EN7P ---> Apparently there are problems in downloading the QSOs made with EN7P from the WWFF Log Search, Vladimir UT1PG reports. Paper QSL cards can be requested direct (P.O.Box 21, Kovel-8, 45008, Ukraine) or via the bureau by sending your request by email to [ut1pg\[@\]lrv.net.ua](mailto:ut1pg[@]lrv.net.ua). [TNX UT1PG]

IARU NEWS ---> On 2 July 2015, voting was completed on the admission of Association Burundaise des Amateurs Radio et Television (ABART) to IARU membership. With 51 affirmative votes required for approval, there were 67 votes in favour of and no votes in opposition to Proposal No. 253, which is therefore adopted.

IARU Region 1 has also requested that the International Secretariat resubmit a proposal for the admission of Shoqata e Radio Amatoreve te

Kosoves (SHRAK). Two votes in favour of SHRAK being admitted to the IARU were received shortly after the voting deadline. Those two votes, if received before the deadline, would have been sufficient to have the proposal adopted. Region 1 and the International Secretariat have determined under the circumstances that submitting the proposal for a vote of the Member-Societies a second time is appropriate (Proposal No. 254). The closing date for receipt by the International Secretariat of votes is 9 December 2015. Details can be found at <http://www.iaru.org/news--events>.

ICPO BULLETIN ---> VA3RJ's useful ICPO (Islands, Castles & Portable Operations) Bulletin will soon be available only on Dave's website, in a DX Calendar format: <http://www.qsl.net/va3rj/icpo.html>. "It is time to hang up my hat and have some time to play radio, instead of writing about it", Dave says.

VP8SGI & VP8STI ---> The Intrepid DX Group announced on 15 July that all of their plans "are moving forward very well" and that they are "testing and re-testing our gear one last time before it goes into a container next week and makes its voyage to meet the RV Braveheart in New Zealand". The team's goal is to conduct two 8-10 day DXpeditions to South Georgia and the South Sandwich Islands. They will be QRV with six stations on all bands (including 6 and 60 metres); in order to increase the number of unique callsigns, they will "select a band that is propagating for the most hours of the day, and we will be QRV on that band for the duration of our activity". The VP8STI/VP8SGI team still has a significant deficit of \$110,000 and needs the support of the worldwide DX Community to help them make this project a success: "we encourage you to visit our website (www.intrepid-dx.com/vp8) and donate via the PayPal link".
