Do not forget to give a look at the Announced Operations listing maintained by Bill, NG3K at www.ng3k.com/Misc/cqc2011.html - good contest to you all!

Recently three US members (K4UEE, N4GRN and W6IZT) of the Malpelo 2012 DXpedition flew to Cartagena, Colombia and met with six of their Colombian counterparts. The purpose of the two day meeting was to make some critical decisions about the upcoming DXpedition to Malpelo Island. Also, checklists and inventories were finalized and all team members' responsibilities were assigned.

Since it is highly unlikely that the various Colombian authorities will permit another DXpedition to Malpelo anytime soon; a decision was made to extend the DXpedition to 16-17 days from the previous 12-14 day plan. The approximate dates of operations will be **21 January through 5/6 February 2012.**

**View from operating site A
to operating site B**

Four team members will travel with all equipment, radios, antennas and infrastructure to Malpelo in early January. They will be transported by the Colombian Navy. They will arrive about two weeks prior to the rest of the Team and will set up camp, the two operating sites, radios and antennas. They will spend about 30 days on the island. This will allow the rest of the team to begin radio operations immediately upon arrival.

As mentioned there will be two operating sites, each with a complete complement of antennas and radios with amplifiers. The first operating site will be co-located with the Colombian marine's camp on the east side of the island. It is clear to East Coast USA, EU and Africa. In order to have a clear shot at JA/Asia, the Pacific region and W6/W7; the second operating site will be located near the top of the highest mountain peak on the island. However, to

lessen the physical risks to the team members, the operating site will be located on platforms situated below the actual peak. Still, it will be a 30 minute uphill climb to reach the platforms. The antennas for that site will be on the top of the mountain peak. At times, there will be as many as nine stations QRV with the capability of dual mode operations on all bands.

Safety of the team is paramount. We will be installing a winch system to hoist team members and all of our equipment from our chartered ship's Zodiac onto the island. From there, manpower will carry the equipment the 300 meters straight uphill to the marine camp. The trail to the elevated operating site is extremely dangerous. We will utilize harnesses and safety ropes to minimize the risks.

This is going to be a difficult and expensive DXpedition. Every effort will be made to maximize QSOs while protecting the safety of the team members. It is a delicate balance.

Your financial support is necessary and gratefully accepted. Contributions can be made via our website at: www.hk0na.com/sponsors

We plan periodic press releases with information of interest. Also, watch the website for breaking news.

Thanks,
Jorge Prieto, HK1R

GOOD TO KNOW

E35X • "It has come to my attention that rumors are going that I am planning an expedition to Eritrea using the call sign E35X", Erling LA6VM says. "These rumors have no basis in any real situation". E35X was the callsign used by LA6VM (along with LA1EE, LA7XK, LA9DL and JF1IST) back in June 1993, soon after Eritrea declared its independence and gained international recognition.

HBFF • The webpage for the newly established Swiss Parks Award can be found on the Radio Club Locarno's web site (www.hb9rl.ch). [TNX HB9OAE]

ID9DXC • This is the callsign the DXCoffee IOTA team will use from various islands in the Eolie group (EU-017) in 2011 and 2012. The first activity was expected to take place on 18 November from Panarea Island. QSL via IT9YVO, direct or bureau. Information at www.dxccoffee.com/id9dxc/

NCDXF • The Northern California DX Foundation (www.ncdxf.org) board of directors voted on 7 November to welcome back Charles "Rusty" Epps (W6OAT) to their board. W6OAT was also elected as President effective 1 January 2012. Current President, Bruce Butler (W6OSP) will continue on the board as Treasurer. Glenn Johnson (W0GJ) will continue as Vice President and Kip Edwards (W6SZN) will continue as Secretary. NCDXF plans on adding additional individuals to their board in early 2012. [TNX W0GJ]

OJ0X • The OJ0X DXpedition to Market Reef came to an end after more than 66,000 QSOs with 26,921 uniques (141 stations made it on all 9 bands offered). Please visit www.qrz.com/db/OJ0X for logsearch, pictures and other information. The OJ0X operating team included 14 operators (DH7SA, DL3DXX, DL5CW, OG9X, OH0XX, OH1ND, OH1TV, OH2BAD, OH2BH, OH2BO, OH5BM, SM0W, SM6U and SP5XVY): "while the gang experienced all kinds of weather in fighting for their landings and departures, they were satisfied in being able to catch some good high-band openings, offering OJ0 on those bands and modes for the first time". If you are interested in operating from Market Reef in 2012, you may contact the Finnish Lighthouse Society (www.majakkaseura.fi). [TNX OH2BN]

QSL A51PN • "Last week when in Bhutan, I met Pradhan, A51PN", Glenn Johnson (W0GJ/A51B) says. Pradhan "is now 73 and in good health and living a quiet retired life", but he "was very active from 1972 to 1983 when he worked in the Wireless Dept of the Bhutan government. He gave me his stack of log books to digitize and upload to LOTW, about 30,000 estimated contacts. I will be able to answer QSL requests for anyone needing a card for A51PN. He has meticulous notes in his logs about QSLs that were returned". QSL to Glenn R. Johnson, 207 Bear Creek Ln NW, Bemidji MN 56601, USA.

QSL GALLERY • The large collection of QSL cards on Les Nouvelles DX's web site has been updated. Fourteen different galleries include more than 9500 cards for the ten Most Wanted DXCC Entities, the 60 deleted DXCC Entities, obsolete prefixes, stations from Magrebh from 1947 to 1962, D5 and DL5 stations from 1945 to 1962, Antarctic bases & TAAF (Terres Australes and Antarctiques Francaises), the various French DXCC island Entities in the Pacific Ocean, the Indian Ocean and the Americas (from 1945 to 1970), pre-1945 countries, French Departments and CONUS. plus a gallery for cards not accepted by DXCC. Several cards are still needed and your participation is encouraged - please visit www.LesNouvellesdx.fr and send your comments to lesnouvellesdx@free.fr [TNX F6AJA]

RADIO ARCALA & CQWW CW CONTEST • Radio Arcala (www.radioarcala.com) will deploy five six stations in this year's event: 9H9BH from Malta (operated by OH2BH), CR2X from the Azores (operated by OH2UA), OH0X from the Aland Islands (operated by OH2TA), OH2BH from Southern Finland (operated by OH2IW), OH8X from Northern Finland (operated by ES2RR) and TC2X from Asiatic Turkey (operated by OH2PM). [TNX OH2BN]

TOP LISTS • The latest Topband, Topmode and Toplist listings are now available at www.425dxn.org/awards/toplist/index.html. QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send your scores, as well as any request for further information, to Erminio Pandocchi I2EOW (i2eow@fastwebnet.it).

VQ9JC • Jim, ND9M is back at Diego Garcia (AF-006), Chagos Islands and expects to be QRV at least until 1 March 2012. The local licensing office renewed his regular license (VQ9JC) for two years and also issued another short-term special prefix callsign (VQ91JC) for him to use from 19 November through 4 December. This will include a SOAB Low Power entry in the CQ WW CW Contest. His usual QRV hours are 12.00-16.30 UTC on most days. He operates from the club station, where the current situation is far from being optimal. "Visitors over the last few months disconnected a number of coax and other cables without labeling them first", he says, "so I'm doing a lot of cable tracing (and labeling!). Much of the cabling work that VQ9LA did over the years has been removed for no apparent reason. The finals in both amps (Alpha 99 and AL80B) have failed, so I'll be running barefoot for the foreseeable future. The amps are owned by the Navy, but

the Navy hasn't provided any equipment repair support for several years, and I'll have to buy the replacement finals out of pocket, but that won't happen for several months. Also, the log periodic (10-30 MHz) works well, but the rotator binds around 020 degrees when turning clockwise (from north towards east). There's an apparent issue with strain on the coax caused by turning the rotator and maybe even the connection at the top of the 30-meter tower; the SWR skyrockets when the rotator is turned beyond 020 degrees as it moves to the east. For now, the antenna will be left facing northwest rather than risk causing permanent damage until I can get up there. This heading favors the path to Europe and the Americas, but obviously hurts the paths to JA and VK/ZL to the east as well as Long Path to NA to the south, but it can't be helped at this point. The single remaining HF rig is an IC-760 which has a lot of years and miles on it, but its performance is still adequate. (There's an FT-920 that's barely good enough for QRP on a couple bands.) I brought an FT-857 from home which I'm using to work the LEO satellites. It will also serve as a back up for HF should the 760 come into hard times. I'll be putting up a 5-element 6M beam. That antenna won't be on the tower, but should still be high enough to take advantage of the openings that have finally started appearing. I'll use the FT-857 for working 6M as well as the satellites".

Jean-Pierre Guillou (**F9RM**) has recently passed away. An active DXer since 1948, he had 336/380 (current/total) confirmed in the ARRL DXCC Mixed standings, and was the IOTA Honour Roll leading station for a very long time. Other recently reported Silent Keys include Rashed Saffar Abdulla (**A71AN**), Pedro Jose Ruiz Sanchez (**EA4AYU**), Charlie McCrystal (**GI6DCC**), Uwe Stobbe (**HS0ZGW/DF3HS**), William H. Taylor, Jr. (**K6TQ**), Franciso "Pancho" Jovanovics (**LU3OE**), Raymond Biltgen (**LX1RB**), Frederick Donald Muehlen, Jr. (**N5WLA**), Heinz H. Blankenhagen (**NROX**), Leonid V. Belyj (**RU3DS**), Pavel Malyuta (**RZ0AK**), Edwin "Bunty" Z. Wattman (**W1SIK**) and Edward E. Reinberg (**W6JI**).
