ANDAMAN AND NICOBAR IS ---> Nat, VU2NTA reports he is "now making another attempt to try and obtain permission for VU4. The going is pretty tough, with the government very unsupportive on the matter". He needs the support from the DX community and would like DXers to send him e-mail messages indicating their requests for activation of Andaman and Nicobar Islands by INDIAN AMATEURS (please note that "any requests to join the expedition by non Indian hams will definitely make the expedition a non starter!"). Send your message to vu2nta@amsat.org and KYFC. [TNX W2FG and VU2NTA]

C.Is.A. ---> The Canadian islands activated by VE2MA/p on 17 October were Ile St-Amour (PQ-044), Ile St-Ignace (PQ-045), Ile Madame (PQ-046) and Ile-Aux-Ours (PQ-047). For further information on the Canadian Islands Award please visit <http://www.tir.com/~wd8mqg/index.html>

D.I.C. ---> The Diploma delle Isole Campane (Campania region Islands Award) is sponsored by ARI Pozzuoli. For further information please contact the Award Manager, IK8UHA at either ik8uha@amsat.org or Sezione ARI, attn. Antonio Barbato (IK8UHA), P.O. Box 1, 80078 Pozzuoli - NA, Italy. [TNX IK8UHA]

ISLAND RENAMED ---> Kiribati has officially renamed Caroline Island as part of its promotional campaign approaching the new millenium. It is now called Millennium Island. The information comes from the Tourism Council of the South Pacific (<http://www.tcsp.com/>)

NA-184 ---> Lew, N6VV and Dan, W7DR were on St. George Reef for only 23 hours on 17-18 October and logged 1187 QSOs in about 18 hours of operation ("I would guess more than 50% of the QSOs were with Europe", Lew says). QSL via N6VV (cards started going out on 21 October!). A photo and some historical information on St. George Reef Lighthouse, are available at <http://members.aol.com/fairyfeller/stgeo.html>: "after visiting the web page", N4VA says, "I feel a much stronger appreciation for Lew's efforts!" [TNX N4VA and N6VV]

QSL 3B7RF ---> The latest report (29 October) from Switzerland states that 26,100 QSOs have been confirmed so far. All direct cards received before 25 October have been replied. If you do not receive your direct card within a couple of weeks, please contact HB9BXE at hb9bx@pilatus.net before mailing a second request. Bureau requests are being processed as well. QSL via HB9RF (Postfach 37, CH-6319 Allenwinden, Switzerland). [TNX HB9BGN]

QSL BD7JA & BI7W ---> Reports mentioning F/HH2HM as QSL manager for BD7JA/7 and BI7W [425DXN 390] are not correct. Yang, BD7JA states he has never authorized anyone to handle these QSL chores. QSLs go to P.O. Box 1713, 510600 Gaungzhou, People's Republic of China. We apologize for any inconvenience this may have caused Yang and our readers.

QSL EA9EA ---> Joe, W3HNC reports that due to a miscommunication he will not be handling the QSL chores for the Ceuta Contest Club, EA9EA. Cards will be handled by EA9AZ. [TNX The Daily DX]

QSL EP2MM ---> Clyde, W5TQE has been reported as being QSL manager for this station and he is receiving many requests for cards. "I have not operated as EP2MM for over 25 years", he reports, "and I cannot reply to EP2MM cards". [TNX G3NUG]

QSL UA0IAS ---> It has been reported that many people were sending mail to the old callbook address for UA0IAS/0 at Box 500. Please note that all the mail CURRENTLY at Box 500 will be forwarded to the correct address, so it will not be necessary for anybody to resubmit a QSL, but any mail coming into Box 500 NOW will NOT be forwarded. Vald's current address is Vladimir Kolodkin, P.O.Box 11, Palatka, 686110 Magadanskaya, Russia. Reports from Russia also mentioned that there is a mail strike now, so anybody waiting for mail should have patience. [TNX KB80]

QSL YA1R ---> Roger, G3SXW reports he is receiving direct cards for YA1R, which was active earlier this month. Please note that this call was actually issued to Roger in 1970 (and at that time the QSL manager was G3TXF), but he has not been in Afghanistan since 1973. The QSL route given by the 1998 YA1R is RW3LO.
