- hope to hear them soon on the bands.

 - HK - Until 31 december the special HK100GM station is active, to celebrate the Radio Centennial and Guglielmo Marconi. The LCRA (Liga Colombiana de Radioaficionados, Seccional Bogota) will activate this station on all bands and all modes. QSL via HK3DDD, P.O. Box 25827, Bogota, Colombia.
 - IA1 - Saturday 23 September, if weather permits, Giovanni (IK1JJB) and Pierluigi (IK1EDC) will be portable IA1 from Madonnina Reef (IIA SV-??) and from Margonara Reef (IIA SV-??). They plan to be active from 10.00 UTC until the end of the day. QSL to IK1JJB (Giovanni Cantarella, Via Musso 22, 14100 Asti).

Operations on HF (80-10 meters) and also on VHF, UHF and 1,2 GHz. Probably one station will be active on 6 metres. They will use their own call signs prefixed by IA5/. QSL via I0VWV.
 - IG9 - Frank (IV3SHF) will be active during the CQWW DX SSB Contest as a single operator 160 metres from the new IG9 multiplier. He will be signing IG9W. Frank reports that he is available for any sked before the contest. It's possible to contact him at these addresses: Internet-iv3shf@ljutcp.hamradio.si; Packet-iv3shf@iv3jdv.ifvg.ita.; EU Cluster-iv3shf > iv3jdv-6; Mail-Frank Spina, Scala dell'erica 32, 34134 Trieste.

 - P5 - Martti's (OH2BH/VR2BH) operation from North Korea, planned from 23 to 24 September (425DXN 219), has been postponed to a date to be defined, probably in early 1996. This is likely to be due to the North Korea crisis, upsetted from floods and cholera. A North Korean delegation should go to Peking to get further information about amateur activities and work, if possible, from BY1PK.

- PY - Vitor, PY2NY, will use the special PW2N call during the next CQWDX Contests, both SSB and CW. During the phone session, Vitor hopes to be QRV on all bands, while for the CW session he plans to operate on one band only, probably on 40 metres. QSL via bureau.
- PY - From 2 to 4 November the ZW0C station will be active from Caju Isl. (SA-072; DIB 17).
- PY0 - Frank, AH0W/OH2LVG, and Jack, WA7LNW (who is still recovering from a surgery operation) do not want to join the SAC Contest from Fernando de Noronha (425DXN 228). Frank still does not know how and where this piece of news was born.
- R1MVI - The operations by OH2BU/MVI and R1MVI from Malyi Vysotskij Island (425DXN 228) have started and will be on until 25 September. They will join the CQWW DX RTTY Contest, working in RTTY only. - VE - During the C.I.S.A. Contest, planned from 17.00 UTC of Saturday 23 September to 23.00 UTC of Sunday 24 September, VE3JDO and VE3RJN will be active from Peele Island (ON-002), located in the Erie Lake
- VE2 - Bob, W1VXV, is active from Sept-Iles, Quebec (WAZ 2), until 25 September, joining the CQWW DX RTTY Contest. QSL via bureau (homecall).
- VK0_h - Following what has been published in previous numbers, Peter, ON6TT reports that, thanks to recent donations by DJ5JI, HB9DDM and from sponsor Cami NV, the European Fund to support the "1995 Heard Island DXpedition" is 3530 US\$ (dated 19 September). The Lynx DX Group, the Chiltern DX Club and Armamast (another commercial sponsor) committed themselves for another 2900 US\$. With about one month to go before the advanced party of the team takes off, donations are still welcome through ON6TT (for Europe), K0IR (for Americas), JH1AJT (for Japan), VK2BEX (for Oceania).
- VO2 - During the forthcoming CQWW DX SSB Contest (28-29 Octobr), WA0PUJ, N0AFW, AH9B and KG4DX will be active as VO2WL, in the Multi-Single category. Before and after the contest they will be QRV as VO2/homecall. QSL via WA0PUJ.

- VP8_ant- From early October until the end of January 1996, Kenn, G0NKZ will be active from Antarctic base Patriot Hills (Ellsworth Land, WABA MN-01). The activity will take place on 20 metres (14150-14200 KHz) and on 40 me/tres (7080-7090 KHz). QSL via G0SZO.
- W6 - From 24 to 26 September, WY6/IK1GPG will be active from Santa Cata-

lina Island (NA-066). He will stand by for European stations at 22.00 UTC on 14260 KHz. QSL via homecall.

- 4S7 - In mid-November Pierre, HB9AMO will be in Sri-Lanka, from where he will try to get a licence to work as 4S7/HB9AMO. Pierre will use a TS-50 and, if allowed to install adequate antennas, he will try to activate as many bands as possible. Operations mainly in CW, on WARC bands and, if possible, on 80/160 meters, joining the CQWW DX SSB Contest. QSL via homecall.
- 4U_itu - LX1KQ e LX1OM are active from Ginevra as 4U1ITU and will join the CQWW DX RTTY Contest as 4U0ITU. QSL via LX1TI.
- 4X - Arie, 4X6UO during the weekend joins the CQWW DX RTTY Contest using the special 4X0A call. QSL via 4X6UO.
- 5A - SP6RT and SP6AZT have been in Lybia for about one week and hope to operate on 160, 80, 40, 20 and probably on 15 meters too, mainly in CW using the previous but still valid licence of Hubert (SP6RT), with the 5A0A call. Equipments: FT-767, FT-101, 500 Watt linear amplifier and wire antennas. No reports yet on their activity.
- 6Y - Scott (N9JCL) will be portable 6Y5 until 25 September. Scott is active in CW, SSB, RTTY, from 10 to 80 metres, WARC included, and also on RS-12.
- 9X - ON5NT reports that Mark, 9X/ON4WW (425DXN 227), who will remain in Rwanda until the end of the year, should be active during the CQWW DX RTTY Contest. From 22 September Mark is daily QRV following these timetables: at 2015 UTC on 3501 KHz (QSX +1) for Europe and Japan, at 2030 UTC on 1830 KHz (QSX +1) for Europe and at 2045 UTC for Japan (QSX 1910 KHz). From 29 September, but only on Fridays and Saturdays, 9X/ON4WW will be QRV for Americas at 2330 and at 0200 UTC on 160 (1830 KHz, QSX +1) and 80 metres (3501 KHz, QSX +1). Mark has installed a DX77 for bands from 10 to 40 meters and two inverted vees for 80 and 160 metres.

ANDAMAN ISLANDS -> Bob, K9RHY reports that, with regard to VU2JPS's activity from Andaman Is., up to today the only valid DXCC operations are those by VU4APR (March 1987) and VU4GDG (October 1987). Bob has QSL, pictures and faxes about the real QTH for a VU2HMD/VU7's activity which took place in 1985 summer and was publicised by "QRZ DX" (17 June 1985) and by "The DX Bulletin" (28 June 1985). But in 1987 the DXCC Desk gave no validation for that operation saying that no documentation was sent. No operation will be approved without the official authorization by Indian government and this authorization is quite impossible to have. The 1987 operations by VU7APR were helped by Prime Minister Rajiv Gandhi (an enthusiast radio amateur, he was killed some years ago), son of Indira Gandhi. Bob therefore suggests not to be optimist about operations not officially declared.

LUIS HURRICANE -> The hurricane that hit Anguilla and St. Martin has destroyed the antennas of Dorothea, VP2EE, and Dave, VP2EHF. Telephone communications are interrupted, the electric energy is suspended and two of their transceivers are broken. Many US amateurs, WB1HBB above all, are trying to give them emergency equipments.

FR5HG/T-G-J -> To confirm what has already been reported in number 226 (see PIRATES), Herick, FR5DX, has confirmed that Michel, FR5HG, has just come back to Reunion after an holiday in Malagasy without any equipment Therefore the operations with his call during August and September were made by pirates.

FY0EK/FY5KE -> Gabriel, F6DQM, reports that he is not the QSL manager for FY0EK and FY5KE operations. Gabriel suggest to use the French QSL bureau or this address: RACK, P.O. Box 450, 97310 Kourou, Guyane Francaise, France.

3A2LZ -> Daniel reports that he has received some QSLs wrongly addressed to Box 393 of Monaco (it seems that this address is also reported in some versions of the Buckmaster-CDROM). His correct address is the following: 3A2LZ, Daniel Plett, Box 349, Monaco. Daniels confirms also via bureau.

QSL received: 3XY0A/P (AF-051), 5N0GC, HC8KU, IM0/I0QI (EU-041, IIA SS-12), LT7F, S07URE, S92LB, XU95HA.
