\*\*\*\*\*

D2TT & D3T BY ON6TT -> Peter is back home from Angola where he logged about 10000 QSO (900 in RTTY) on all bands from 80 to 10 meters, using the D2TT and D3T calls. His station was placed in a Red Cross camp, near Luanda, with few space for antennas that limited the low bands operations, due also to noise and poor conditions. Peter reports few operators on 10 and 12 meters notwithstanding good propagation allowing him to hear numerous beacons with good signals. There was pile-ups only when someone reported him on the packet cluster.

HONG KONG, VR2 -> On 30 June 1997 Hong Kong will return under the sovereign of the Popular Republic of China. This could be a DXCC status change but it seems that Hong Kong will remain a China region with special rules and there will be no differences for the next 50 years, amateur activities included.

FM5DN -> Doug (N3ADL), QSL manager of FM5DN, reports that he has no more received logs from Leon from December 1994 at today and then he can't answer to the requests he received. However the situation will be soon solved.

VF1L -> The operation of VF1L by VE1AL concluded August 31, 1995 at 2359z with 5300 QSOs logged on 15-160M, CW and SSB. For those wishing the VF1L QSL commemorating the 275th anniversary of the founding of the Fortress of Louisbourg, the 250th anniversary of the first siege, and the 100th anniversary of the Sydney and Louisbourg Railway, cards are available via the Bureau and direct. VF1L is located on IOTA NA-010. Direct requests with sufficient return postage (via VE1AL) will be returned with the QSL and a color post card aerial view of the reconstructed fortress. Stamps used on the return envelope will be from a 1995 Canada Post series to commemorate the anniversaries at Louisbourg, with a special Louisbourg postmark used only in 1995. Of interest to collectors is the five-stamp full-bleed series showing a panorama of the 18th century Fortress. A booklet of these stamps is available while limited supplies last for US\$5.00 and will be included with your return QSL. Please note that with recent increases in IRC prices, a US dollar is LESS EXPENSIVE and actually of more value in Canada than an IRC. While the IRC will purchase a stamp for return postage, the greenstamp additionally helps cover costs of printing and other expenses such as getting great numbers of cards to and from the Bureau. Louisbourg commemoratives will be used only until November 30, 1995. Note that the stamps are oversize and contain a border with an explanation of the particular image. Leave 2x3 inches at the top right on a #10 envelope to ensure your name and address are not covered. If you do not wish to have the commemorative stamps, send an SASE with the following CANADIAN postage: Canada 45 cents, United States 52 cents, All others 90 cents

DL7UUO -> Sigi reports that after a long delay in printing and delivery of the cards, has started to answer for V52UUO and V52UTR activities.

ET3AA QSL ADDRESS -> The address of the Radio Club ET3AA in Ethiopia is the following ET3AA, P.O. Box 60258, Addis-Ababa, Ethiopia, Africa.

PY0TUP QSL ADDRESS -> The new Joao, PY1UP, address (QSL manager for the PY0TUP operations from Trindade Island) printed on QSL recently received is: Joao Batista G. Mendonca, R. Alfredo Backer 536 Bl 5/1101, Alcantara - Sao Goncalo - RJ, Cep. 24452-000 Brasil.

QSL VIA WA1ECA -> Frank, WA1ECA, reports that he is the QSL manager for these stations: TL8NG, EA6ZZ, EH6UC, CT1EEB, ED6UC, CU3LG, CS8B, 5N7YZC, CQ1A, CR4Y, CT1YRV, CQ2C, 5X1F, 5X1C, CR8A, CQ5EEB, CS1A, EA8BYR, 9Q5CME, TG8AJR, EA7HBY, CU3/NOFHL, SV0HW/SV9, 5N6/N9MDW.
