425 DX NEWS MAGAZINE ---> The latest issue (November 2005) is now available in .pdf format at <http://www.425dxn.org/monthly/>. Articles and pictures should be sent to Nicola Baldresca, IZ3EBA (iz3eba@ari.it).

A52CDX ---> The A52CDX team (F9DK, G0LMX, F5LMJ and F2VX) went QRT from Timphu at the end of the CQ WW DX CW Contest (6929 QSOs, 1024 made during the contest). They expected to leave for the Bhutang Province around 6.30 a.m. local time on 28 November, and to operate with solar panels from Ugyen-Cholling on the 29th, from Trongsa on the 30th and from Paro on 1-2 December. QSL via F9DK. [TNX F5NQL]

DX0ST & DX0TIC ---> Gil, 4F2KWT and Jun, 4F3BA returned from their expedition on 26 November. Shu, JN6RZM reports that the voyage back home was "a terrible experience", as "the small boat they took met with very big waves and the engine was damaged and they were adrift for 16 hours". Shu says that they had to use their amateur radio equipment to launch the myday on 7045 kHz. Pictures of the operations from OC-175 and OC-207 can be found at <http://www5f.biglobe.ne.jp/~jalqxy/sub15aa.html>

JUST LEARN MORSE CODE ---> Sigurd Stenersen, LB3KB has decided "to make a contribution to the continued use of Morse code" and has created Just Learn Morse Code, a computer programme that makes it easy to learn CW and improve the skills of those who already know the code. The latest version (1.13) was released on 22 November and can be found at <http://justlearnmorsecode.com>
[TNX LB3KB]

OJ0B & OJ0J ---> The OJ0B and OJ0J operation terminated their radio activities from Market Reef at 4 UTC on 29 November, after 12,166 QSOs (8,505 - nearly the 70% - on 160 and 80 metres). Boat transport back to the Aland Islands was totally out of the question because of rough seas, and two helicopter flights were needed to pick up the team and their equipment. This has added to their overall transportation costs, beyond the original estimate. Contributions to help offset the high cost of the operation will be gratefully accepted. The diary (with several pictures) of this Arctic undertaking is available at <http://www.kolumbus.fi/oh2bn/pagemarket.htm> [TNX OH2BN]

OPERATORS NEEDED ---> Frosty, K5LBU and three others will be active from Mozambique between 29 June and 13 July, IARU Contest included. They plan to have two complete stations and to operate CW, SSB, RTTY, PSK and EME. Those interested in joining the team are invited to contact Frosty (frosty1@pdq.net). [TNX K5LBU]

QSL 7Q7RM ---> Allan, G0IAS is now in possession of the late Ron Macfarlane's logbooks. These date back to 1947-54, when Ron was GM3EAK, and cover all of the QSOs (HF and 6 metres) made as either ZD6RM (when Malawi was called Nyasaland) and 7Q7RM until Ron's death. Allan says that these logs "will stay open for one year, then they will be closed and destroyed". QSL direct only to Allan Hickman, The Conifers, High Street, Elkesley, Retford, Nottingham DN22 8AJ, UK. [TNX G0IAS]

QSL J3/SP9PT & J3/SP9BQJ ---> Wojciech and Marek made 12500+ QSOs during their late October/early November operations from Grenada, and have processed and mailed all of the direct requests received so far. [TNX SP5EWY]

QSL P40L ---> Please note that Gert, K5WW can confirm QSOs made with P40L between 22 May 2003 and 29 November 2005 at 03.30 UTC (on-line logs at <http://www.qsl.net/k5ww>). Contacts made after that time were made by OH3SR, who will handle his own QSL cards.

QSL VIA W0YG ---> Charlie, W0YG would like to remind DXers that he does not use the bureau. Requests for VK9CG and VK9XG should be sent direct only, with SAE and USD 1.00 or 1 new IRC.
