NIAR requests amateur radio organizations and individual hams interested to operate from Port Blair, Andaman and Nicobar Islands to e-mail a letter of intent to niarhamfest@gmail.com as soon as possible: all of the relevant details can be found at http://www.niar.org/hf_vu4_06.html

QSL EA6IB ---> Juan, EA5BM reports that "confusion" at the post office in

Ibiza has caused major delays in QSLling. A few days ago a large batch of "lost" SASEs was found: those envelopes "will be mailed immediately" and a new more reliable QSL route is expected to be publicized through www.qrz.com in a few weeks' time. [TNX UA4ARL]

YASME & WRTC 2006 ---> Because radio contesting needs to attract and support youth, the YASME Foundation (<http://www.yasme.org>) announces a donation of \$10,000 to WRTC 2006 (<http://www.wrtc2006.com>) in support of youth participation. These funds will be used to help Young Contesters from around the world attend and participate in WRTC 2006, to be held in Florianopolis, Brazil in July 2006. WRTC 2006 has dedicated three two-person team allocations to Young Contesters teams. Additional Young Contesters may participate as part of multi-operator teams. We encourage young amateurs with a strong interest in contesting to make their applications for those positions by 20 January 2006. The qualifications and criteria for Young Contesters to apply to multi-operator teams will be announced shortly. While the multi-operator teams will operate at existing stations in Brazil, Young Contesters qualifying for the WRTC 2006 competitor teams are expected to bring their own equipment. [TNX N0AX]

The final release of the amended Amateur Radio regulations, permitting ZR licence holders to access the HF spectrum, was published on 4 February 2005. These new regulations also affect the way ZS licences are issued and bring South Africa in line with many other countries around the world who no longer only use Morse code for granting access to HF. [TNX ZS4BS]

ZY6GK ---> Cris, PY7GK has cancelled his 27-30 December activity from

Itaparica Island [425DXN 759] owing to the failure of his radio equipment. He hopes to be able to go to the island for the IOTA Contest. [TNX PY7RP]
