DX INFORMATION

5H - Ferdy, HB9DSP will be active again as 5H3FM from Zanzibar Island (AF-032), Tanzania from 25 November to 9 December. He will operate SSB and FT8 on 20, 17, 15 and 10 metres. QSL via LoTW (preferred), or

via home call (bureau or direct).

9L - Shabu, M0KRI will be active as 9L5M from Freetown, Sierra Leone from 24 November to 5 December. He will operate FT8, CW and SSB on 80-6 metres and the QO-100 satellite. He will upload his log to LoTW and Club Log.

9M6 - Saty, JE1JKL will be active again as 9M6NA from Labuan Island (OC-133), East Malaysia for the CQ WW DX SSB Contest (SOAB 15m) and the CQ WW DX CW Contest (SOAB). QSL via LoTW and Club Log's OQRS. [TNX NG3K]

A2 - The Russian DXpedition Team will be active as A25R from Botswana from 26 October to 12 November. Seven operators (namely R5EC, R7AL, RA1ZZ, RW9JZ, UA3QLC, OK8AU and SP6EQZ) will be QRV

on 160-6 metres CW, SSB and digital modes (mainly FT8) with several stations. QSL via Club Log's OQRS. See <https://www.rudxt.com/a25r> for more information.

A5 - Abie, AB1F will be active as A52AA from Thimphu, Bhutan on 19-27 October. He will operate SSB on 40, 20, 15 and 10 metres. QSL via home call (direct or bureau); he will upload his log to LoTW, eQSL, Club Log.

C6 - Jay, WA1JAY will be active as WA1JAY/C6A from Paradise (Hog) Island (NA-001), Bahamas on 5-10 November. He will operate holiday style via FM satellites, as well as SSB and FT8/FT4 on 40-10 metres. He plans to upload his log to LoTW and Club Log. Updates to be posted to <https://twitter.com/wajjay>.

CE0Y - Luis, CE2ML and Mathias, CE2LR will be active as XR0Y from Easter Island (SA-001) on 22-29 October, including an entry in the CQ WW DX SSB Contest as 3G0Y. They will operate CW, SSB and some FT8 on the HF bands. QSL both callsigns via

CE2ML. [TNX DX World]

CT9 - Helmut, DF7EE will be active again as CT9/DF7EE from Madeira (AF-014) on 22-31 October, including an entry in the CQ WW DX SSB Contest as CQ3W. Before and after the contest he will focus on 60, 30, 17 and 12 metres SSB and FT8. QSL both callsigns via LoTW and Club Log's OQRS.

DL - Volker, DL1WH will be active holiday style as DL1WH/p from Fehmarn Island (EU-128) on 15-29 October. He will operate mainly CW, with some SSB. QSL via home call, direct or bureau.

EI - Special event callsign EI80MB will be active from 1 November to 31 May 2024 to commemorate the 80th anniversary since 168 German seamen were miraculously rescued from the waters of the Bay of Biscay after a battle between British and German naval forces (29 December 1943). Carried out by the small Irish coaster

Kerlogue (callsign EIMB), the rescue took more than ten hours. QSL via Club Log's OQRS or via EI6AL.

F - Members of the Radio-Club de la Haute Ile will operate special callsign TM5GGU from 28 October to 1 November in memory of their friend Herve Fabbro, F5GGU, who passed away in April 2021. QSL via qrz.com.

F - The Radio Club de Wingles (F4KLR) will be active as TM125ED between 4 November and 31 December. The special callsign commemorates the 125th anniversary

since radio pioneer Eugène Ducretet gave a public demonstration of wireless communication between the Eiffel Tower and the Pantheon 4 km away (5 November 1898). All CW and SSB QSOs will be confirmed automatically via the bureau and eQSL, FT8 QSOs will be confirmed via eQSL only; direct cards via F4KLR.

FG - Once again Philippe, F1DUZ will be active as FG4KH from Guadeloupe (NA-102) from 17 October to 7 November, including participation in the CQ WW DX SSB Contest. QSL via LoTW, eQSL, or via F1DUZ.

H4 - H40WA has been postponed to 2024 (see Good to Know below), but team member Jun OE1JUN/JH4RHF is going on a solo expedition. Running 100 watts into wires, he will be active as H44RH from Honiara (OC-047), Solomon Islands starting on 23 October until 1 November, possibly including an entry in the CQ WW DX SSB Contest. On 2 November he will fly to Temotu Province, and be active as H40RH from Pigeon Island (OC-065) until 9 November. He will operate mainly CW, plus FT8 on 6 metres if the band is open. QSL via Club Log's OQRS; or via OE1JUN (direct or bureau).

H44 - The H44WA DXpedition to Guadalcanal (OC-047), Solomon Islands is confirmed to take place on 15-29 November. The team will arrive on 12 November, and there might be some limited activity on FT8 while they build their antenna farm. QSL via MOURX's OQRS (preferred), or direct to his mailing address. Bureau cards will not be provided, and there will be «no full log LoTW upload». More information and detailed QSLing policy can be found on <https://www.h44wa.com/>.

HR - Max, N5NHJ (I8NHJ) will be active as HQ9CW from Roatan Island (NA-057, EK66rh) on 22-29 November. He will operate CW only on 20-6m, and will participate in the CQ WW DX CW Contest (SOSB on 15 or 10m, low power). QSL via LoTW, or direct to N5NHJ.

HR - Gerard, F2JD will be active again as HR5/F2JD from Copan, Honduras from 25 November to 21 March 2024. He will operate CW, SSB and FT8/ FT4 on the HF bands. QSL via F6AJA (direct or bureau); logsearch on <http://LesNouvellesDX.fr/voirlogs.php>. [TNX F6AJA]

I - Italian stations participating in this year's JOTA/JOTI event (20-22 October, <https://www.jotajoti.info/>) include I10BP, I12JOT, I12JOTA, I13BP, I15BP, I15JOTA, I16BP, I17BP, I17JAM, I19BP, I04JOTA and IR2JOTA. QSL via operator's instructions.

I - Members of ARI Roma (IQORM) will operate special

event station I10MKFR from Maker Faire Rome – The European Edition on 20-22 October (<https://makerfairerome.eu/en/>). QSL via LoTW, or via the bureau to IK0XFD.

JA - Take, JI3DST will be active from the Miyako Islands (AS-079) from 6 October to 19 December. He will operate SSB and CW as JS6RRR, JI3DST/6, JJ5RBH/6 and JR8YLY/6, as well as JI3DST/p, JJ5RBH/p and JR8YLY/p on FT8. The QSOs will be made available for Club Log and LoTW Matching on the IOTA website.

LX - Once again HB9S (the Geneva based World Scout Bureau Global Support Centre) has been invited to take part in the JOTA-JOTI weekend (20-22 October) in Luxembourg. Look for LX9S to be active with several stations on the HF bands SSB, CW, FT8 and SSTV, and also via QO-100. QSL via LoTW (pre-

ferred), or via HB9AOF.

OE - 4U2U is the special callsign for the VIC Amateur Radio Contest DX Club (4U1A, <https://4u1a.club/>) to celebrate United Nations

Day on 24-31 October. This activity counts for Austria for DXCC, and for the Vienna International Centre for the CQ DX Marathon. QSL via UA3DX. United Nations Day marks the anniversary of the official creation of the UN (24 October 1945).

OY - Christian EA3NT, Col MM0NDX and Jonathan MM0OKG will join local operators and participate in the CQ WW DX SSB Contest as OY6A (QSL via LoTW) from the Faroe Islands (EU-018). Before and after the contest they will be QRV as OY/EA3NT, OY/MM0NDX and OY/MM0OKG.

P4 - John, W2GD will be active again as P40W from Aruba (SA-036) on 24-30 October. Main activity will be during the CQ WW DX SSB Contest; outside the contest he will be QRV on 160m CW, as well as on 30, 17 and 12 metres as time permits. QSL via LoTW, or direct to N2MM. [TNX NG3K]

PA - Dutch members of the European DX Foundation will operate special callsigns PA37EUDXF, PB37EUDXF, PC37EUDXF, PD37EUDXF, PE37EUDXF, PF37EUDXF, PG37EUDXF, PH37EUDXF and PI37EUDXF between 1 and 30 November to celebrate the EUDXF's 37th anniversary. QSL PH37EUDXF via PA2TMS; QSL other callsigns via LoTW, Club Log's OQRS (preferred), or via PA1AW.

PJ5 - John, W5JON will be active again as PJ5/W5JON from Sint Eustatius (NA-145) on 25-31 October. He will operate SSB and FT8 on 60-6m. QSL via LoTW, or direct to home call. [TNX NG3K]

PJ7 - After the CQ WW DX SSB Contest, Ed, N2HX will move from St. Kitts to Sint Maarten (NA-105). He will be QRV as PJ7PL, including entries in the CQ WW DX CW Contest (25-26 November) and the ARRL 10-Meter Contest (9-10 December). QSL via home call, direct or bureau. [TNX N2HX]

PY0F - Renner, PY7RP has been active as PY0FR from Fernando de Noronha (SA-003) since 24 October, and will remain there until 30 October. He operates mainly FT8 on the HF bands and 6 me-

tres; he will enter the CQ WW DX SSB Contest as PS0F. QSLs via LoTW, Club Log's OQRS, or direct to PY7RP.

PY0T - Team PROT will be active on 40-10 metres from Trindade Island (SA-010) for about three days sometime in November (exact dates to be confirmed by the Brazilian Navy, which will provide transport and accommodation). The on-site team (PY1ZV, PT2IC and PY6RT) will operate SSB and CW from the main camp; the FT8 station, located 300-400m away, will be operated remotely by ten other amateurs. QSL via M0OXO's OQRS. Bookmark <http://www.pr0t.com.br/home/> for more information and updates.

PZ - Renato, PY8WW will be active as PZ5TW from Suriname from 25 October to 3 November. He will operate SSB, CW and FT8 on 80-6 metres, and will participate in the CQ WW DX SSB Contest (SOSB 15m). QSL via Club Log's OQRS.

T32 - Ken, KH6QJ will be active again as T32AZ from Kiribati/Christmas Island (OC-024), East Kiribati on 11-24 October. He will operate SSB on 160, 80, 40, 20, 15 and 10 metres. QSL via KH6QJ, direct or bureau. [TNX The Daily DX]

UR_ant - Serhiy, UW5EHR is a member of the XXVIII Ukrainian Antarctic Expedition (2023-24) at the Akademik Vernadskyi

station on Galindez Island (AN-006), Antarctica. He will remain there through March 2024. Briefly active as VP8/UW5EHR, he has used the club station's callsign EM1U since 7 October. He operates

FT8, FT4 and SSB on 40-10 metres. QSL via LoTW and UT7UA.

V4 - Ed, N2HX will be active as V4/N2HX from St. Kitts (NA-104) from 21 October to 18 November, including an entry in the CQ WW DX SSB Contest as V49R. QSLs via home call, direct or bureau. [TNX N2HX]

V6 - Members of the Yokohama DX Club will be active as V6SX from Weno Island (OC-011), Micronesia on 23-31 October to celebrate their club's 50th anniversary. They will operate CW, SSB and FT8/FT4 on 80-6m (hopefully also on 160 and/or 60m), and will participate in the CQ WW DX SSB Contest as

V6Y. QSL via Club Log's OQRS and LoTW.

V6 - Miki, JJ2CJB will be active as V63CB from Pohnpei (OC-010), Micronesia on 27-31 October. He will operate mainly SSB, with some CW and FT8, on 40-10 metres, and will participate in the CQ WW DX SSB Contest. QSL via LoTW, or direct to JJ2CJB.

VE - Pierre, VK3KTB and Alexey VE1RUS will be active again as VY0ERC from the Eureka Amateur Radio Club station on Ellesmere Island (NA-008) between 21 October and 22 November. QSL via M0OXO's OQRS.

VK - Tom, VK2WN (SP7WT) will be active as AX37EUDXF between 15 October and 30 November to celebrate the 37th anniversary of the European DX Foundation. QSL via LoTW, eQSL, Club Log's OQRS. He does not use the bureau.

VK9L - Al, K7AR and Bob, W7YAQ were due to QRT from

Lord Howe Island on 3 October. Their return flight, however, was cancelled, and the VK9LAA DXpedition was been extended until 8 October. QSL via Club Log's OQRS, LoTW or via W7YAQ.

VP2M - K2DM, George will be active as VP2MDM from Montserrat (NA-103) on 25-30 October. Main activity will be during the CQ WW DX SSB Contest; outside the contest he will operate FT8

and some CW. QSL via LoTW, or direct to K2DM. [TNX The Daily DX]

VP5 - Look for VP5/N5VOF, VP5/WD5JR and VP5/KJ5CMP to be active from Providenciales (NA-002) on 1-10 November. They will operate mainly SSB on 40-6 metres, with plans to be active from POTA locations. QSLs direct to home calls. [TNX The Daily DX]

VU - Look for AT30IIH to be active until 31 December to celebrate the 30th anniversary of the Indian Institute of Hams, whose focus is to train and bring young people into the amateur radio community (<https://www.indianhams.com/>). QSL via the bureau or direct, or via eQSL.

XT - Harald, DF2WO has been active again as XT2AW from Ouagadougou, Burkina Faso since 11 October, and will remain there until 26 October. He operates all modes on the HF bands, 6 metres and via QO-100. QSL via M0OXO's OQRS.

YJ - Team YJ0TT (NC7M and other five operators) will be active from Efate (OC-035), Vanuatu from 26 October to

3 November. They will operate CW, SSB and digital modes on 160-10 metres. Individual callsigns include YJ0SR (N7JI), YJ0ET (NG7E), YJ0NA (K6VHF, who is planning to operate via

satellites), YJ0UC (W6UC) & YJ0EE (NJ6P), who plan to be QRV on 6 metres EME («for the very first three days to take advantage of low degradation») and terrestrial. QSL via operator's instructions. See <https://www.dxobsessed.org/home> for more information.

ZF - Rich, NN3W will be active as ZF2RD from Cayman Brac, Cayman Islands (NA-016) on 24-31 October. He will operate CW and SSB on the HF bands, and will participate in the CQ WW DX SSB Contest as ZF2B. QSLs via LoTW, or via NN3W.

ZL7 - Holger, ZL3IO will be active again as ZL7IO from Waitangi, Chatham Islands (OC-038) from 25 October until after the CQ WW DX SSB Contest. QSL via LoTW, Club Log's OQRS, or via DK7AO.

ZL7 - JA1SVP, JE1SYN and JF10CQ will be active as ZL7A from the Chatham Islands (OC-038) on 9-22 November. They will operate SSB, CW, FT8 and FT4 on 160-6m with three stations. QSL via LoTW (preferred), Club Log's

OQRS, eQSL, or direct to JF10CQ.

EUDXF ACTIVITY MONTH •

Celebrating the 37th anniversary of the European DX Foundation, a number of special callsigns will be activated between 1 and 30 November: AX37EUDXF (Australia), DU37EUDXF (Philippines), HA37EUDXF (Hungary), OE37EUDXF (Austria), OP37EUDXF (Belgium),

PA37EUDXF, PB37EUDXF, PC37EUDXF, PD37EUDXF, PE37EUDXF, PF37EUDXF, PG37EUDXF, PH37EUDXF, PI37EUDXF (Netherlands), TM37EUDX (France), UE37EUF (Russia). QSL via operators' instructions. An award will be available, complete information can be found on <https://www.eudxf.eu/the-36eudxf-award-2/>.

CQ WW DX SSB CONTEST

The following stations have announced their participation in this year's event (28-29 October, www.cqww.com/rules.htm):

Do not forget to give a look at the Announced Operations listing maintained by Bill, NG3K at <https://www.ng3k.com/Misc/cqs2023.html> - good contest to you all!

GOOD TO KNOW

Access to the main functions of www.425dxn.org is provided by the 425DXN App for Android. It is available on Google Play - free of charge, no ads. Enjoy!

425 DX NEWS MAGAZINE • The September 2023 issue is available for download at <https://www.425dxn.org/>. [TNX IZ3EBA]

4W8X: OPERATING • «In November 2023 there will be a good number of interesting DXpeditions on the air. Other teams have published lists of their “proposed operating frequencies” on their websites. We strongly feel that this will not work out with so many activities at the same time - at least in the classic modes CW and SSB, and on the classic bands (and in the age of DX Cluster it truly sounds outdated, too). 4W8X does not announce frequencies. When we QSY to a new band, we will live with the actual situation which we find on the new band. It means: we will respect ongoing pile-ups, and we expect the same from our fellow DX colleagues».

As for the digital modes, «most of the 4W8X operators are focused on the classic modes CW and SSB, with RTTY ranking #3», the team states. «In RTTY you will find us on typical frequencies. We'll also take part in the WAEDC RTTY Contest (11-12 November). When the RTTY pile-up grows too big, we'll operate split». For FT8 and FT4, 4W8X will use «MSHV software with multiple streams a few kHz up from the

regular FT4/FT8 frequencies».

Plans are for 4W8X to be QRV with part-time/restricted operations on 6-13 November and again on 27 November-5 December, and a «full 24/7 service on as many band/mode combinations as possible» on 14-26 November (including a Multi-Multi entry in the CQ WW DX CW Contest). The DXpedition is expected to be QRT for good at +/- 3 UTC on 6 December. See <http://www.timor-leste-dx.de/operating/general.php> for operating tips and more information.

CB0ZA • Mike, AD5A has joined the multi-national team that will be active from Robinson Crusoe Island (SA-005), Juan Fernandez on 13-20 February 2024 [425DXN 1683]. The North American operators will meet on 7-10 December to test the radio equipment and prepare the antennas for shipment to Chile. See <https://cb0za.com/> for more information and updates. [TNX CE1TBN]

H40WA: POSTPONED • The Intrepid DX Group's DXpedition to the Temotu Province [425DXN 1679] «cannot go forward as planned from 26 October to 9 November», the co-leaders announced on 16 October. The new tentative dates are 22 February-7 March 2024.

«A few weeks ago, we reported that all of our equipment was shipped to Honiara, and was to be transported by vessel onto Temotu. Unfortunately, we have just been informed that the transport ship has yet again been delayed, and our equipment will not make it to Temotu in time for our planned activation date. All other options have been exhausted and we have no other viable options other than to reschedule for the February/March timeframe. The team is now working on getting our flights and hotel reservations rescheduled. If any of our donors/sponsors need a refund for your donations, please email pauln6pse@gmail.com for a refund».

IREF TO CEASE OPERATION • The Island Radio Expedition Foundation (IREF), the only expedition funding organization specifically focused on IOTA expeditions, is ceasing operation. Formed in 1999 by AD5A, N5UR, AB5EB and N15DX (SK) after their H75A expedition to NA-209, through its donors IREF has contributed more than 80,000 USD to IOTA expeditioners since its inception. «One of the primary reasons for ceasing operations», AD5A says, «is that the funding model for expeditions has changed. OQRS has given expeditioners a much easier tool for raising money than the traditional methods of the past. Accordingly requests were down as were contributions. IREF is proud of its legacy, but times have changed and IREF's impact has been diminished over the past few years».

RIOSP • This is the new callsign for Oleg, RD1A, who was previously QRV as RI41POL. He is participating in the North Pole-41 expedition to the Arctic onboard the *North Pole*, a large self-propelled drifting research vessel replacing the drifting ice stations built on ice floes. QSL via RN3RQ

SAC • The SSB leg of the 64th Scandinavian Activity Contest will take place on 14-15 October, from 12 UTC on Saturday to 11:59 UTC on Sunday. Scandinavian stations (Aland Islands, Denmark, Faroe Islands, Finland, Greenland, Iceland, Jan Mayen, Market Reef, Norway, Svalbard & Bear Island, Sweden) will try to work as many non-Scandinavian stations as possible and vice versa. See <https://www.sactest.net/> for complete information.

SOLAR ECLIPSE QSO PARTY • The Solar Eclipse QSO Party is an opportunity for radio amateurs to operate before, during and after the October 2023 and April 2024 eclipses pass over North America. Using various modes (CW, voice, and digital), two-way QSOs made during the SEQP will contribute to scientific studies focusing on the ionosphere's reaction to the eclipse. Although the researchers are most interested in the participation of operators in North America, amateurs from all over the world are welcome to operate and enter the SEQP. The events will take place on 14 October 2023 (1200-2200 UTC) and 8 April 2024 (1400-2400 UTC), on 160, 80, 40, 20, 15, 10 and 6m. See <https://www.hamsci.org/contest-info> for information, including FAQs and rules.

T22T & T32TT • Owing to an outbreak of Influenza Like Illness in Tuvalu, team T22T decided to QRT on 4 October, earlier than planned. According to Club Log's latest statistics, 102,248 QSOs were made with 16,861 unique callsigns on FT8 (80,179), FT4 (18,677), CW (2,290) and SSB (1,102). QSL via Club Log's OQRS (direct only). The Rebel DX Group's next plan is to be active as T32TT (requested callsign) from Kiritimati/Christmas Island (OC-024), East Kiribati sometime before December. Bookmark <https://www.facebook.com/rebeldxgroup/> for updates.

T2C • «Our air-conditioned bungalows are fine, but we don't have much space for the antennas», the team posted on 14 October their website (<https://t2c.mydx.de/>). «Large construction machines had been in use all day long and cross the street in front of our bungalows. Therefore, we can only use the area adjacent to the bungalows so that we are not disturbing other guests. As the front part of the hotel area has been claimed from the sea, there is no beach (just rocks), which means we can't install antennas there. We installed two BOGs (Beverage On Ground) overnight in the construction area away from the hotel. These antennas help a lot to improve the receiving situation from 40 to 160 metres. During the day, the BOGs must be dismantled due the work of

the construction machines on this area».

Plans are for T2C to focus on the higher bands, including 6 metres. On 23 October the 160 and 80m antennas will be dismantled, and the following day half of the team will fly back home with half of the equipment. The rest of the team will operate three stations on 40-6 metres until 30 October, including an entry in the CQ WW DX SSB Contest. Updates will be posted to the DXpedition's website, as well as to https://twitter.com/T2C_2023 and <https://mastodon.radio/@dh5fs>.

TX5S • The Perseverance DX Group's DXpedition to Clipperton Island (18 January - 1 February 2024) [425DXN 1684] will have two operating camps: one for CW/Digital/Satellite/EME and one for SSB/Digital. The equipment plan (transceivers, amplifiers, antennas) for 8 operating positions + a satellite position has been finalized, as well as the information for satellite, 6m EME and 23cm operations.

The fundraising campaign is underway: «the long standing DXpedition funding model is to split the DXpedition cost equally between the expedition team and the DX community, i.e. organizations and individuals. TX5S donations are only at about 40% of the goal. No doubt a sign of today's inflationary impact. But the fact remains - DXpeditions are expensive and the teams need your help. The cash flow challenge is real, we must pay the bills before we sail», the team's Press Release #6 states. «We ask those of you who have not yet processed a donation to consider supporting the

project before we sail on 11 January 2024»: see <https://clip.pdxq.net/donate/>.

You can also follow TX5S on Facebook: <https://www.facebook.com/tx5s2024>.

V62P & V62S • On 16 October Cezar, VE3LYC received «the shockingly sad news that captain Callistus, who was in charge of sailing the boat to Pulap and Satawal, had just passed away. He was in mid 50s, had a very good understanding of this project and obtained the support of the local Chiefs, whom he knew personally. Captain Callistus was truly happy to be part of this project and will be sorely missed»

In any case, the company Cezar has hired for the voyage has confirmed that they will be able to provide their services as planned. The timeline of this project has not changed, and Cezar still plans to be QRV as V62P from Pulap (OC-155) on 1-7 November, and as V62S from Satawal (OC-299) on 9-16 November. See <https://v6iota.weebly.com/> for updates.

W8S • The *Manu'atela* left Pago Pago (American Samoa) on 5 October at 9 UTC with the W8S Team onboard. The initial schedule was slightly delayed by the inclement weather and due to other commitments of the Government operated vessel, serving the local island communities. Operations from Swains Island began at 08.30 UTC on 7 October. With temperatures around 40 degrees Celsius and very high humidity, building the stations required a great

deal of effort from the entire team. This is one of the reasons why the stations took a little longer to set up than hoped. The DXpedition was not extended to compensate for the late start, and the team left the island sometime in the local morning (UTC afternoon) of 17 October. According to Club Log, W8S made 89,530 QSOs with 21,471 unique call signs and an even distribution over the three largest areas (Europe 35.1%, North America 30.8%, Asia 29%). The complete statistics can be found on <https://clublog.org/charts/?c=W8S#r>. The QSL manager (M0OXO) has received the final logs. Please note that log check requests for Busted Calls, Not in Log and/or Missing Calls should be processed through the *Not in Log?* form on his OQRS: <https://www.m0oxo.com/oqrs>.

WRTC 2026: SELECTION CRITERIA UPDATE • Following the publication of the WRTC 2026 Selection Criteria, the Organising Committee has received feedback and suggestions for rule amendments from the contesting community. After review some suggestions were not considered viable or did not align with real world data, but others gave potential to improve the competition. Following approval from the WRTC Sanctioning Committee, a few changes have been announced: <https://www.wrtc2026.org/2023/10/05/selection-criteria-update/>. With the first qualifying event approaching imminently, the Selection Criteria are now finalised, and no further suggestions can be considered.

XW0LP • Simon has moved to a new QTH in Luang Prabang, Laos which has a large garden and much clearer path to Europe. He is active on 160, 40, 20, 15, 17, 12, 10 and 6 metres («I am authorised to use 6m because I am a resident in Laos, not a visiting tourist»). QSL via M0OXO's OQRS. «To avoid my measly signal being drowned out on the "standard" FT8 frequencies», he says, «I will usually operate on the "alternative" FT8 frequencies. To save you the trouble of listening out for me on these less-common frequencies, I have written a small php file on my server that informs you if I am online or QRT, and provides you with the frequency that I am listening on: <https://onlinescienceteacher.com/xw0lp.php>».
