About 1400 QSOs were made on 9-10 October, the rest from 27 October to 12 November. While on Bioko Island (AF-010), Equatorial Guinea they operated CW (77,41%), SSB (17,83%) and RTTY (4,76%). On 13-25 October

they were active as 3C0L from Annobon Island (AF-039). They made 32,447 QSOs with 11,783 uniques on CW (79,87%) and SSB (20,13%). QSL for both operations via ClubLog's OQRS (direct or bureau), or direct to YL2GN; email requests for bureau cards can be sent to yl2gn[[@lral.lv](mailto:yl2gn@lral.lv)]. The logs will be uploaded to LoTW in six months' time.

425 DX NEWS MAGAZINE ---> The October 2017 issue is now available for download at <http://www.425dxn.org/index.php>. [TNX IZ3EBA]

5L3BI --- > The 5L3BI team are now able to share the actual difficulties they encountered during their attempt of activating Baiyah Island (AF-111): "Had we failed? Yes. Had we escaped without any injuries or harm? Yes. Did we make the right decision? Yes. Will we attempt it again in the future? No", they say, because "after experiencing and witnessing so much of local customs, none of the team are prepared to put themselves into this situation again". The full story is well worth a reading, and can be found on <https://dx-world.net/wp-content/uploads/2017/11/5L3BI-story-pdf.pdf>.

"We are ever so thankful to those DX Groups, Foundations and individuals who have already requested for us to keep their donations and to use towards the expense of this project. We also invite anyone who has made a donation and would like it returned to please contact us (dxe59[[@gmail.com](mailto:dxe59@gmail.com)]) in the first instance so we can make arrangements to repay it as soon as possible".

QSL VIA G3SWH ---> Phil, G3SWH reports that "the backlog of all outstanding direct QSL requests for Joe, G3MRC's numerous callsigns (7Q7BP, 5X1P, 9Q5MRC, 9U5MRC, C91MR, C91MR/3, C93MR, C96MR, C97MR, G3MRC, G3MRC/C9, G3MRC/9Q5, 9X5/G3MRC, Z38/G3MRC, 5H/9Q5MRC and ZB2/G3MRC) have now all been processed and mailed. Some of the logs are still on paper and I am working on digitising them with a view to uploading them to Club Log, LoTW and my own web site (www.g3swh.org.uk). This will probably take a few more weeks". Joe's RSGB membership lapsed at the time of his passing (May 2017). Consequently, as the RSGB QSL bureau will not process outgoing cards for non members, paper QSLs for these stations are only available direct with adequate return or via the OQRS on Phil's website above.

QSL VIA SM4VPZ ---> Lily, SM4VPZ is the QSL manager for 5X1JM, 7R7R, 7U9C, 7X2JV, 7X2WEK, 7Y9GH, 7Y9LI, 7Y9OU, 7Y9SE, 7Y9TH and 9N7ZK. QSL direct only (Liliana Aspelin, Hertig Karlsgatan 21B lgh 1201, SE-682 30 Filipstad, Sweden), as she does not use the bureau. See qrz.com for PayPal details.

VK9AR --- > Mike AB5EB (CW), Mike AD5A (CW) and Craig VK5CE (SSB) operated as VK9AR (<https://ashmorereef.wordpress.com/>) from Ashmore Reef (OC-216) for two days and a half, and logged 8173 QSOs with Asia (50%), Europe (33%) and North America (13%). On the return journey to Broome, there was an opportunity for the bird researchers they were travelling with to do a quick visit to Browse Island (OC-234). The IOTA team "had no choice of the arrival /departure time or length of stay" on the island, but "made the effort to get it on the air with 2 stations for as long as we could". 720 QSOs were logged on 20 and 17 metres between 21.31 UTC on 11 November and 00.40 UTC on 12 November. Unfortunately it was too late in the local morning for Europe, and "only some got in the log". Logsearch and OQRS for VK9AR and VK9AR/6 are now available on Club Log. Both the operations have been approved for IOTA credit.

QSLs received direct or through managers: 4V1G, 5A1AL, 5A5A, 9V1YC, A25BE, A61Q, AL3/AA7CH (NA-042), B7/BD7IHN (AS-094), CP6CL, D2EB, HD2RRC (SA-034), HD2RRC/4 (SA-033), NL6/AA7CH (NA-157), R24RRC (AS-044 and AS-114), R71RRC (AS-071), RI0C (AS-069), RI0LI (AS-022), RI1ON (EU-066), S9YY, ST100S, TZ4AM, TZ4PR, V63YL (OC-010), V6J (OC-226), V73NS (OC-028), VK9CGJ, VK9XGJ, VP5/W5CW, XT2AW, ZD7BR, ZF1A.
