60M NEW WEB SITE – With the help of K3ZXL, K5YY and W8GEX, the new 60m website is now up and running at <http://60metersonline.net>. Here you will find a collection of information about current events on 60 metres, upcoming DXpeditions, and more.

A35A – Paul Kidd, A35A (A35RK) went QRT on 30 December and will leave Tonga on 16 January with "no definite return date". He will be living California and will be QRV as KK6H starting in February. QSL via LoTW or W7TSQ. [TNX The Daily DX]

CLIPPERTON 2012 CANCELLED – The 10-15 March TX5Q operation from Clipperton Island [425DXN 1072] has been cancelled, "due to unforeseen problems with logistics and costs. We will plan to carry out a major DXpedition to Clipperton in early 2013. If you are interested in the project, please contact KK6EK at [cordell.org](http://cordell.org)".

CUBA – Cuban radio amateur service regulations have been modified to permit access to the 80 and 40m bands to the third class operator licensees, holders of CL prefixed callsigns. They are allowed to operate on 3550-3750 kHz and 7100-7125 kHz, running a maximum of 10 watts on CW and phone. [TNX CO8ZZ]

DAYTON CONTEST DINNER – The 20th Annual Dayton Contest Dinner will be held on 19 May at the Crowne Plaza Hotel. Tickets are only available on <http://contestdinner.com>

DX DINNER – The Southwest Ohio DX Association (SWODXA) is pleased to again sponsor the DX Dinner, to be held in conjunction with the 2012 Dayton Hamvention on Friday, 18 May at the Dayton Marriott Hotel. Details can be found at [www.swodxa.org](http://www.swodxa.org) [TNX W8GEX]

DX SOUND CLIPS – Tom's (K8CX) DX sound clips for 2011 can be found at <http://hamgallery.com/dx2011/>; the collection of 130 clips covers the major DXpeditions, plus rare and semi-rare DX. This makes 14 full years of sound clips available.

DX UNIVERSITY – The first session of DX University (DXU), twin to the very successful Contest University (CTU), will be held on 20 April at the Holiday Inn in Visalia, California. Among the lecturers are AA7A, G3SXW, K4UEE, K9LA, N7NG, W3UR, W6OAT, W9KNI and XE1KK. Learn the secrets of operating techniques for working DX, optimizing stations & antennas for DXing, about propagation, information sources, awards, and ethics, remote operating, QSLing and much more. You will also get the DXpeditioner's view of how DXers should operate to get into the log. Over half of the limited student places have already been reserved since Registrations opened only three weeks ago. Complete information can be found at [www.dxuniversity.com](http://www.dxuniversity.com) [TNX G3SXW]

LOTW & CQ AWARDS – The ARRL and CQ Communications, Inc. have signed an agreement to begin providing support for CQ-sponsored operating awards by the ARRL's Logbook of the World electronic confirmation system. CQ's awards will be the first non-ARRL awards supported by LoTW and will be phased in, beginning with the CQ WPX award. Additional CQ awards will follow. The target date for beginning LoTW support for WPX is 1 April 2012. Amateurs will be able to use LoTW logs to

generate lists of confirmed contacts to be submitted for WPX credit. Standard LoTW credit fees and CQ award fees will apply.

MALJY VYSOTSKIJ TO BE DELETED – Back in 2010 a new agreement on the lease of the Russian part of the Saimaa Canal zone to Finland was signed by the Prime Ministers of the Republic of Finland and the Russian Federation. The exchange of the instruments of ratification finally took place on 17 January, and the new agreement will come into force one month later. The new lease no longer includes Maljy Vysotskiy Island, which therefore no longer satisfies the criteria under which it was added to the DXCC List. "It's unlikely that any DX pedition will come on from the island before the deletion", OH2BU says.

NCDXA AWARDS – The National Capitol DX Association ([www.ncdxa.org](http://www.ncdxa.org)) is pleased to announce that its "DX-Pedition of the Year Award 2011" has been given to Hrane Milosevic, (YT1AD) for 3D2R, an "Outstanding DX-Pedition Operation and Amateur Radio Youth Development Program with Rotuma High School". The NCDXA's new DXCC-EAST Convention will be held on 25 August, please visit [www.dxcceast.com](http://www.dxcceast.com) for complete details. [TNX K3LP]

PILEUP! – The latest issue of Contest Club Finland's newsletter, "PileUP!", is now available at <http://www.helsinki.fi/~korpela/PU/PU.html>. "It is in English for the most part and includes fresh air from the Far North", Martti OH2BH says, and it is quite worth a look.

QSL 3B8FA – Patrice "Pat" Momphe, 3B8FA has been inactive for a long time and is now QRV again. He has chosen Buzz, NI5DX, as his QSL manager. He will be able to confirm only contacts made with 3B8FA from 23 January 2012 onward. Buzz will be designing a card and having it printed; it will take about 5 weeks for him to receive the cards from the printer. [TNX The Golist]

They also plan "to recruit a CW operator, with DXpedition or contest experience, to 'round out' the team". The plan is for WA4DAN to operate 70% SSB and 30% CW, AA4VK to operate 100% SSB and the third team member to operate 70% CW and 30% SSB. Bookmark [www.cy0dxpedition.com](http://www.cy0dxpedition.com) for updates.

VISALIA 2012 – The 63rd Annual International DX Convention, sponsored by the Southern California DX Club, will be held at The Holiday Inn and Conference Center in Visalia, California on 20-22 April. Online registration and further information can be found at [www.dxconvention.org](http://www.dxconvention.org)

VP6T – "6m operation from Pitcairn has not been on our agenda since the early planning stage", the VP6T clarified on 11 January, "as well as all others bands/modes that are not specified on [www.vp6t.org](http://www.vp6t.org)". If time permits, they will try to locate an old 5-element Yagi 6m antenna (left by OH2BR probably), and "if it is still in good shape after 12 years spent on the island, then we may install it and make some tests on 6m, using conventional modes (CW and/or SSB)". In that case, it will be announced on the website, or on air by the HF operators.
