Access to the main functions of www.425dxn.org is provided by the 425DXN App for Android. It is available on Google Play - free of charge, no ads. Enjoy!

KH2/DL2AH ---> Ulrich, DL2AH has had to cancel his activity from Guam (16-30 September). He had "booked and paid from Germany via Airbnb a wonderful accommodation with a huge garden (space enough for five Triple Leg antennas)", he says, only to find out that "the offer was a fake! By lucky circumstances I found a new (affordable!) Airbnb - unfortunately without space for my antenna". His next stop will be Majuro, Marshall Islands as V73AH (4-16 October).

T22T ---> Team T22T has been active with four stations from Tuvalu since 3 UTC on 21 September, and according to Club Log has logged some 7500 FT8 QSOs so far. They have huge noise problems on the low bands. QSL via Club Log's OQRS. Updates will be posted to <https://www.facebook.com/rebeldxgroup>.

UK/EI DX SSB CONTEST ---> In partnership with the RSGB, the IRTS and the GMDX Group, the 2023 UK/EI DX SSB Contest will take place from 12 UTC on 30 September to 12 UTC on 1 October. The aim of this contest is to promote contacts between stations in the United Kingdom & Ireland and stations in the rest of the world. See <https://www.ukeicc.com/dx-contest-rules.php> for complete details. Next year's events will be held on 27-28 April (CW) and 31 August-1 September (SSB).

V62P & V62S ---> Cezar, VE3LYC will be active as V62P from Pulap Atoll (OC-155), and as V62S from Satawal Atoll (OC-299) between 25 October and 10 November [425DXN 1687]. "I just finished a very informative, almost two-hour Zoom meeting with the boat captain and my contacts down in FSM", he reported on 21 September. "We reviewed every step of the logistical plan, and the captain confirmed the transportation schedule I already announced, as well as a number of other logistical details. Meanwhile, he indicated that relatively small delays may occur, due to weather conditions and/or other unforeseen reasons that may arise. However, this is not going to shorten my stay on each atoll. If anything, my stays will be longer than originally planned".

Cezar is "extremely grateful for the support received so far from several

organizations and enthusiastic individuals. It was my decision and nobody else's to embark on this rather complex and expensive endeavour, and I am prepared to bear its cost". However, he wishes to encourage more IOTA chasers and DXers to support this project and assist him in offsetting some of those expenses: <https://v6iota.weebly.com/>.

W8S: THE PILOTS TEAM ---> The 4-17 October DXpedition to Swains Island will be assisted by a team of Pilot stations whose job is to report on how things are going from their location and act as liaisons between the DXpedition and amateurs in their region:

Europe and Africa	Jan, DL7JAN
British Islands	John, G4IRN
North America	Steve, N2AJ
South America	Siso, HK3W
Asia	Champ, E21EIC
Oceania	Lee, VK3GK

Alex, PA1AW will be the Chief Pilot in charge of gathering all relevant information from regional pilots and channel such information to the W8S team on the island. See <https://swains2020.1ldxt.eu/the-pilots-team/> for the details.

ZD9W ---> Yuris, YL2GM left Cape Town on 15 September, but the "Lance" is progressing towards Tristan da Cunha a bit slower than anticipated. As of 19 September, the estimated time of arrival was 26 September (subject to change based on weather conditions). Bookmark <https://www.lral.lv/zd9w/index.html> for updates.
