## DESECHEO 2009 Press Release #2

The U.S. Fish & Wildlife Service has notified the team that February 12-26, 2009, will be the dates allocated for the radio operation. These dates are coordinated with other USFWS research activities scheduled on other parts of Desecheo Island as well as scheduling USFWS security personnel for the camp.

Fifteen operators will be allowed on the island at any given time. A total of 6-8 stations will be operational, including 160-6 meters.

A reconnaissance trip to Desecheo is scheduled for Friday, December 19. Three team members, USFWS personnel and an UXO (unexploded ordnance) expert will sweep and clear the assigned area of UXO and other hazards. There will be no radio operations.

The 15-man team will assemble in Puerto Rico on February 8, 2009, for mandatory UXO training. The next three days will include team operations training, and last minute preparation and staging of the several tons of equipment for transport. On February 12, landing will commence and two stations will be immediately activated. Likewise, stations will continue to operate until the final moments before departure on February 26.

Halfway through the operation, on February 19, approximately half of the operating team will be replaced with fresh operators for the final week.

The team has been diligently planning antennas and propagation paths to take advantage of every possible band opening to Asia, where Desecheo is #2 on the Most Wanted List and to Europe, where it is #3 on the Most Wanted List.

Contributions are being solicited. To assist us and for the latest news, please go to the team's website: <http://www.kp5.us>

# GOOD TO KNOW

9L1X I A 23-minute video of the recent 9L1X operation from Sherbro Island (AF-056) has been added to the "I2YSB Movie DXpeditions" collection at <http://www.i2ysb.com/>

GOLMX, F9DK and F5LMJ  
at A5100A

A5100A I The website for the 7-25 November A5100A activity from Bhutan [425DXN 909] can be found at [www.f5lmj.net/a5100a.htm](http://www.f5lmj.net/a5100a.htm) [TNX F5LMJ] The team went QRT at 16 UTC on 24 November after 5805 QSOs. This is a slightly better result than in 2004, and it has been achieved under worse propagation conditions and with one station only. A few pictures can be found at <http://lesnouvellesdx.fr/photos.php>; daily updates from the team can be found on the Clipperton DX Club's website (<http://www.cdxc.org/>).

ARRL 160 METER CONTEST I Object of the contest is for amateurs worldwide to work W/VE amateurs on 160 metres CW only (complete rules can be found at <http://www.arrl.org/contests/rules/2008/160-meters.html>). This year's event will run from 22.00 UTC on 5 December through 16.00 UTC on the 7th. Do not forget to give a look at the Announced Operations listing maintained by Bill, NG3K at [http://www.ng3k.com/Misc/arrl160\\_2008.html](http://www.ng3k.com/Misc/arrl160_2008.html)

CQ RTTY CONTEST DIRECTOR I Ed Muns, W0YK has been named Director of CQ magazine's RTTY contests (the CQ WW RTTY WPX Contest each February and the CQ WW RTTY DX Contest every September). He succeeds Glenn Vinson, W6OTC, who has been CQ's RTTY Contest Director since 2000. Glenn's original plan had been to transfer responsibility for the CQ RTTY contests to his co-director for the past several years, Paolo Cortese, I2UIY. Ed stepped in to fill the void that was created by Paolo's unexpected passing in October 2008.

DXCC NEWS I Bill Moore, NC1L reports that the following operations are approved for DXCC credit:

A52AM	Bhutan	20 March-26 September 2007 operation (*)

OQRPC I The QRP Contest Community invites QRP enthusiasts to participate in the 25th Original QRP Contest (OQRPC), which will take place on 27-28 December (from 15 UTC to 15 UTC) on the CW portions of the 80, 40 and 20m bands. For further information please visit <http://www.qrpcc.de> or e-mail Hartmut Weber, DJ7ST ([dj7st@darf.de](mailto:dj7st@darf.de)). [TNX DJ7ST]

P29NI I The team made 4181 QSOs from Garove (OC-181) and 6432 QSOs from Hermit (OC-041). Please note that the QSL route depends on which island group you worked: for OC-041 QSL via G3KHZ (Derek Cox, 18 Station Road, Castle Bytham, Grantham, Lincs, NG33 4SB, UK), for OC-181 QSL via SM6CVX (Hans Olof Hjelmstrom, Kalltorpsv. 2, 543 35 Tibro, Sweden). The log search is now up and running at [http://www.425dxn.org/dxped/p29\\_2008/](http://www.425dxn.org/dxped/p29_2008/)

PG6G I Peter/PA8A, Fred/PA8F and Rob/PA3GVI were active as PG6G on 27-28 November. Once again they used the big array formerly used to broadcast Radio Netherlands. This is a curtain antenna with eight stacked dipoles between two 400-foot towers. A video from their last visit can be found at <http://uk.youtube.com/watch?v=3vE1zk6Ov3E> [TNX PA3GVI]

PSK63 QSO PARTY I The European PSK Club invites amateur radio operators all over the world to participate in the 3rd EPC PSK63 QSO Party 2008, which will take place on 16 November. Complete rules can be found at <http://eu.srars.org/> [TNX K1XN]

QSL 9A0IARU I This special event station was active during the recent IARU Region 1 Conference in Cavtat (15-21 November). More than 4,200 QSOs were made and all of them will be confirmed automatically via the bureau. [TNX 9A6AA]

QSL GALLERY I The large collection of QSL cards on Les Nouvelles DX's web site has been updated. Twelve different galleries include cards for the ten Most Wanted DXCC Entities (231 QSLs), the 58 deleted DXCC entities (916 QSLs), obsolete prefixes (2357 QSLs), stations from Magrebh from 1947 to 1962 (281 QSLs), Antarctic bases (705 QSLs) & TAAF (Terres Australes and Antarctiques Francaises, 238 QSLs), the various French DXCC island Entities in the Pacific Ocean (215 QSLs) & the Indian Ocean (94 QSLs), pre-1945 countries (485 QSLs), French Departments (492 QSLs) and USA (49 QSLs) plus a gallery for cards not accepted by DXCC (102 QSLs). Several cards are still needed and your participation is encouraged - please visit <http://LesNouvellesdx.fr> and send send your comments to [lesnouvellesdx@free.fr](mailto:lesnouvellesdx@free.fr) [TNX F6AJA]

QSL GM7R I Effective immediately, the QSL route for contest station GM3R is via Kim Larson, daughter of N3SL, via N3SL's callbook address (<http://www.qsl.net/n3sl/manager.htm>). [TNX N3SL]

QSL TO5DX I The Texas DX Society is getting a lot of QSL cards to K5DX for phone contacts actually made with TO5DX, the recent DXpedition to Saint-Barthelemy. The QSL Mgr for TO5DX is AA4NN, stations in doubt as to who they worked can check the online logs for TO5DX at [www.to5dx.com](http://www.to5dx.com). [TNX W9DX]

QSL VK9DWX I The DXpedition to the Willis Islands (OC-007) went QRT around 19.45 UTC on 25 October. The on-line log now contains 95312 QSOs (53783 CW, 32904 SSB and 8625 RTTY) with 23128 unique callsigns. The Online QSL Request System (OQRS) is now available on their website (<http://www.vk9dwx.de/>): please use it in order to help the QSL manager to minimize the workload! You can choose whether to receive your card direct or through the bureau.

In their latest press release (23 November) the team stated that they have already received over 1800 direct QSLs and over 3500 online requests through the OQRS. They expect to get the QSL cards from the printer before Christmas and to mail the first direct cards at the turn of the year. The first batch of QSOs "for our sponsors" has been uploaded to LoTW. All the remaining QSOs will be uploaded in spring 2009.

QSL ZS2DL I Buzz, NI5DX, is now the QSL manager for Donovan, ZS2DL. Buzz already has the logs and will be able to answer any requests for cards as soon as a supply of blank cards (already on their way) arrives from Donovan. [TNX K1XN]

QSL ZF1WD I Ken, G4RWD is not the QSL manager for this recent operation. "Whilst I have operated several times as ZF1WD", Ken says, "I have not been active from the Caymans since 2002". He did not renew his license, so "it may well have been re-issued but there may be a possibility of this being a pirate".

QSL VIA LA9SN I Please note that while JX9SN (October 2008) should go direct only (Harald Kjode, Postboks 404 Sentrum, 6401 Molde, Norway), the QSL cards for Al's other activities (e.g. OY/LA9SN and TF/LA9SN) can go either direct or via the bureau. A log search can be found at <http://www.la9sn.com/log/> [TNX LA9SN]

ROCKALL 2009: CALL FOR OPERATORS I Many thanks to Col, MMONDX (<http://dx-hamspirit.com>) for submitting the following Press Release issued by Andy Strangeway aka "Island Man" on 25 November (<http://islandmanrockallexpedition2009.com/>). "Working in tandem with my friend Col, MMONDX I am acutely aware of the interest shown in EU-189. With this in mind I would like to invite radio hams, be they individuals or clubs, to contact me with their proposals to be part of this exciting expedition. I require the following information to be included in the proposal.

- The maximum and minimum number of berths that would be required.
- A CV of previous radio activations of those that would be involved.
- Any information of additional skills that would strengthen the depth of the expedition, for example any crewing of yacht/boat, tender experience or climbing ability.

The countries who have so far shown the greatest interest in the expedition are Belgium, France, Japan, Norway, UK and USA. I would especially like to hear from Japanese radio hams as not one operator from Japan has ever contacted Rockall. EU-189 is the most wanted IOTA in Japan. Once the transport has been secured, the team for the expedition will be selected and dates announced. A website can be built especially for the radio hams and a QSL manager is already secured (MOURX, ed.) should you require these extras. For all proposals in the first instance, please contact Andy at [info@island-man](mailto:info@island-man) within the next seven days".

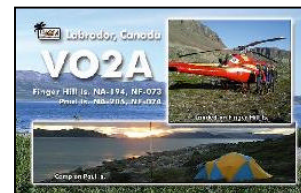

SPRATLY 2009 I According to the latest update at [www.spratly2009.com](http://www.spratly2009.com), the 1-14 March 2009 expedition to the Spratly Islands has been postponed until further notice "due to a combination of personal and logistical reasons". For the time being, "donations will be returned to those sponsors who kindly made contributions to the proposed DXpedition".

TOP LISTS | The latest Topband, Topmode and Toplist listings are now available at <http://www.425dxn.org/awards/toplist/index.html>. Please note that QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send your scores, as well as any request for further information, to Erminio Pandocchi, I2EOW ([i2eow@fastwebnet.it](mailto:i2eow@fastwebnet.it))

TS7C | The web site for the 8-19 January expedition to the Kerkennah Islands (AF-073) is now up and running at <http://www.ts7c.net/>

## DX SUMMIT ALERT

The Old OH2AQ DX Summit Goes Offline November 19, 2008 at 1000 UTC

The new DX Summit website at <http://www.dxsummit.fi/> debuted on May 23, 2008. The site has been redeveloped from the

ground up and uses the latest technology available. The new DX Summit has been ramping up steadily and today the number of hits is approaching 1 million a day. In addition to providing the same functionality as the old DX Summit, the new platform offers the necessary flexibility to easily add new features which are currently on the drawing board.

The old DX Summit homepage at <http://oh2aq.kolumbus.com/> redirects users to the new DX Summit website. However, all the old DX Summit data pages are still online but the trend for daily hits has decreased, as we expected. The number still remains high but the time has come to shut down the old DX Summit machine which may cause your software to stop working.

To try and maintain compatibility with older software which may no longer be supported, the new DX Summit includes a series of DX spot webpages which are 100% HTML compatible with the same pages on the old DX Summit. Simply changing the URLs in your software according to the information below should keep it working with the new DX Summit. If your software does not allow you to edit the URLs, please contact the author of your software and ask them to change the URLs according to the information below. URLs to change:

Latest 25 DX spots page

Old URL: <http://oh2aq.kolumbus.com/dxs/dx25.html>

New URL: <http://www.dxsummit.fi/text/dx25.html>

Latest 10000 DX spots page

Old URL: <http://oh2aq.kolumbus.com/dxs/dx10000.html>

New URL: <http://www.dxsummit.fi/text/dx10000.html>

Latest 1000 DX spots page

Old URL: <http://oh2aq.kolumbus.com/dxs/dx1000.html>

New URL: <http://www.dxsummit.fi/text/dx1000.html>

Software authors who wish to implement data exchange with the new DX Summit should visit <http://www.dxsummit.fi/technical.aspx> for information on data formats and URLs. If your software does not work with the new DX Summit, we encourage you to forward this information to the author of the software you are using.

We hope all software relying on the DX Summit can be successfully updated to work with the new DX Summit. We look forward to providing you with this valuable DX resource for many years to come!
