UTC on the 15th. They will have three stations for the HF bands and three dedicated satellite stations. QSL via operator's instructions. Further information at aroadventures.org [TNX AI4QY]

XV - Retu, OH4MDY will be active again as XV2RZ from Vietnam from 26 March to 6 April. He plans to be QRV on 80-10 metres. QSL direct only to Reijo Laitinen, Mantytie 13, 76940 Nenonpelto, Finland. [TNX NG3K]

YI - Eric, KG4GYS says he will be active as YI9GYS from Tikrit, Iraq "for the next several months". He operates SSB on 20 and 17 metres. QSL via home call.

YI - Announced frequencies for the 2-11 April YI9PSE expedition to Iraq [425DXN 973] are as follows:

CW 1824, 3504, 7004, 10104, 14024, 18074, 21024, 24894, 28024 kHz

SSB 1845, 3780, 7065/7180, 14195, 18145, 21295, 24945, 28495 kHz

RTTY 7035, 10140, 14080, 18100, 21080, 24920, 28080 kHz

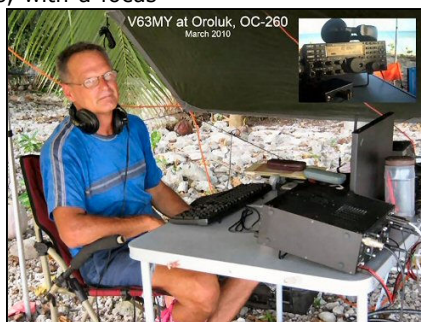

Thirteen operators (AH6HY, FM5CD, JH4RHF, K1LZ, K3LP, K3VN, N2WB, N6OX, N6PSE, W5KDJ, W0UCE, Y11UNH and YT1AD) will be active with five stations, four amplifiers and a wide range of antennas. It will be possible to follow YI9PSE via Twitter (www.twitter.com/yi9pse). QSL via N6NKT. QSLling policy and further information, including on-line logs and propagation predictions, can be found at www.yi9pse.com

YO - YO6CHB, YO6EZ, YO6GBE, YO6MP and YO6UO will operate CW, SSB and RTTY as YP1WFF from the Cheile Bicazului - Hasmas National Park on 19-21 March, including activity during the Russian DX Contest. QSL this operation via YO6EZ. [TNX YO6EZ]

YO - Gab, HA3JB will be active as YO/HG3IPA from Romania on 25-27 March. QSL via home call. [TNX HA3JB]

YS - Roberto, I2JIN will be active as YS3CW from El Salvador from 24 March to 11 April. He plans to operate mainly CW. QSL via home call, direct or bureau. [TNX I2JIN]

YU - Celebrating the 140th anniversary of the local Volunteer Fire Brigade, Radio

V63MY (OC-260)

Club Marica-Zemun (YU1AVQ) will be active as YU140Z until 31 May. QSL via YU1AVQ. [TNX VE3ZIK]
ZK3 - ZK3OU and ZK3YA are the call signs issued to Bill, N7OU and Bob, W7YAQ for their activity from Tokelau (OC-048). After waiting for weather and sea conditions

to improve, eventually the boat was scheduled to leave Samoa for Tokelau on 5 March. Bill and Bob expect to be QRV from ZK3 starting on 7 or 8 March. [TNX dx-world.net]

CARIBBEAN TOUR ● Alain, F6BFH will be active as FG/F6BFH from Guadeloupe on 5-12 March, and as TO5SM from Saint Martin on 13-23 March. He will operate mainly CW, with some RTTY and SSB, with a focus on the low bands. QSL via home call, bureau preferred. [TNX F5NQL]

PACIFIC ODISSEY ● Sergey, UX0HX and five other operators (namely Oleg/RK3FA, Leo /UR3HR, Oleg /US7UX/, Yuriy/UT1HF and Alex/UT5UY) will be active from Samoa (OC-097), Central Kiribati (OC-043) and Tokelau (OC-048) between

18 May and 6 June. They will operate CW, SSB and digital modes on 160-10 metres as follows:

18-19 May	5W00X	Samoa
22 May-1 June	T31X and T31UR	Central Kiribati
2-6 June	ZK3X	Tokelau

QSL for all Callsigns via UR3HR, direct or bureau. More information, including details on how contribute to the

expedition, at www.uz1hz.com/pacificodyyssey.html [TNX UT5UY]

Southern Line Islands DXpedition

From 425 Dx News # 984

Nils, SM6CAS has had to withdraw from the IOTA DXpedition to the Southern Line Islands [425DXN 982], due to his wife's health. "Nils is very keen for this DXpedition to go ahead even though he cannot join us", the other four operators say. He "has been planning this for several years and he is the major financier of the project", and will still be the QSL manager for all call signs (T32MI, T32CI, T32SI and T32VI). Announced frequencies are 28040, 24920, 21040, 18098, 14040, 10103, 7030 and 3530 kHz (CW); 28460/28495, 24950, 21260, 18128, 14260/ 14195, 7078 and 3795 kHz (SSB). 9M6DXX will operate SSB only, while the other members (G3KHZ, G4EDG, K9AJ) are primarily CW operators. They will "have up to four stations operating simultaneously", 9M6DXX says, "but since there are only four of us this is likely to be only at peak times. We hope to run two stations most of the time and at least one will be on CW. Three of the stations will be 100W, and one station will have an Acom 1010 amplifier. This will normally be used on SSB but may also be used on CW if no-one is on SSB. All antennas will be verticals situated close to the ocean". They do not know in which order they will be visiting the islands, as that "will be decided by the captain and based on the weather and sea conditions". However, they hope to be able to update the website (www.t32line.webnode.com) with the precise dates of operation as they approach each island in turn.

From 425 Dx News # 985

After diverting to Fanning Island to pick up passengers, M/V Kwai is expected to arrive at Christmas Island around 2 UTC on 19 March and to leave within 24 hours from that. While waiting for the ship to arrive, the Southern Line Islands team checked their equipment and operated as T32AJ (QSL via K9AJ). They estimate to be QRV from the first IOTA new one on 24 or 25 March - it is likely to be either Malden (T32MI, OC-279) or Starbuck (T32SI, OC-280). Please note that since this is primarily an IOTA activity, the operators "will be concentrating on providing a contact with as many different stations as possible irrespective of band or mode". They will operate SSB and CW on 80-10 metres, on whichever band "is providing the best propagation conditions at the time". QSL via SM6CAS, direct or bureau.

From 425 Dx News # 986

The Line Islands DXpedition team started operations from Malden Island (OC-279) at 00.22 UTC on 25 March. T32MI is QRV with three stations, as "extreme temperature and high winds have limited setting up more antennas and a fourth station". They plan one more night of operation from Malden, and then head for Caroline Island (T32CI, OC-281).

Do not forget to give a look at the Announced Operations listing maintained by Bill, NG3K at
<http://www.ng3k.com/Misc/wpxs2010.html> - good contest to you all!

GOOD TO KNOW

2ND PHASE DX SUMMIT • The "2nd phase DX Summit" will be made available to limited Beta testers for Easter. If you wish to be one, please e-mail Radio Arcala (oh8x@sral.fi). [TNX OH2BH]

3C0C DELAYED • The DXpedition to Annobon Island [425DXN 978] has been postponed while the airstrip on the island is undergoing repair for the next two or three months. The team does not consider reaching the island by ship, because it is "difficult, slow and without regularity". Bookmark www.3c0c-annobon.com for updates.

ANTARCTIC BEACON • The R1ANF permanent beacon has been active from the Russian Antarctic station Bellinghausen on King George Island, South Shetlands since 8 March. The beacon consists of an IC-706, AT-180 antenna tuner, a switching power supply, a PROCOM HF-5000 vertical antenna and a GPS synchronized controller. The beacon is working on 14101.0 kHz and transmits the following message every full minute: "VVV R1ANF ANTBEAP (carrier signal reduced similar to the NCDXF beacons, starting with 100 watts) R1ANF AR". Another beacon is ready to be installed at Novolazarevskaya station and will be active on the same frequency using the callsign R1AND. They are part of the Antarctic Beacon Project (ANTBEAP) to explore wave propagation in the Antarctic region. Reports should be sent to Dominik, DL5EBE. [TNX DX Newsletter]

ARRL INTERNATIONAL DX CONTEST (SSB) • Object of the contest is for W/VE amateurs to work as many stations in as many DXCC countries as possible on 160, 80, 40, 20, 15, and 10 metre bands, while foreign amateurs (also including KH6, KL7, CY9 and CY0) work as many W/VE stations in as many of the 48 contiguous states and provinces as possible (full rules can be found at www.arrl.org/contests/rules/2010/intldx.html). This year's event will run from 00.00 UTC on 6 March through 24.00 UTC on the 7th. Do not forget to give a look at the Announced Operations listing maintained by Bill, NG3K at www.ng3k.com/Misc/adxs2010.html - good contest to you all!

CHILE EMERGENCY • Following the massive earthquake that hit Chile on 27 February, IARU Region 2 and the Red Chilena Nor Austral de Servicio (RECNA) request amateur radio operators to monitor the following emergency communications frequencies: 3738, 3750, 7050, 7100, 14200, 14350, 21200, 21350, 28300 and 28500 kHz. In addition to the above frequencies, you may also want to listen to the worldwide emergency communication Center of Activity frequencies (14300, 18160 and 21360 kHz), as well as 3720, 7045 and 7060 kHz.

Club Log

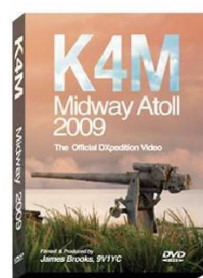

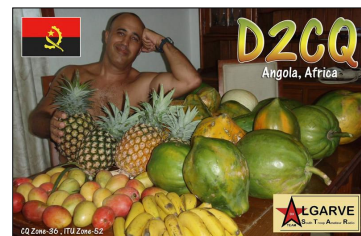

CLUB LOG • Club Log (www.clublog.org) is a web-based application that uses a large database to analyse amateur radio log files uploaded by users all over the world. It offers band-mode league tables, efficient log search tools, analysis for DXpedition planning purposes and most wanted lists for DXCC entities (including by date, band or mode for example). Club Log can provide empirical propagation charts, and give back to its users the ability to find "wanted" DX spots, identify QSLing gaps and perform other analysis of their logs which might be hard to do with normal logging software. As of 5 March 2010 there were 3,030 callsigns registered in Club Log and 23,298,182 log entries available for analysis, but some continents are still under-represented - please help balance the database in order to make reports and statistics more meaningful and representative.

DXCC NEWS • 3V3S (Tunisia, 2009 operation) and D2CQ (Angola, current operation) have been approved for DXCC credit.

EA9IE • A few days ago Juan, EA9IE reached the 250,000th QSO mark and on 11 March he uploaded his full log to LoTW. "QSLing from my side does not change", he says. Cards can still be sent direct or through the bureau system. His on-line log search is at <http://dx.qsl.net/> [TNX EA9IE]

HC5AI • Pablo, HC5NAI passed his final test and now holds the callsign HC5AI. The original holder was his father, Alfo, who passed away in 2005. Pablo can confirm all of the contacts with HC5AI, made by either Pablo himself or his father. QSL direct only, as "there is no outgoing bureau from Ecuador". [TNX NE8Z/HC1MD]

HELP JUAN FERNANDEZ • Stan, SQ8X has created a special website (www.help-juan-fernandez.org) under the patronage of Radio Club de Chile. "Dedicated to help islanders of Archipelago Juan Fernandez, CE0Z", the website "is intended to inform people about what happened at the island and how to help collect funds to restore the island's infrastructure and islanders' lives. We really hope this will help them as they have helped so many times numerous hams visiting the island". Radio Club de Chile will be 100% responsible for collecting and transferring funds to the islanders.

K4M • The K4M (Midway Atoll 2009, 44 minutes) DVD, produced by James Brooks, 9V1YC is now available; purchase information can be found at dxvideos.com

LOGS • The first batch of 5R8UI logs (Nosy Be, AF-057) has been uploaded to www.mdxc.org/5r8ui [TNX Mediterraneo DX Club]

NOT THE MANAGER • Khos, JT1CD is receiving cards for contacts made with JT1BH. Khos says he is not the QSL manager for any individual Mongolian station. Please note that JT1CD is shown on qrz.com as "administrator" for several JT amateurs, which does not mean he is their "QSL manager".

RADIO MARITIME DAY • On 10-11 April (from 12 UTC to 12 UTC) merchant marine radio officers from

several countries will be active on the HF bands to meet amateur radio operators for the Radio Maritime Day special event. Further information can be found at www.radiomaritimeday.org

RSGB COMMONWEALTH CONTEST ● The 73rd edition of the Commonwealth (BERU) Contest (www.beru.org.uk) will be held on 13-14 March, from 10 UTC to 10 UTC, on 80, 40, 20, 15 and 10 metres CW. Only operators located within the Commonwealth or British Mandated Territories are eligible to enter, so please check the list at www.rsgbcc.org/hf/information/codes.shtml before calling.

QSL GALLERY ● The large collection of QSL cards on Les Nouvelles DX's web site has been updated. Thirteen different galleries include cards for the ten Most Wanted DXCC Entities (327 QSLs), the 58 deleted DXCC entities (1014 QSLs), obsolete prefixes (2778 QSLs), stations from Magrebh from 1947 to 1962 (337 QSLs), D5 and DL5 stations from 1945 to 1962 (22 QSLs), Antarctic bases (803 QSLs) & TAAF (Terres Australes and Antarctiques Francaises, 256 QSLs), the various French DXCC island Entities in the Pacific Ocean (304 QSLs) & the Indian Ocean (96 QSLs), pre-1945 countries (868 QSLs), French Departments (601 QSLs) and USA (50 QSLs), plus a gallery for cards not accepted by DXCC (116 QSLs). Several cards are still needed and your participation is encouraged - please visit www.LesNouvellesdx.fr and send your comments to lesnouvellesdx@free.fr [TNX F6AJA]

T31 OPERATION CANCELLED ● It is with great regret that David/K3LP (Co-Leader) and Hrane/YT1AD (Leader) must inform the DX Community that after 16 months of planning, their DXpedition to Canton Island (www.yt1ad.info/t31/), slated for 11 days in October 2010, will be cancelled. "We planned 6 stations fully equipped for HF plus two additional stations for UHF/VHF/Satellite plus 13-14 operators", they say. "Our goal was to make 100,000 plus QSOs much like our N8S, Swains Island DXpedition in 2006. This decision is based on the announcement by the T31X team planned for June 2010. Unfortunately, it is cheaper to send a smaller crew with three radios and two amplifiers. In light of this recent announcement, the total cost of the trip versus the uniqueness will evaporate prior to our arrival. For this reason, we will pick another location for a future date. Minus some team member partial cash contributions and planned equipment sponsors, there were no cash donations made that need to be refunded. We will forfeit our \$40K cash deposit on the boat and seek other places in 2011". [TNX YT3W]

TOP LISTS ● The latest Topband, Topmode and Toplist listings are now available at <http://www.425dxn.org/awards/toplist/index.html>. Please note that QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send send your scores, as well as any request for further information, to Erminio Pandocchi, I2EOW (i2eow@fastwebnet.it)

VK9X/G6AY ● Phil, G3SWH and Jim, G3RTE made 10,256 QSOs during their recent operation from Christmas Island. Phil's website (www.g3swh.org.uk) is now up and working again, and the log has been added to the search facility (it will be uploaded to LoTW as soon as the ARRL issues the relevant certificate). [TNX G3SWH]

POSTAL RATES

9A ● Tom, 9A2AA reports that Croatian postal rates have changed recently and mentions a few examples:

surface mail up to 50 gr to anywhere	7.10 Kn
air mail to Europe up to 20 gr	8.10 Kn
air mail to USA up to 20 gr	10.10 Kn
air mail to Japan up to 20 gr	10.30 Kn
air mail to South America up to 20 gr	10.50 Kn

The on-line calculator at www.posta.hr is being upgraded to reflect the new rates. Tom also says that 1 USD is approximately 5.00 Kn, 1 EUR is approximately 7.30 Kn and that 1 IRC covers air mail postage up to 20 grams to anywhere.

HB9 & HB0 ● Postal rates in Switzerland will rise on 1 April. The new prices for standard letter items up to 20 grams are as follows:

Europe	Economy	CHF 1.30	Other countries	Economy	CHF 1.60
	Priority	CHF 1.40		Priority	CHF 1.90

A Mail Calculator on-line service is provided by Swiss Post (www.poste.ch). Please note that the same rates apply to Liechtenstein, as postal services in that Principality are operated by Swiss Post, under the terms of an agreement between the two countries. 1 IRC covers Economy postage for a standard letter item up to 20 grams to anywhere in the world. At the current exchange rate, 1 USD is +/- 1.05 CHF, and 1 EUR is +/- 1.45 CHF. [TNX HB9DKZ]

QSL

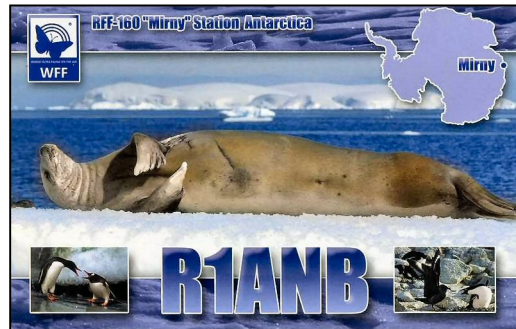

D44AC ● Mario, IK3HHX says he is receiving direct and bureau card requests for D44AC, but he is not his QSL manager. He can confirm only QSOs made between 21 March and 2 April 2002, when D44AC was operated by 4L5A. Otherwise cards should be sent direct to Carlos Pulu, P.O. Box 398, Mindelo, Sao Vicente, Cape Verde.

VQ9LA • Starting 15 April 2010, the new QSL route will be via N0QM: Larry Arneson, 705 Rhodes Ave, Grandview, MO 64030, USA. Larry will be departing Diego Garcia in December, and he wants the mail going in the right direction prior to that. All QSL cards sent to the FPO Box will be honoured up to December 2010. [TNX VQ9LA]

QSL VIA M0OXO • Charles, M0OXO has taken over QSLing duties for Michael, G7VJR. This covers the following expeditions G7VJR previously handled himself: CU2/G7VJR (EU-003), EI/G7VJR (EU-006), GB75UW, GD7VJR (EU-116), GJ7VJR/p (EU-013), GM7VJR (EU-008), GU7VJR (EU-114), GW7VJR, JW/G7VJR (EU-026), JX/G7VJR (EU-022), JX/SQ4MP (EU-022), OY/G7VJR (EU-018), TF/G7VJR (EU-021), VP8DMN (SA-002) and ZD8UW (AF-003). A few expeditions are not changing: YS1G is still managed by G3TXF, and GH6UW (EU-099) is still managed by M0BLF. Also, no change on K3VOA (short term guest). G7VJR's page on qrz.com sums up the correct routing for all cards. Any QSLs that are in the mail already will receive a reply, and no cards will be left unanswered. [TNX G7VJR]
