

D.G.M.

Diploma Guglielmo Marconi

The Italian Radio Amateur Association (A.R.I.) institutes the Diploma Guglielmo Marconi, in order to commemorate and to emphasize the work of the great scientist.

This diploma celebrates the most significant documented experiments carried out by Marconi in several parts of the world.

The diploma will be conferred free of charge to those who will demonstrate to have connected (or to have listened to) the places from which Marconi carried out such experiments.

In order to obtain it, it is necessary to send to the A.R.I. - Department of Bologna, a log containing all details of the QSO, or of the listening reports and in addition: 40 QSL of the mentioned localities, or 35 QSL of the mentioned localities, in addition to the official QSL of the memorial station IY4FGM and an other QSL of one of the other memorial stations, for an amount of 37 cards.

On the log it is necessary to clearly specify the city, region or locality in question. For the restitution of cards, it is sufficient to enclose the money necessary for return by mail, otherwise the cards will be sent back via bureau.

The diploma can be obtained in the following emission modes:

SSB, CW, RTTY, SSTV or mixed.

There are no limitations as regards the bands use (among those attributed to us).

The QSL confirmed after the date of 1 January 1973 will be considered valid.

The requests must be forwarded to the following address:

A.R.I. - D.G.M. - P.O. BOX 1771 - I-40100 BOLOGNA - ITALY

E-Mail: info@ari-bo.it
