CQ WW RTTY DX CONTEST ---> This year's edition will take place on 24-25 September (from 00.00 UTC on Saturday until 23.59 UTC on Sunday). The objective is for amateurs around the world to contact as many other amateurs in as many CQ Zones, countries, continental US states (District of Columbia included) and Canadian call areas as possible on 80, 40, 20, 15 and 10 metres. See https://cqwwrtty.com/ for complete information.

IOTA NEWS ---> The logs for the IOTA Contest 2022 island stations have now been added to the IOTA database and are available for QSO matching. Record-holders who have made IOTA contacts in an IOTA contest after 2003, can claim credit for them without submitting QSLs, provided that the contact details match. Go to https://iota-world.org/, log in, select "Add Contest QSOs" under the "My IOTA" tab, and choose either "Upload Contest Log" or "Manual QSO Entry". Please note that the following activations will be added after additional information has been received: VR2UNG (AS-006), BY4XRA (AS-135), BA4DL (AS-136), BD4CRN (AS-136), BH4BFS (AS-136), BG5BWZ (AS-141), BY4JN (AS-150), BG2VIA (AS-158).

"Please be aware of a problem with the online log", M0OXO says. "Harald merged both his XT2AW log and 9X2AW FT8/FT4 logs in error, and this log was uploaded to the OQRS. There are over 8,000 QSOs that need to be manually and
