They will be QRV in their spare time, with activity on SSB and digital modes using "the commercial broadband HF antenna at the base". QSL for both via ZS1HF. More information can be found on their respective qrz.com sites. Pierre, ZS1HF also reports that "Carson's girlfriend, Nadia, and the team's diesel mechanic, Marius" will take their Radio Amateur's Examination (RAE) while on the island, so "there will eventually be four active hams on Marion Island during the next year".

CARIBBEAN TOUR ● Rick, AI5P will be active holiday style as J75PX from Dominica (NA-101) on 6-20 April and as TO5PX from Martinique (NA-107) on 20 April-4 May. QSLs via AI5P. [TNX The Daily DX]

AMSTERDAM ISLAND 2014

I am pleased to announce a major DXpedition scheduled to occur during January and February of 2014.

An international team of 14 experienced DXpedition operators, led by K0IR, will depart from Fremantle, Australia in early January of 2014. Their destination will be Amsterdam Island (FT5Z).

Amsterdam Island is under the administration of Terres Australes et Antarctiques Francaises (TAAF). There are strict rules and environmental regulations in place on Amsterdam Island and access is limited. Representatives of this DXpedition team met with TAAF officials on Reunion Island in November and in Paris in early March. The team's plan and credentials were reviewed at those meetings, and resulted in TAAF's final, written authorization to land on Amsterdam Island and conduct this DXpedition. **The team has been granted an 18 day access to the island to occur between the dates of January 15 and February 20 of 2014.**

The team will sail from Fremantle, Australia aboard the MV Braveheart. The voyage to Amsterdam Island will take them through the "roaring 40s" of the Indian Ocean and last about 8 days, depending on the wind and weather. TAAF has reviewed the Braveheart's specifications, environmental precautions, and emergency response plan and has designated anchorage conditions for the vessel. Landing at Amsterdam must be timed according to sea conditions as there is no natural harbor to shield the landing area from the open sea. This may necessitate waiting off shore until the sea conditions are suitable. But, our 18 day window does not start until we step onto the island.

Once ashore, the team will move to two station positions assigned by TAAF. The two locations are about 2 kilometers apart. Each location will allow a full complement of antennas. The separation will allow simultaneous CW/RTTY and SSB transmission on the open bands. **The group plans on eight stations; four at each location.** Elecraft K3's, a full complement of antennas, and 500 watt and 1.5 KW amplifiers will be the backbone of the station configurations.

The operators are well known in the DXing and contesting world and include: 9V1YC, EY8MM, FM5CD, HK1R, K4UEE, K9CT, LA6VM, N4GRN, N6HC, VE3EJ, VE7CT, W6IZT, WB9Z, and yours truly K0IR.

Our website is in the final stages of preparation. When it is complete, you may access it at: www.amsterdamdix.org. The website will be password protected until it is ready.

As with past DXpeditions to "Top Ten" countries, this is a costly venture. The expenses total just over \$400,000 (U.S.). Each operator must contribute a minimum of \$10,000 of his own money, pay his own way to Fremantle, Australia, be away from home and family for six weeks, spend 16 to 18 days at sea, and be prepared for the financial and physical risks inherent in a major DXpedition of this magnitude.

The group needs your financial support to successfully complete this major project and is asking all DX'ers to contribute what they can to make this happen. We know that clubs and major sponsors will help us; INDEXA has already made an extremely generous contribution to the project and the NCDXF has honored with a very large grant. But we also need the help of individual DX'ers, not only from North America, but also from Europe, Asia, Africa, South America, and Oceania. Let's make this happen! Then, let's enjoy the chase of a new country, a new band country, or working a rare one!

GOOD TO KNOW

AMATEUR RADIO IN GREECE • Published in 1990, "The Dawn of Amateur Radio in the U.K. and Greece" by Norman F. Joly (G3FNJ) is still the standard reference of this period. Vienna-based Documentary Archive has just published the chapters relating to the history of Amateur radio in Greece, with the author's kind permission from his personal copy which contains some corrections and amendments to the printed version, and with additional material from the Archive's files: see www.dokufunk.org/joly and www.dokufunk.org (joly-d) for a German version. CQ MM DX CONTEST • The third edition of the CQ Manchester Mineira DX Contest, sponsored by the the Juiz de Fora CW Group (www.cwjf.com.br), will be held on 20-21 April. It is a continuation of the Manchester Mineira All America CW Contest, initially limited to Brazil (1993-1996), then expanded to South America (1997-2006), to the Americas (2007-2010) and finally to the world (2011). It will run from 12 UTC on Saturday through 23.59 on Sunday, on 80, 40, 20, 15 and 10 metres CW. Complete details can be found at www.cqmmcx.com [TNX PY4WAS]

DL4JS (SK) • There is a dedicated email address where to leave messages of condolence to Ingolf's (DL4JS) family and friends: condolence.dl4js@gmail.com (Andi, DL7ZZ says that a PayPal account for donations is in the process of being opened for that address).

MISSION GOODWILL SOUTH SUDAN • New countries are born rarely these days but such is the case with the Republic of South Sudan (SS). Initial activity (STOR) from the newly created DXCC entity largely met worldwide demand for "a new one". That operation was followed by a handful of hams working in the country on behalf of humanitarian and other international organizations. Meanwhile, no full-fledged amateur radio infrastructure is yet established in South Sudan. This includes amateur radio regulations, licensing procedures and ways of calling on locals to get involved. Currently licensing is available only to individuals permanently based in South Sudan. With these considerations in mind, Radio Arcala (OH8X) is undertaking an initiative to work closely with the local telecommunications administrators and provide them with assistance and a helping hand. Olli, OH0XX and Martti, OH2BH are currently in Juba, and during their spare time they will also put newly licensed Z81X on the air. QSL Z81X via OH0XX.

NCDXF NEWS • The annual meeting of the Northern California DX Foundation board of directors was held during the International DX Convention in Visalia, California, on 20 April. Officers will remain unchanged for the next year with Rusty Epps W6OAT (President), Glenn Johnson W0GJ (Vice President), Don Greenbaum N1DG (Treasurer) and Kip Edwards W6SZN (Secretary). Reelected to the board of directors were Ned Stearns AA7A, Glenn Rattmann K6NA, Steve Merchant K6AW, Tom Berson ND2T, John Miller K6MM, Glenn Vinson W6OTC and Ken Anderson K6TA. Contributions from clubs and individuals remain strong, helping NCDXF keep up with the increasing expenses of DXpeditions to rare, remote and dangerous entities. Please visit www.ncdxf.org for joining or renewing membership. NCDXF officially presented a \$50,000 grant to the FT5ZM Amsterdam Island DXpedition. This is the second largest grant in the 41 year history of NCDXF. During this time NCDXF has supported over 500 DXpeditions with over \$1.8 million dollars.

The Northern California DX Foundation is also committed to bringing younger DXers and Contesters into our hobby. NCDXF will provide full tuition scholarships for hams 25 years of age and younger at all DX University and Contest University sessions held in North America for the next year. This includes those held at the Dayton Hamvention next month. Funding for this project comes from NCDXF's Scholarship Endowment Fund, which is separate from its General Fund used to support DXpeditions. [TNX W0GJ]

PIRATE • Peter, OX3XR has received information from the Greenlandic Communication Authorities that Leo Wolsing (OX3LW) "requested to terminate the call" back in August 1975. The callsign has not been reissued since then, so do not waste your time on working the station currently signing OX3LW as it is a pirate.

QSL HK6AA & HK6DOS • Oscar, HK6DOS reports that EA5KB is no longer his QSL manager. The same applies to Carlos, HK6AA. QSL for both is now "via bureau or e-QSL".

QSL T48K • Raul, CO8ZZ reports that DK1WI is no longer the QSL manager for T48K (he still manages all T48K operations from 1999 until last year's CQ WW VHF Contest). The QSL route for contacts made during the CQ WW WPX SSB Contest 2013 is via F5FYO, direct (Hugo O. Gomez, P.O. Box 50033, 33191 La Reole CEDEX, France) or bureau.

QSL ZP5YW • Effective immediately, Randy W5UE has agreed to serve as QSL manager for Mike ZP5YW. Mike's former manager, WA3HUP has retired from this service. Mike uploads his logs regularly to LoTW and eQSL, and is providing Randy all of his logs. New QSLs are being ordered so there may be a slight delay in replies. Direct requests should go to Randy Becnel, P.O. Box 170, Kiln MS 39556-0170, USA. OQRS (for ZP5YW as well as for other stations Randy manages) at <http://w5ue.net/qsl-w5ue.html>. [TNX W5UE]

THE INTREPID SPIRIT AWARD • "Tonight [20 April, at the IDXC 2013 in Visalia, Ed.] the Intrepid-DX Group is very proud present our 'Intrepid Spirit Award' to a notable DXer and DXpeditioner that we have come to respect and admire greatly, Mr. Silvano Borsa I2YSB. This award is to recognize Silvano's outstanding efforts to activate Somalia on three different activations, as well as Chad and most recently Burkina Faso. We acknowledge Silvano's pursuit of Dxpedition excellence and his quest to activate the rare and often dangerous entities. It is for these reasons that we honor him tonight with our 'Intrepid Spirit Award'. This 'Intrepid Spirit Award' is made in memory of our fallen friend and member, James McLaughlin, T6AF who was killed in Kabul, Afghanistan just two years ago this month". [Paul S. Ewing N6PSE, President, The Intrepid-DX Group]

TOP LISTS • The latest Topband, Topmode and Toplist listings are now available at <http://www.425dxn.org/awards/toplist/index.html>. QSOs confirmed through LoTW or included in on-line logs are eligible for listing.

Send your scores, as well as any request for further information, to Luciano Lucini, IK2QPO (ik2qpo@425dxn.org).

WRTC2014 NEWS • WRTC2014, Inc., host of the 2014 World Radiosport Team Championship (WRTC) competition, has opened the application process for qualified individuals that would like to serve as Referees. The Referee application period closes on 1 December 2013. Complete information, including downloadable application forms, can be found at <http://www.wrtc2014.org/qualifying/referee-selection/>

IOTA NEWS

- The 2013 Honour Roll and Annual Listings have been uploaded to both the IOTA Manager's (www.g3kma.dsl.pipex.com) and the IOTA Programme's (www.rsgbiota.org) websites.
- The following operations in the period February/March 2013 have provided acceptable validation and are therefore approved for IOTA credit: HK0/F6BFH (NA-033 & NA-049), HK1/F6BFH (SA-040), T47RRC (NA-086), T46RRC (NA-204), T48RRC (NA-218) and VY0/VE3VID (NA-174).
- With effect from 1 May 2013 Tony Ritchie, G4VMX will be stepping down as checkpoint for Scotland, Wales, Northern Ireland, Channel Islands, Isle of Man and all British SWLs. He will be replaced by Bob Barden, MD0CCE who has agreed to take over responsibility for this checkpoint area. Bob's address is correct on QRZ.com. There will be no other change to UK checkpoints.

+ SILENT KEYS +

- Hermann Sachse (**5Z4RT**), passed away on 4 April. "He had been in Kenya for decades", says Ted Alleyne, 5Z4NU, Chairman of the Amateur Radio Society of Kenya, "was a Life Member of ARSK and ran our Sunday morning nets for many years as well as being involved in a medical net based in Germany".
- Nusret Abadzic (**E73N**, ex T93N, YU4BN) passed away on 6 April after a long illness at 82 years of age. For many years he was the IARU liaison officer for ARABiH, Bosnia-Herzegovina's national amateur radio society.
- Alan R. Leith (**VE1AL**) passed away unexpectedly on 11 April, apparently from a heart attack, at 66 years of age. Over the years Al edited several DX publications, and in 1988-89 he participated in the CY9DXX and CY0DXX DXpeditions to St. Paul and Sable islands. In paying their tribute to "a true gentleman in every sense of the word", the CY9M team says that last year's expedition to St. Paul "would not have happened without Al's help and knowledge".
- Mike Bazley (**VK6HD**) passed away on 12 April. one of Australia's most successful DXers, he was the first station from Oceania to obtain DXCC on 160 metres.

**ANNOUNCING
THE P5 PROJECT**

IDXC 2013 Convention
Visalia, 20 April 2013

P5, North Korea is the most wanted DXCC entity world-wide.

Today, the Intrepid-DX Group, in partnership with the World-Wide DX Group, is announcing our sustained and ongoing effort to activate North Korea.

For the past four years, we have been working with professionals in the business and tourism industries who are actively doing business in North Korea. We are leveraging their ideas and contacts towards our goal of a major Dxpediton over a four week period from within the DPRK. We are using the same techniques that were successful in opening up Kurdistan (Northern Iraq) South Sudan and Yemen to Dxpediton activity.

We have prepared a comprehensive, multi-faceted proposal and we have delivered it to the DPRK officials via our Chinese emissary. Several members of our leadership and advisory team and have made multiple visits to the DPRK and are advising us accordingly. We are making further plans to visit the DPRK in the coming months to further bolster our business contacts and to research and assess various venues.

We expect this ongoing project to require a sustained effort. We are committed to work as hard and as long as it takes to activate this rare and much needed entity. We will continue negotiating and flying into and out of the DPRK as needed during this process to lay the groundwork and to build the trust to ensure that a favorable outcome can be created. We want the DX community to be aware and to understand that a sustained effort is being made to activate this rare and important entity.

Thank you,

N6PSE AH6HY YT1AD K3LP
