSL manager for CO6LC. QSL direct to Riccardo Iozzia, Via Adamello 26, 10093 Collegno TO, Italy.
- **GALLERY:** the large collection of QSL cards on Les Nouvelles DX's web site has been updated. Fifteen different galleries include 12,060 cards for the ten Most Wanted DXCC Entities (2004-13), the 61 deleted DXCC Entities, obsolete prefixes, stations from Maghreb from 1945 to 1962, Allied Forces stations in Germany (1945-70), special stations commemorating ITU and IARU, Antarctic bases & TAAF (Terres Australes and Antarctiques Francaises), the various French DXCC island Entities in the Pacific Ocean, the Indian Ocean and the Americas (from 1945 to 1970), pre-1945 countries, French

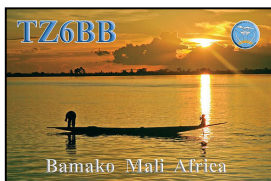

Departments and CONUS, plus a gallery for cards not accepted by DXCC. Your participation is encouraged - please visit www.LesNouvellesdx.fr. [TNX F6AJA]

- **RI0F:** the June 2014 operation from IOTA Group AS-062 has a second QSL manager: Alex RU0LM will handle requests (direct and bureau, his address is correct on qrz.com) coming from Asia, while Serge RX3F will handle requests for the rest of the world. [TNX UA0LCZ]
- **VIA RN3RQ:** Jack, RN3RQ (ua3r[@]yandex.ru) has taken over the QSL duties for a number of new stations: EA8/RA1A, HA9SU (SK), K9RS, N3RR, N4AF, NY4A, PR1T, RA2FDX, TK4A (2012) and UE16MM. See the complete list and QSLing instructions on qrz.com. [TNX RN3RQ]
- **YB0AZ:** W4JS is the new QSL manager for YB0AZ. QSL direct (John R. Sproat Jr, 1419 E Manasota Beach Rd, Englewood FL 34223-6341, USA) or bureau.
- **YB8RW:** Din, YB8RW is upgrading his logs to Club Log and enabling the OQRS. The logs for 18 different activities between 13 February and 8 August 2014 have been uploaded so far: logsearch is not intuitive, but instructions can be found at <http://www.qrz.com/db/yb8rw>

SAC 2014 • Organized by the Nordic Amateur Radio Union, the Scandinavian Activity Contest's aim is for Scandinavian stations to work as many non-Scandinavian stations as possible and vice versa. Scandinavian stations are defined as located in the Aland Islands, Denmark, Faroe Islands, Finland, Greenland, Iceland, Jan Mayen, Market Reef, Norway, Svalbard and Sweden. The dates and times for this year's contest (SAC) are 20-21 September (12 UTC to 12 UTC) for CW, and 11-12 October (12 UTC to 12 UTC) for SSB. Complete information of the SAC events can be found at www.sactest.net.

TX5B, TX5C & TX5E • FK8IK's November expedition to the Chesterfields (TX5C), D'Entrecasteaux (TX5E) and Belep Islands (TX5B) [425DXN 1205] has been postponed "because the sailboat is no longer available on these dates". [TNX DX World]

TZ6BB QRT • Fernando, TZ6BB (EA4BB) has been reassigned to Nigeria and will go there on 8 September. "I was kind of expecting this, though not so soon", he says. This means that TZ6BB will go QRT from Mali on Sunday (7 September) evening. He will be back to Mali for a few days by mid November, "but my task then will be to dismantle the station, pack all my things and then return to 5N land to stay. I will of course do my best to be on the air from there, but I need first to sort a license, QTH, station etc. Not sure how long that is going to take, but I'm afraid it won't happen overnight. I am leaving some of my radio equipment (including a nice HF transceiver) behind, here in Mali, as a little present to a local ham in the hope he will keep Mali active on the bands in the future. Let's see what happens". [TNX TZ6BB]

UBA 14-18 AWARD • Commemorating the centenary of the First World War, the Royal Union of Belgian Radio Amateurs (UBA) issues a remembrance award for contacts made between 1 August 2014 and 30 November 2018 with OP0PPY and special event stations with OP14, OP15, OP16, OP17 and OP18 prefixes. During the month of November of the years 2014-2018 all other Belgian stations will count towards the award as well. Complete information can be found at <http://uba.be/en/latest/flash/uba-14-18-award>. The certificate is free of charge, and only available in digital form. [TNX ON4CAS]

W1AW WAS • ARRL Centennial stations' schedule for September is as follows:

W1AW/1	Maine	until 23.59 UTC on 2 September
W1AW/7	Arizona	until 23.59 UTC on 2 September
W1AW/4	Tennessee	00.00 UTC on 3 September until 23.59 UTC on the 9th
W1AW/7	Oregon	00.00 UTC on 3 September until 23.59 UTC on the 9th
W1AW/1	New Hampshire	00.00 UTC on 10 September until 23.59 UTC on the 16th
W1AW/0	Colorado	00.00 UTC on 10 September until 23.59 UTC on the 16th
W1AW/5	Texas	00.00 UTC on 10 September until 23.59 UTC on the 16th
W1AW/4	North Carolina	00.00 UTC on 17 September until 23.59 UTC on the 23rd

XR2T • The website for the 8-12 October operation from Isla Damas (SA-086) [425DXN 1217] is now up and running at www.xr2t.cl. CE3OP and other eight operators (CA2JEG, CE1DY, CE3KHZ, CE3RBJ, CE4KCA, CE5PHI, XQ1KZ and XQ4CW) will operate CW, SSB, RTTY and PSK/JT65 on 80-10 metres. QSL via CE3OP, direct or bureau.

YJ0X • "Everything is on schedule for our arrival in Vanuatu on October 3rd", the team reported on 15 September (<http://yj2014.wordpress.com/>). "We hope to have at least two of the stations working and at least one aerial up for that evening. The emphasis the next day will be installing the contest band antennas all ready for the Oceania DX contest SSB leg later on that day. Soon after the contest, we'll be adding the WARC band antennas and 6m set-up, and when time permits the 160m antenna. We will be looking for openings to South America and Africa, the two continents most needing YJ for a new one, so if you're outside these areas, please QRX for the very short time it will take to work through callers. Regarding the Oceania SSB and CW legs, Clublog real-time uploads will be switched off during this time and uploaded soon after the contest ends".

+ **SILENT KEYS** + One of the doyens of amateur radio in Italy, Giancarlo "Chas" Martelli (**IOXXR**, ex I1PL) passed away on 2 September at 94 years of age. A FOC (First Class CW Operators' Club) member, he got hooked on radio some seventy years ago.

Paul Pai (**BV4FH**) passed away on 4 September at 57 years of age. "Over the years, Paul was instrumental in getting permission for DXpeditions to Pratas Island (BQ9P and BV9P) several times, as well as Scarborough Reef" (<http://n6pse.wordpress.com/>). He was also the team leader/team member of many IOTA operations, notably BOOK (AS-102), BOOM (AS-113), BV9A (AS-103) and BV9L (AS-155).

THE WAY FORWARD FOR ISLANDS ON THE AIR (IOTA)

Islands on the Air (IOTA) celebrated its 50th anniversary as a premier DX programme in July 2014, under the care of the RSGB and the IOTA manager, Roger Balister G3KMA. The last fifty years has seen the programme

grow to 2,500 active island chasers and approximately 15,000 more casual participants. It is perhaps second in scale and scope to the DXCC award; indeed, many would argue it is a step beyond that programme. The 50th Anniversary event in Windsor was very successful, with enthusiasts travelling from the UK and overseas to celebrate this important milestone in DX history.

Those close to it have been anxious to ensure the sustainability of the IOTA programme over the next 50 years and have spent some time reviewing the challenges and opportunities it faces. A number of issues have been identified: firstly, the heavy reliance of the programme on just a few key people; secondly, the need to ensure that IT support for the programme is modern and robust and will include online island credit submission akin to LoTW; and thirdly, a requirement for a friendlier and more accessible website which will be of greater use to both newcomers and the more experienced island chaser.

The review accepted without question that all island and participant databases should be preserved and that any changes should be backwards-compatible. In addition, it was important to seek ways to rejuvenate and ensure the sustainability of the programme. This vision we loosely called 'New IOTA'.

Over the summer, one particular pathway began to emerge. It was that of partnership rather than a top-down approach which had characterised some aspects of the programme's management in the past. The RSGB Board is

agreed that the IOTA team should be invited to establish a group to develop and implement the "New IOTA" concept, with the RSGB providing seed-corn finance and other appropriate support. This approach acknowledges that the strength of the programme lies with its national and international participants whom, we are assured, have the motivation, skills and enthusiasm to develop the programme and to promote it to its full potential. This way forward has the full support of the IOTA team and has been welcomed by the wider IOTA community both at home and abroad.

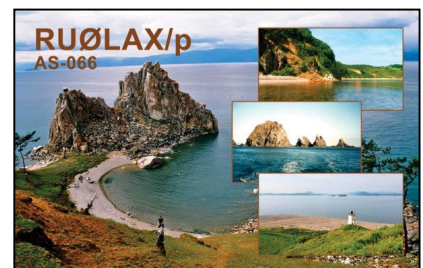

Our initial feedback is best summed up by Don Chamberlain MD, W9DC, who said:

"I am excited that the RSGB is combining with IOTA enthusiasts around the world to create a 'New IOTA' program. Their efforts will resolve most existing QSL and submission issues and will encourage IOTA chasers to participate in this very prestigious and challenging award."

Over the next nine months the group will be asked, through a market/user-led approach, to develop a plan for the 'New IOTA' programme to embrace management and governance, IT, data management and security, and a review of partnering options and any other relevant topics. It is envisaged that this will lead to a devolved structure, with a Memorandum of Understanding to clearly delineate the responsibilities of all parties.

The Society and the programme's Management believe that the resulting governance structure, management processes and IT framework will ensure the IOTA programme is not only sustainable into the next years of the 21st century, but continues to grow and play the prominent role that it has done in Amateur Radio DXing and contest activity for the last fifty years.

VK0EK Heard Island 2015

During the past several months, we have made considerable progress and some significant changes in the plan for the Heard Island Expedition. The most important change is the switch to the vessel Akademik Shokalskiy,

operated by Heritage Expeditions. This switch brings numerous advantages, including:

- Departure from Fremantle, Australia, significantly more convenient to the numerous Australia team members.
- The vessel will stay with us for the duration at Heard Island, nominally 21 days. We are discussing the possibility that the vessel will make a side-trip to Kerguelen during the stay on Heard Island, perhaps enabling additional activities from that location.
- Due to the higher vessel speed (14 kt, 16kt max) and the lower distance (2209 nm) of the Skokalskiy, the total trip duration is reduced to 35 days, rather than 45 days previously planned.
- Calculations by N6BV, K6TU and KY6R indicate that radio propagation is optimum in November, significantly better than the previously plan for January.

- Carrying out the expedition in 2015 enables us to apply for a major grant (up to \$100k) from the Explorers Club, available only for 2015.

During this period we have also increased the team roster, which currently has 28 members, more than the minimum of 25 needed for the vessel charter. The roster will be updated on this website in the relatively near future.

The budget for the entire expedition is \$800k. Considering expected support, especially from the amateur radio community, we expect to be able to cap the participant expense at \$18k. In addition, the team will be working on corporate in-kind donations that can reduce this to \$15k.

In summary, we believe we now have all the core elements in place for the expedition, and have moved from the planning phase into the preparation phase. We will welcome your contributions of any kind, and still have spaces for a few more participants.

We sincerely thank the sponsors and donors to this point, and future support in advance.

For information, please contact the Expedition Leader (schmieder[@]cordell.org).
