# GOOD TO KNOW

Access to the main functions of [www.425dxn.org](http://www.425dxn.org) is provided by the 425DXN App for Android. It is available on Google Play - free of charge, no ads. Enjoy!

**3C0L & 3C1L** • Yuris, YL2GM and Kaspars, YL3AIW have uploaded to Club Log the last part of their 3C1L log, which now contains 43,612 QSOs with 14,811 unique calls. About 1400 QSOs were made on 9-10 October, the rest from 27 October to 12 November. While on Bioko Island (AF-010), Equatorial Guinea they operated CW (77,41%), SSB (17,83%) and RTTY (4,76%). On 13-25 October they were active as 3C0L from Annobon Island (AF-039). They made 32,447 QSOs with 11,783 uniques on CW (79,87%) and SSB (20,13%). QSL for

both operations via ClubLog's OQRS (direct or bureau), or direct to YL2GN; email requests for bureau cards can be sent to yl2gn[@]lral.lv. The logs will be uploaded to LoTW in six months' time.

**3Y0Z: BOUVET 2018** • While "the sea container should now be between the ports of San Antonio, Chile and its destination, Punta Arenas, Chile", the Team posted on 22 November, "the most recent propagation predictions continue to support the patterns shown in the videos on our propagation page (<http://www.bouvetdx.org/propagation/>)". The band plan has been published, and it includes FT8. It will not be a primary mode for 3Y0Z, but it will be used only "when we cannot use the standard, higher rate modes", i.e. "when the band dies, or before it opens". Detailed guidelines are available at <http://www.bouvetdx.org/band-plan-frequencies/> ("Ten Steps on How to Work 3Y0Z (Bouvet) With FT8").

**425 DX NEWS MAGAZINE** • The October 2017 issue is now available for download at <http://www.425dxn.org/index.php>. [TNX IZ3EBA]

**5L3BI** • After trying for two days in a row, the 5L3BI team [425DXN 1382] was unable to land on Baiyah Island (AF-111), as the sea was too rough. "The swell around the rock never eased", Col MM0NDX says, and the boat "almost capsized". EL2EL (Col), EL2GM (Jeremy) and EL2BB (Dave) were active from mainland Liberia. QSL EL2EL and EL2GM via M0OXO's OQRS, QSL EL2BB via EI9FBB. Once back at home, the team was able to share the actual difficulties they encountered: "Had we failed? Yes. Had we escaped without any injuries or harm? Yes. Did we make the right decision? Yes. Will we attempt it again in the future? No", they say, because "after experiencing and

witnessing so much of local customs, none of the team are prepared to put themselves into this situation again". The full story is well worth a reading, and can be found on <https://dx-world.net/wp-content/uploads/2017/11/5L3BI-story-pdf.pdf>. "We are ever so thankful to those DX Groups, Foundations and individuals who have already requested for us to keep their donations and to use towards the expense of this project. We also invite anyone who has made a donation and would like it returned to please contact us (dxe59[@]gmail.com) in the first instance so we can make arrangements to repay it as soon as possible".

**ARRL INTERNATIONAL GRID CHASE** • This new year-long operating event will run from 00.00 UTC on 1 January through 23.59 UTC on 31 December 2018. It is open to all amateurs, regardless of location or license class. Any operating mode is eligible as well as every band, except 60 metres. The objective is to work stations in as many different Maidenhead grid squares as possible, and then upload your log data to ARRL's Logbook of The World (LoTW). Each new grid square contact confirmed through LoTW will count toward your monthly total. At the end of each month, the monthly scores will be reset to zero to begin the new month of competition. The online scoring system will maintain your monthly totals for a grand total at the end of the year, when an annual summary will be released and awards given to top finishers in various

categories. See <http://www.arrl.org/aigc2018> for complete details.

**CLUB LOG'S MOST WANTED LIST** • The Most Wanted List generated on 31 October is available at <https://secure.clublog.org/mostwanted.php>. The information is derived from QSOs uploaded to Club Log (currently 452.3 million log entries available for analysis) and, to improve quality, only QSOs that have QSLs confirmed are considered to be worked. The most wanted charts are rebuilt once per month, on average.

**FT3YL** • Francois, FT3YL (F4HLT) is now QRT and will be leaving Antarctica soon. During his stay at the Dumont d'Urville Station on Petrels Island (AN-017) he made some 1200 QSOs, logged between 15 February and 29 October. Most contacts were with JA, VK and ZL, with a few US stations and very few Europeans. Limited spare time combined to "high winds, rigs breakdown and solar blackout" made his operating "a very hard challenge". QSL via Club Log's OQRS, LoTW or via F6KPP (direct or bureau). [TNX F5RAB and F5PHW]

**IOTA NEWS** • Record-holders who have made IOTA contacts in an IOTA contest after 2003, can claim credit for them without submitting QSLs, provided that the contact details match. Go to <https://iota-world.org/>, log in, select "Add Contest QSOs" under the "My IOTA" tab, and then upload your .cbr or .log file(s). The logs for the IOTA Contest 2017 island stations (490,394 QSOs) have now been added to the IOTA database and are available for QSO matching.

**INDEXA NEWSLETTER** • The Fall 2017 edition (#119) of the International DX Association's Newsletter (INDEXA) is now available for download at [www.indexa.org/newsletters.html](http://www.indexa.org/newsletters.html). In this issue "you'll enjoy reading about the S21ZED/S21ZEE DXpedition to Bangladesh that occurred in March of this year. Besides that, you'll have a chance to have a brief introduction to our three new directors. And, a note from INDEXA's only fifth President in over 34 years - Bob Schenck, N200 - will give you comfort that the reins of INDEXA are still in good hands". [TNX K8YC]

**OQRS ENABLED** • Club Log's OQRS has been enabled for F6KOP/p (Fort Brescou Island (EU-148). See <https://secure.clublog.org/logsearch/F6KOP/P-EU148> (4,286 QSOs logged on 21-23 October).

**QSL 9N1AA** • Dan, N4GNR is the new QSL manager for Satish, 9N1AA. "I understand that N4AA had a sack full of unanswered cards at his home up to the time of his death", Dan says. "I will be getting those cards this week, and I hope to have them answered within two weeks. Any cards that come in hereafter will be answered same day". QSL direct only to Dan Cisson, 12 Hancock Drive, Toccoa GA 30577, USA.

**QSL GALLERY** • The large collection of QSL cards on Les Nouvelles DX's website has been updated. Sixteen different galleries include 15,157 cards for the ten Most Wanted DXCC Entities (2004-16), the 62 deleted DXCC Entities, obsolete prefixes, stations from Maghreb from 1945 to 1962, Allied Forces stations in Germany (1945-70), special stations commemorating ITU and IARU, stations using the United Nations prefix (4U), Antarctic bases and TAAF (Terres Australes and Antarctiques Francaises), the various French DXCC island Entities in the Pacific Ocean, the Indian Ocean and the Americas (from 1945 to 1970), pre-1945 countries, French Departments and CONUS, plus a gallery for cards not accepted by DXCC. Your participation is encouraged: <http://www.lesnouvellesdx.fr/galerieqsl.php>. [TNX F6AJA].

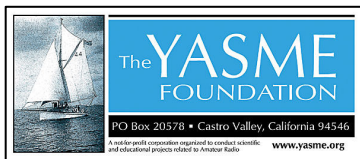

**QSL VIA G3SWH** • Phil, G3SWH reports that "the backlog of all outstanding direct QSL requests for Joe, G3MRC's numerous callsigns (7Q7BP, 5X1P, 9Q5MRC, 9U5MRC, C91MR, C91MR/3, C93MR, C96MR, C97MR, G3MRC, G3MRC/C9, G3MRC/9Q5, 9X5/G3MRC, Z38/G3MRC, 5H/9Q5MRC and ZB2/G3MRC) have now all been processed and mailed. Some of the logs are still on paper and I am working on digitising them with a view to uploading them to Club Log, LoTW and my own web site ([www.g3swh.org.uk](http://www.g3swh.org.uk)). This will probably take a few more weeks". Joe's RSGB membership lapsed at the time of his passing (May 2017). Consequently, as the RSGB QSL bureau will not process outgoing cards for non members, paper QSLs for these stations are only available direct with adequate return or via the OQRS on Phil's website above.

**QSL VIA SM4VPZ** • Lily, SM4VPZ is the QSL manager for 5X1JM, 7R7R, 7U9C, 7X2JV, 7X2WEK, 7Y9GH, 7Y9LI, 7Y9OU, 7Y9SE, 7Y9TH and 9N7ZK. QSL direct only (Liliana Aspelin, Hertig Karlsgatan 21B lgh 1201, SE-682 30 Filipstad, Sweden), as she does not use the bureau. See qrz.com for PayPal details.

**VK9AR** • Mike AB5EB (CW), Mike AD5A (CW) and Craig VK5CE (SSB) operated as VK9AR (<https://ashmorereef.wordpress.com/>) from Ashmore Reef (OC-216) for two days and a half, and logged 8173 QSOs with Asia (50%), Europe (33%) and North America (13%). On the return journey to Broome, there was an opportunity for the bird researchers they were travelling with to do a quick visit to Browse Island (OC-234). The team "had no choice of the arrival /departure time or length of stay" on the island, but "made the effort to get it on the air with 2 stations for as long as we could". 720 QSOs were logged on 20 and 17 metres between 21.31 UTC on 11 November and 00.40 UTC on 12 November. Unfortunately it was too late in the local morning for Europe, and "only some got in the log". Logsearch and OQRS for VK9AR and VK9AR/6 are now available on

Club Log. Both the operations have been approved for IOTA credit.

**YASME EXCELLENCE AWARDS** • In 2008 The Yasme Foundation ([www.yasme.org](http://www.yasme.org)) established the Yasme Excellence Awards, to be presented to individuals and groups who, through their own service, creativity, effort and dedication, have made a significant contribution to amateur radio. The contribution may be in recognition of technical, operating or organizational achievement, as all three are necessary for amateur radio to grow and prosper. The Yasme Excellence Award is in the form of a cash grant and an individually-engraved crystal globe. The latest recipients, announced on 6 November, are:

- **Dayton Amateur Radio Association (DARA)** - to pick up the world's largest amateur radio event on a few months notice and move it to a completely different facility is a daunting task. That it went so smoothly was a testament to the extraordinary efforts of the 600 volunteers and event leadership.
- **Paul Verhage, KD4STH** and **Bill Brown, WB8ELK** - for their leadership and continued technical innovation in amateur radio high-altitude ballooning (ARHAB - [https://en.wikipedia.org/wiki/High-altitude\\_balloon](https://en.wikipedia.org/wiki/High-altitude_balloon)). While not the traditional means of introduction, ARHAB is exposing hundreds of students to amateur radio through an interest in science experimentation. Both have written extensively about ARHAB and have contributed material to the ARRL Handbook.
- **Nathaniel Frissel, W2NAF** and **Magda Moses, KM4EGE** - for creating and leading the HamSCI (Ham Radio Science Citizen Investigation) organization that sponsored the Solar Eclipse QSO Party (SEQP). The SEQP was the largest amateur radio experiment ever devised and generated the world's most extensive set of HF propagation observations during an eclipse. Beyond the SEQP, HamSCI is attracting the interest of professional/ academic researchers such as from numerous universities, the Arecibo Radio Observatory in Puerto Rico, MIT's Haystack Observatory, and HAARP facility in Alaska.
- **The WSJT Development Team** - initially the work of Joe Taylor, K1JT, the WSJT software is now maintained and extended by a team of developers led by Bill Somerville (G4WJS), Steve Franke (K9AN), Greg Beam (KI7MT), Michael Black (W9MDB), Edson Pereira (PY2SDR) and Nico Palermo (IV3NWV), along with Joe Taylor. Their latest digital mode, FT8, combines the extraordinary low-SNR performance of JT9 and JT65 with a much faster decoding and exchange process.
- **Dale Hughes, VK1DSH** - for his excellent work as Chairman of the Amateur Working Group in ITU-R Working Party 5A and as Chairman of the sub Working Group dealing with a worldwide 60 meter amateur allocation during World Radiocommunication Conference 2015.

Additionally, the Board of Directors of The Yasme Foundation also made a grant to **Gary Pearce, KN4AQ**, for his production and distribution of videos of interest to the amateur radio community through Ham Radio Now and YouTube. [TNX W6SZN]

**YOTA MONTH** • The Youngsters On The Air group will be active again during the entire month of December. The idea for this event is to show the amateur radio hobby to youth and to encourage youngsters to be active on the ham radio waves. Announced participating stations include 3V8YOTA, 6V1YOTA, 9A0YOTA, 9A17YOTA, DQ17YOTA, DR0YOTA, E71YOTA, EG2YOTA, ET3AA, GB17YOTA, HB9YOTA, II2YOTA, II5YOTA, LZ17YOTA, OF2YOTA, OL17YOTA, OM9YOTA, ON4YOTA, PD6YOTA, R17YOTA, SH9YOTA, YO0YOTA, YT17YOTA, Z60YOTA and ZS9YOTA. QSLs via Club Log's OQRS or direct to M0SDV. See <https://events.ham-yota.com/> for information on the event and the award.

**+ SILENT KEY +** ARI President and former Secretary General Mario Ambrosi, I2MQP passed away unexpectedly on 6 November at 74 years of age. Licensed since 1975, he was an accomplished DXer with 339/356 (current/total) in the DXCC Honor Roll Standings; he also gained DXCC on 9 bands (80-6m) and the CQ WPX Award of Excellence. A CQ Awards Checkpoint and DXCC Card Checker, in 2005 he was inducted into the CQ Amateur Radio Hall of Fame as a "prominent Italian amateur, author of many radio books, QSL manager, top official of Italian national amateur radio association and

Editor of its magazine, RadioRivista". Above all, he was a personal friend of your Editors' for thirty years, and we will sorely miss him.
