T33C's likely operating frequencies are now posted on <http://www.dx-pedition.de/banaba2004/>. The operators are aware that there will be other DXpeditions on the air at the same time. For that reason, their frequencies may change from time to time. To prevent overlap and confusion with other operations, they will try to maintain splits and spreads that do not conflict. As soon as the operators establish a reliable PACTOR link, they will send daily logs and bulletins to the web site. However, "if there is any doubt whether or not you are our log", they say, "please work us again". All logs will be refreshed upon their return to Tarawa on 18 April. The pilot stations will be:

**** GOOD TO KNOW ... ****

Edited by I1JQJ & IK1ADH

AMATEUR RADIO ON TELETEXT ---> Thanks to Dan/S50U, Joze/S52JK and the Cerknò ARC (S50E), RTV Slovenija features two Teletext pages (with five sub-pages) devoted to amateur radio, including SK3BG's Contest Calendar (page 396/3), DX spots from S50CLX (397/1) and 425DXN's calendar (397/2). RTV Slovenija can be found on Eutelsat Hot Bird (12.303 GHz, Pol. V, SR 2750, FEC 3/4). Web page at <http://teletekst.rtvslò.si/S39701.HTML>

6M MARATHON ---> The Six Meters Marathon 2004 is open to all amateur radio operators worldwide. The objective is to work as many DXCC entities as possible on 6m between 8 May (00.00 UTC) and 8 August (24 UTC). The results will be continuously updated at <http://www.50mc.tk>. For further information please contact Hannu Saila, OH3WW (marathon@saila.org). [TNX OH5DX]

3B9C TROPHIES ---> A wide range of trophies will be available for working 3B9C on different band/mode slots. The objective of the "Nevada Rodrigues Award Programme" is to encourage amateur radio stations (as well as SWLs) to make contact with this all-band all-mode major expedition; details can be found at www.3b9c.com.

3B9C VIDEO ---> A 45 minute video tape of the 3B9C DXpedition will be made and edited by Don, G3BJ. Those who order it, will receive also a copy of the as yet un-released "limited edition" D68C DXpedition video free of charge. All surplus funds from the sales of this combined video (total 90 minutes) will be used to fund future FSDXA DXpeditions. Details can be found at www.3b9c.com; any queries to G3BJ (g3ozf@btinternet.com).

CONTACTING 3B9C ---> The 3B9C team believe that, with current levels of Internet use, the traditional concept of regional pilot stations is no longer applicable. Instead, there is a single e-mail address for contacting 3B9C (deserving@3b9c.com): messages will go direct to the island, and be dealt with by members of the team. Note that you will not receive a personal response and that responses will be placed on www.3b9c.com.

DIE CONTEST ---> The 10th edition of the DIE Contest for working stations located on Spanish islands will be held from 6 to 12 UTC on 20 June. The DIE Contest software is available from Paco, EA5OL (<http://www.ea5ol.net/die>). [TNX EA7CYS]

DX SPOTS ---> Rod Elliott, VE3IRF has collected the DX spots from the OH2AQ Web Cluster since January 1997. The collection - from January 1997 up to February 2004 - is available at <http://www.425dxn.org/dxspots/>.

LOW BANDS IN THAILAND ---> Champ, E21EIC reports that Thailand's licencing

authority has renewed the 160 & 80m operating permission through 31 december 2004. Thai amateur radio operators can use the following frequencies during contests only: 1800-1825 kHz, 3500-3505 kHz, 3524-3536 kHz. Those who need Thailand on 80 metres SSB can look for Chai, HS1NGR to be QRV on 3536 kHz (QSO 3795 kHz) during the weekends between 17 and 20 UTC.

QSL 3B9C ---> The QSLing task will be shared by a team of volunteers, centrally co-ordinated through StarQSL, a piece of software developed especially by John, G3WGV for the purpose. Direct cards should be sent to FSDXA, P.O. Box 73, Church Stretton, SY6 6WF, UK. Bureau cards go via the RSGB bureau (a form for requesting bureau cards is available at www.3b9c.com).
