QSL YX0A & YX0LIX ---> As of 10 January, Steve, KU9C had processed and mailed about 25% of the direct requests. He has recently received a final log update, and he is checking the 'not in logs' thoroughly against these new logs, even though this slackens his work rate a bit. "A number of you requested QSLs for other stations I manage", he says, "I've been able to finish many of these before the YX0 cards arrived, so that hasn't slowed me down. But for those of those I missed, this will slow the request down substantially. Please do not re-submit, as this just adds confusion". Logs will be uploaded to LOTW after Steve gets the direct cards mailed.
