All of the remaining QSOs will be confirmed automatically via the bureau after 8-12 months.

"This is really quite a major serious expedition with a huge amount of hardware intended to make working 'everyone' possible", DL6LAU says. "We are doing all this to make a standout presence on the lowbands in particular, and all the bands in general. We are going to a major amount of effort to make simultaneous operation in the same band not only functional, but darn near perfect". Donations are still being sought: details on how to contribute, news, on-line logs and much more can be found at <http://www.vp6dx.com>
