ATNI FIRST ---> Rick, K6VVA has announced that his new "ATNI First Protocol" (where ATNI stands for All Time New IOTA) will be the operating strategy on all of his future IOTA expeditions. Watch the video on You Tube (https://youtu.be/2_pQ0_sDeZc: "core basics will be translated into multiple languages", he says) and be prepared for quite unusual instructions being transmitted during his activities!

CU3URA 30TH ANNIVERSARY ---> Established on 28 May 1986, the Uniao de Radioamadores dos Acores celebrates its 30th anniversary by issuing an electronic certificate for three contacts made with CU3URA on different bands between 28 May and 31 December 2016. The certificate is free of charge and available to SWLs on a heard basis. Send QSO details to cu3aa.azores@gmail.com. [TNX CU3AA]

MUSEUM SHIPS WEEKEND ---> Organized by the Battleship New Jersey Amateur Radio Station (NJ2BB), this year's Museum Ships Weekend will be held from 00.00 UTC on 4 June until 23.59 UTC on the 5th. Information on the event, including the relevant certificate and the listing of participating ships, can be found at www.nj2bb.org.

QSL VIA JR1EFG ---> Tak encourages those who worked him as KH2/KU0Q (September 2015), 9M6/JR1EFG (December 2015) and T88FG (April 2016) to use Club Log's OQRS, especially for requesting bureau cards.

YASME EXCELLENCE AWARDS ---> In 2008 The Yasme Foundation (www.yasme.org) established the Yasme Excellence Awards, to be presented to individuals who, through their own service, creativity, effort and dedication, have made a significant contribution to amateur radio. The contribution may be in recognition of technical, operating or organizational achievement, as all three are necessary for amateur radio to grow and prosper. The Yasme Excellence Award is in the form of a cash grant and an individually-engraved crystal globe. The latest recipients, announced on 26 May, are:

- Tim Duffy, K3LR: in recognition of his adaptation and development of the Contest University (CTU), now in its tenth year. CTU has not only reached hundreds of amateurs around the world, but it has also inspired others to create their own CTU-format training programs in other fields. Tim's dedication to CTU is in the finest traditions of amateur radio's self-teaching and training.
- Carole Perry, WB2MGP: in recognition of her many years of contributions to teaching and mentoring youth interested in amateur radio and her efforts in organizing and promoting the interests of young operators. This youth-oriented work becomes more and more important to amateur radio with every passing year. Carole's dedication to this work, including through the Radio Club of America, is in the finest traditions of amateur radio's self-teaching and training.
- Tom Rauch, W8JI: in recognition of his many contributions to the technical advancement of the amateur service. Tom's willingness to provide education and direction to amateurs through his website (www.w8ji.com) and other communications is a prime example of hams mentoring, teaching and training each other in the finest traditions of amateur radio. [TNX W6SZN]

Z60A ---> At the invitation of the Kosovo national Amateur Radio society (SHRAK), Nigel G3TXF plans to operate the Kosovo headquarters station Z60A during this coming weekend's CQ WW WPX CW Contest. This short operation is in preparation for SHRAK members taking part for the first time in the IARU HF World Championship on 9-10 July. QSL via OH2BH; logsearch and OQR on Club Log. [TNX N7NG]
