**** GOOD TO KNOW ... ****

=====

Edited by I1JQJ & IK1ADH
Direttore Responsabile I2VGW

8P6DR ---> Richard, G3RWL made about 3,000 QSOs during his 2-23 April activity from Barbados. He says he had a computer failure "and the last 800 QSOs were made with hand-keying and a paper log". All but about 10 CW QSOs from the computer are OK on his backup, but all his RTTY QSOs are still on the computer with no backup. QSL requests will not be confirmed until after Richard has investigated (and hopefully fixed) the problem. [TNX G3RWL]

A DIFFERENT KIND OF AMATEUR RADIO COMPETITION ---> Nineteen-year old Mark Dumbleton, 2E0NCG is the winner of the Radio Arcala Essay Contest [425DXN 929]. You can read Mark's piece and his interview at <http://www.radioarcala.com> (click on the "Young People Terms" button).

ANARTS RTTY CONTEST ---> The last running of the ANARTS WW RTTY Contest will be held on 13-14 June (rules at <http://www.anarts.com.au/rules2009.htm>) and for this year only the contest will be managed by John Barber, GW4SKA, the BARTG Contest Manager. From 2010 the BARTG HF RTTY Contest will be moved from March to the second weekend in June. [TNX F5NQL]

ANTARCTICA ---> Bob, K4MZU, Antarctic chaser and QSL manager for several US Antarctic stations, has set up an interesting website (www.k4mzu.net) featuring QSL galleries and an Antarctic Hams & Bases album. The site is in the beginning stages, and an Antarctic DX Chasers page is under construction. Anyone having photos of US amateur radio operators in Antarctica is encouraged to send them to Bob (oldbibles@aol.com). [TNX K4MZU]

DXCC NEWS ---> The following operations are approved for DXCC credit:

S04R Western Sahara 2009 Operation

E51QQQ North Cook Islands 2009 Operations

If you have had any QSLs rejected in a recent DXCC submission, please send an e-mail to dxcc@arrl.org to be placed on the list for an update. [TNX NC1L]

L33M ---> This is Dan's, LU3MAM recently issued contest callsign. QSL via LU1MA (Radio Club Cuyo, P.O. Box 232, 5500 Mendoza, Argentina). [TNX LU3MAM]

MM0RAI/P ---> The Belgian IOTA DXpedition to Rockall (EU-189, www.rockall.be) [425DXN 935] has been cancelled. The team departed Stornoway on 27 April with flat seas, but two days later, when they reached the island, the waves were too high for them to attempt a landing. "The weather is worsening by the hour and the weather forecast for the coming days does not give any hope", Theo (ON4ATW) said.

PIRATE ---> Pasquale, IW0HEX is receiving cards for contacts made with 5Z4/IW0HEX (30m CW) in August 2008. Please note that his callsign was pirated, as he never operated from Kenya. [TNX IW0HEX]

TI7KK ---> On-line logs and two photo galleries for the recent TI7KK IOTA activity from Isla San Jose, Murcielago Islands (NA-191) are now available on the expedition's website (<http://www.ti7.info/>). The team made 7757 QSOs (4990 CW, 2483 SSB, 284 RTTY) between 17 and 21 April. QSL via DK6AO, direct or bureau.

UN2C ---> One of our readers is looking for a reliable QSL route for UN2C: I "have sent two times to Box 121 (all DX lists)", he says, "but both returned as undeliverable". Is there anybody who can help?

TOP LISTS ---> The latest Topband, Topmode and Toplist listings are now available at <http://www.425dxn.org/awards/toplist/index.html>. Please note that QSOs confirmed through LoTW or included in on-line logs are eligible for listing. Send send your scores, as well as any request for further information, to Erminio Pandocchi, I2EOW (i2eow@fastwebnet.it)

V63TO ---> A few images of V63TO from Kapingamarangi Atoll (OC-167) can be found at <http://dx-hamspirit.com/>. Mike (KM9D) and Jan (KF4TUG) were active from there on 5-15 March, with additional QSOs made on 4 April using a QRP transmitter and a newly constructed antenna for 17 metres. They are currently in Honiara (OC-047), Solomon Islands, where they hold the callsigns H44MY and H44TO.

WPX-CT AWARD ---> It is available to either licenced amateurs and SWLs for contacts made with different callsign prefixes allocated to Portugal, including Madeira and the Azores. Complete information can be found at <http://www.geocities.com/ctlbww> [TNX CT1BWW]
